MOUNT ST. MARY'S COLLEGE CATALOG 1984-86

Every effort has been made to make the information contained in this catalog as accurate and up-to-date as possible. The information is, however, subject to change without notice. Those interested in any program or offering are invited to discuss their interest with the appropriate college official who can advise them of any changes.

Accreditations

Chartered by the State of California in 1925, Mount St. Mary's College is accredited by:

The Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges
The California State Board of Education
Commission on Teacher Credentialing
The California Board of Registered Nursing
The National League for Nursing
The National Association of Schools of Music
American Physical Therapy Association

Information regarding these accreditations is located in the Office of the President, 12001 Chalon Road, Los Angeles, California 90049.

Nondiscrimination Policy

Mount St. Mary's College does not discriminate on the basis of race, color, creed, national origin, age or handicap in the administration of its admission policies, scholarship and loan programs, or in its educational programs.

The College offers equal opportunity to all members of its faculty and staff and to applicants for employment without discrimination as to race, color, creed, sex, age, handicap or national origin.

The older facilities of Mount St. Mary's College provide limited wheelchair access.

Mount St. Mary's College complies with the provisions of the Family Educational Rights and Privacy Act of 1974.

In conformance with College Policy, Mount St. Mary's College is an Affirmative Action/Equal Opportunity Employer.

Inquiries regarding the College's equal opportunity policies may be directed to Sister Edward Mary Zerwekh, Affirmative Action Coordinator at (213) 476-2237.

Graduate & Undergraduate Programs

FALL 1984

May-July		Early registration for Fall 1984— All students
September	3	Labor Day
	11	Faculty Convocation
	12	Transfer Orientation
	13	Testing of Chalon freshmen who did not complete early registration during summer; testing of Doheny freshmen.
	13-14	Last days for undergraduate students to meet financial obligations for Fall semester: 9 a.m.-12 noon; 1 p.m.-2 p.m.. Late registration fee (\$20) applies after 2 p.m., September 14 (Chalon and Doheny campuses).
	13-14	Advisement and registration (undergraduate); 9 a.m.-12 noon; 1 p.m.-2p.m. (Chalon and Doheny campuses).
	14-16	Freshman Orientation for Chalon students; orientation for all new Doheny undergraduate students.
	15	Graduate/Evening registration at Doheny Campus 9 a.m.-12 noon; (Graduate/evening students may also register September 17-21, 4:00-5:30, 6:30-7:45 p.m.)

	17	Classes begin (undergraduate and graduate)
	28	Last day to add a class without a petition; to change from lower to upper division credit; to drop a course without a fee; to register late
October	3	HORIZONS '84 Convocation; Mass of the Holy Spirit; notification of class cancellations will be available in advance
	22	Mid-semester break — no classes
October November	23- 2	Notice of mid-semester academic difficulty (undergraduate students)
November	1-20	Advisement and early registration for Interterm/Spring 1985 for graduate students
	12-28	Advisement and early registration for Interterm/Spring 1985 for undergraduate students
	22-23	Thanksgiving Vacation
	26	Last day to withdraw from a class with a grade of W without a petition; to file for CR/NC grading; to declare audit; last day to file for June graduation (undergraduate)
	26	Last day to file for December/January graduation (all students)
December	17-21	Final Examinations
	22	Christmas Vacation begins

INTERTERM 1985

January	7	Interterm classes begin; registration of new and exchange students; late registration of returning students
	10	Last day to add an Interterm class without a petition; to change from lower to upper division credit; to drop a class without a fee; to register late
	21	Last day to withdraw from a class with a grade of W without a petition; to file for CR/NC grading; to declare audit
	31	Interterm classes end

SPRING 1985

February	2	Graduate/Evening registration at Doheny Campus 9 a.m.-12 noon;
	8	Advisement and registration for undergraduate students; 9 a.m. to 12 noon; 1 p.m. to 2 p.m.
	7-8	Last days to meet financial obligations for Spring semester; 9 a.m. to 12 noon; 1 p.m. to 2 p.m.; late registration fee (\$20) applies after 2 p.m., February 8
	11	Spring classes begin
	18	Washington's Birthday Holiday
	25	Last day to add a class without a petition; to change from lower to upper division credit; to drop a class without a fee; to register late

	March	1	Last day to file for Masters degree to be conferred June 1985
		29	Last day for Doheny A.A. students to file for baccalaureate degree program
	March	25-	Notice of mid-semester academic difficulty for undergraduate students
	April	3	
	April 4-14		Easter Vacation
		15	Classes resume
		24	SIENA DAY: Notice of class cancellations will be available in advance
	May	3	Last day for sophomores to declare major
		6-17	Advisement and early registration for Fall 1985
		9	Last day to withdraw from a class with a grade of W without a petition; to file for CR/NC grading; to declare audit
		19	Mary's Day/Honors (Chalon)
		27-31	Final Examinations
		30	Graduate Hooding (Doheny)
	June	1	Laurel Day/Honors/Associate Hooding (Doheny); Baccalaureate Hooding (Chalon)
		2	Graduation

SUMMER 1985

June	17	Summer classes begin; registration for students who have not completed registration by mail: Doheny Campus 9 a.m.-12 noon; late registration fee
------	----	--

		(\$20) applies after this date and time
	24	Last day to add a class without a petition; to drop a course without a fee; to reg- ister late
July	4	Independence Day Holiday — no classes
	15	Last day to withdraw from a class with a grade of W without a petition; to file for CR/NC grading; to declare audit
	26	Summer Session ends

THE COLLEGE

History

Founded by the Sisters of St. Joseph of Carondelet in 1925, Mount St. Mary's College has graduated more than 6,500 students in majors ranging from traditional liberal arts studies to individually designed programs. At the time of its founding, the college was housed temporarily at St. Mary's Academy, then located at Slauson and Crenshaw in Los Angeles.

Two years later, in 1927, the Sisters purchased 36 acres from Rodeo Land and Water Company at \$4,500 per acre. The new site for the college stretched among the foot-hills of the Santa Monica mountains, 1100 feet above sea level, overlooking Los Angeles and 40 miles of Pacific Ocean. Twenty years later, an additional purchase brought the Chalon campus to its present 56 acres. At the first commencement exercises, June 16, 1929, baccalaureate degrees were awarded to ten students in the charter class.

In 1962 the college expanded to its second campus on the Doheny Estate in central Los Angeles. The Doheny campus complements the educational opportunities of the original Chalon campus in west Los Angeles by offering career-oriented Associate degree programs and graduate programs.

Characterization Of Mount St. Mary's College

Academic Focus

Mount St. Mary's College is an academic community devoted to continuing exploration of our relation to God, other persons, and nature. This exploration takes the form of programs designed to provide experience in the principal modes of thought by which we reach understanding, and the strengths and limitations of these modes. The objectives are to assist the student to develop a disciplined and continuing curiosity, a receptivity to new ideas, and a base for evaluation of these ideas.

Within the framework of these same major objectives, the College also offers programs, undergraduate and graduate, in which the student engages in more intensive study appropriate to a specific career. In this way the College ensures that it will not only directly serve the society that supports it, but will also enhance the student's awareness of an ever-changing context within which values of the individual must operate. It is in this latter context of a dynamic society that programs of continuing education will find and play their role.

The Religious Commitment

The Catholic commitment of the College manifests itself in many ways. It is found in opportunities for worship. It is found in academic programs. It is found in the way

the College functions. Above all, it is found in the whole environment in which inquiry and learning take place. Thus, the College embodies Christian convictions supportive of lives of commitment and Christian concern in a secular society.

Distinctive Services

Several factors emerge from the history and environment of the College that create a distinctive community. A true academic community becomes possible: the total college — not just the classroom, the academic major or the course — is a learning environment. Historically, the College is a liberal arts institution with a special concern for the education of women; however, men are admitted to undergraduate music and nursing, to graduate programs, and to summer sessions. It is a small college of about 1000 students on two campuses.

The Chalon campus primarily offers baccalaureate programs in liberal arts and sciences, and related professional training. The Doheny campus offers a variety of programs ranging from associate through graduate, in which the metropolitan setting is a significant factor in learning.

Student Development

On both campuses, the Student Development area sponsors a wide variety of activities and services ranging from opportunities for participation in religious, social, and leadership programs to health services, career counseling, and student government. Details of these services and activities are contained within the Student Development section of the baccalaureate description and the Student Services section of the associate program description.

Academic Government

The academic community that is the College requires of each constituent group a distinct role related to the welfare of the whole. As such, it is not a microcosmic political society of identical and equal units in which egalitarian principles can operate. Rather, functional distinctions produce different kinds of responsibilities which in turn must determine kinds of authority.

For example, students and alumnae are helpful when they advise on the quality of teaching and the adequacy of programs. Faculty are best equipped to determine academic content and to advise on program needs. Administrators and staff perform their function when they allocate scarce resources and provide the services necessary to achieve the academic purposes of the College most effectively. Regents assist through participation in College functions and in support of advancement programs. Trustees best discharge their responsibility by defining College goals, reviewing collegiate performance, and providing effective liaison with concerned extra-mural groups.

Because Mount St. Mary's College is a community, each group has an additional responsibility for keeping the others informed and for soliciting the views of others on matters of mutual or overlapping concern. The separation of function must, however, always parallel the division of authority, and the exercise of authority must always recognize the interdependence of each group in achieving the welfare of the College.

Family Education Rights and Privacy Act

Mount St. Mary's College fully conforms with the Family Education Rights and Privacy Act (the Buckley Amendment) of 1974. In accordance with this act, official records are made available to students and are not made available to off-campus persons or agencies without the express consent of the student, except under legal compulsion or in cases in which the safety of persons or property is involved, or for education improvement. See current Student Handbook for policy statement.

Legal Responsibility of the College

The college endeavors to safeguard students in the use of physical facilities, laboratories, and athletic equipment. It is clearly understood that students who use college facilities do so entirely at their own risk. Emergency first aid treatment is available, but the college has no legal responsibility for injury or other damages suffered by students on or off campus, or in travel to and from such activities or for any expenses in connection therewith.

The Alumnae Association

The Alumnae Association works toward the goals and interests of the College and toward strengthening avenues of communication and bonds of loyalty between the College and graduates of the Mount.

The Alumnae Association is a member of the Council for Advancement and Support of Education. Its members qualify for membership in the American Association of University Women; the International Federation of Catholic Alumnae; Kappa Gamma Pi, the honor society for the graduates from Catholic colleges for women; and Delta Epsilon Sigma, honor society for graduates of Catholic universities and colleges.

Degree Programs

Associate Degree Program

At the Doheny Campus, courses of study are offered which lead to the Associate in Arts degree. Students may specialize in Business with emphasis in Administration, Office Procedures, or Travel and Tourism; Early Childhood Education; Liberal Arts; Physical Therapist Assistant; or Pre-health Sciences.

With prime emphasis on the student as an individual, the program attempts to enhance self-development through involvement on and off campus. Extensive advisement and counseling programs and a core program in communication skills support the regular course work.

The associate program can also prepare the student to transfer to the bachelors degree program on the Chalon Campus or other institutions, or for direct entry into a career.

Bachelors Degree Programs

Mount St. Mary's College offers four-year courses of study leading to the degrees of Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music, and Bachelor of Science. Primarily these are offered at the Chalon Campus.

Within the liberal arts tradition, the curriculum provides the student with a broad and liberating background in the arts and sciences, and aims at developing his/her ability to communicate knowledge and to apply appropriate principles and techniques to particular problems. During the junior and senior years, the students pursue deeper study in their major areas of concentration and take related elective courses.

Masters Degree Programs/Teacher Credential Programs

Since 1931, the graduate division of Mount St. Mary's College has extended and deepened the work of the undergraduate departments by offering to qualified men and women the opportunity to pursue advanced courses and to obtain professional training.

Students may earn the degrees of Master of Arts in Religious Studies, Master of Arts in Applied Spiritual Theology (with an emphasis on Catholic School Ministry), and Master of Science in Education with specializations in Administrative Studies, Counseling (Pupil Personnel Services; Marriage, Family, and Child Counseling; and Human Services), and Special Education (Learning Handicapped). Individually Designed Master of Science degrees in Education may also be developed.

The graduate division also offers courses which qualify the student for California Teaching Credentials and for California Services and Specialist Credentials.

Certificate Programs

Music Ministry

The Certificate Program in Music Ministry is intended to provide interested persons with a reasonable degree of competence to assist in a parish in the preparation of effective liturgies, and to coordinate the music program with the over-all goals of the parish. The certificate program concentrates on the theory and history of music, on music skills of performance and conducting, and on the study of the liturgy, the place of music of various styles in the liturgy, as well as the dynamics of an effective music program within the parish structure. The details of the Music Ministry program are listed in the music department section of this catalog.

The Certificate Program in Music Ministry and the baccalaureate degree program in Church Music are intended to be mutually supportive. The two year certificate program includes two years of baccalaureate degree work, and is applicable to the degree, should the student decide to continue formal training.

Director of Religious Education

The Certificate Program for Director of Religious Education is designed for persons who are already experienced in a supervisorial capacity in the field of religious education. Certification as Director of Religious Education is granted by Mount St. Mary's College upon successful completion of 12 units of selected graduate course work.

Students already enrolled in the masters program can elect courses to satisfy both the degree requirements and the certificate program. It is not necessary to be in the Master of Arts program to complete the program and earn the certificate.

Library Facilities

The Charles Willard Coe Memorial Library, located on the Chalon Campus, is the principal library of Mount St. Mary's College. Constructed in 1947, the Coe Library houses the majority of library materials for both campuses and also houses the Instructional Media Center.

Established with National Science Foundation funding under their Comprehensive Assistance to Undergraduate Science Education (CAUSE) program, the Instructional Media Center provides a learning support system designed to respond to students' needs for individualized self-paced instructional modules for remediation, when necessary, for reenforcement of classroom content, and for enrichment. Faculty and students are assisted by the media center staff in the selection, utilization, and production of nonbook materials such as videocassettes, super-eight films, and sound slide programs.

The Doheny Campus Library is housed in Building 4, St. Joseph's Hall, on the campus. The Mayer Grant Special Education collection is a part of the Doheny holdings. Mount St. Mary's students may use the library on either campus.

The libraries serving both the Chalon and Doheny campuses currently hold over 130,000 volumes, including bound periodicals, and subscribe to more than 600 periodicals. Moreover, the libraries contain over 5500 titles of media material. Books and audiovisual materials are lent from one library to the other to accommodate the changing curriculum and to meet the needs of faculty and students.

Students, actively encouraged to use the libraries of Mount St. Mary's College, are also eligible to use the library facilities of other local colleges and universities.

Calendar

Mount St. Mary's College operates on a semester calendar with Fall classes beginning around Labor Day and ending before Christmas. The month of January is currently Interterm, described below. The Spring semester begins around the first of February and ends in late May. This calendar, known as 4-1-4, is currently under study and subject to change.

The college offers courses, workshops, and seminars during the summer. A separate schedule of summer offerings is published during the spring.

Interterm

Full-time undergraduate students at Mount St. Mary's College are expected to participate in the Interterm program as part of the academic year. During the month of January, students will ordinarily concentrate on a single activity. Thus, the student should plan on devoting full time (30-40 hours a week) to the study chosen. Opportunities for interdepartmental work, for in-depth study in one area, for research, for independent study, and for travel will be available during Interterm.

Opportunities are also available for students to participate in Interterm experiences at other colleges on an exchange basis.

Students are encouraged to explore interest areas both inside and outside their major department on either the Chalon or the Doheny campus.

Students should note that a maximum of six non-required units in special programs may be counted toward the baccalaureate degree.

Students may take a maximum of four units during an Interterm session. These units are not computed with the 12-17 units which a full-time student may take during the Fall or Spring semesters.

Enrollment in Interterm courses is determined on a first-come, first-served basis during the registration days allotted to each specific class level. Seniors will be given preference on the first day. All courses taken during the Interterm period must be completed by the end of January. Incompletes may not be given except in extraordinary circumstances and with consent of the dean.

The Chalon Campus

The Chalon Campus is an impressive multi-level complex of buildings and gardens on a thousand-foot ridge overlooking UCLA and Westwood Village. The architecture is white Spanish colonial, with arched walkways connecting many of the buildings. The Chapel occupies the central position on campus with wide stone stairways approaching it on two sides. Outdoor graduation ceremonies are held in this area.

In the Charles Willard Coe Library, students have free access to library stacks, and to the special collections of art, music, and literature. The rare book treasury contains among other rare editions a fine collection of documents and manuscripts relating to the Oxford Movement and to John Henry Newman. Also housed in the library are the Instructional Media Center and the Learning Assistance Center.

The administration building accommodates the offices of the President, Dean, Registrar, and Business Manager. Off the patio linking the administration and humanities buildings is the Admissions Office.

The five-story Humanities Building contains classrooms; conference rooms; the computer center; the Financial Aid Office; special facilities for the music department; faculty, student, and administrative offices; health services center; and the bookstore. The Campus Center which comprises nearly the entire first floor is used for social and academic functions. Commuter students find it a very relaxing place for conversation, study, or reading.

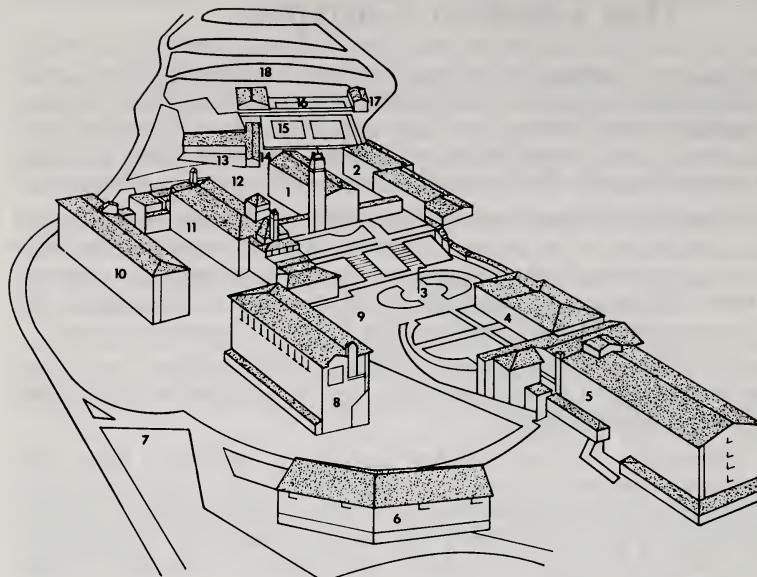

Jose Drudis-Biada Hall, the art building, contains art galleries, faculty offices, classrooms, and studios.

Brady Hall, Carondelet Hall, and Rossiter Hall, the residence halls, provide living accommodations and dining facilities for more than 300 students. Students may choose single rooms, double rooms, or suites. Reception rooms, lounge areas, study rooms, kitchenettes, and laundry facilities are conveniently arranged. Apartments are also available for student residence. The Advisement Center is located in Brady Hall.

The south wing of Rossiter Hall is a residence for Sisters of St. Joseph living on campus.

An outdoor swimming pool and tennis courts are located at the north end of the campus.

The Doheny Campus

The college expanded to a second campus in 1962. The Doheny Campus at Chester Place, near the intersection of the Harbor and Santa Monica Freeways, is located on property formerly owned by Edward L. Doheny and his wife, the Countess Estelle Doheny. The campus has been named for them.

The two city blocks of Victorian residences in their setting of exotic trees and flowers have been converted to educational purposes. In 1965, a classroom building containing an auditorium, lecture rooms, and laboratories was erected. Since that date, Ahmanson Commons, containing the food service and seminar facilities, and McIntyre Hall, a student residence and activity center, have been added to the campus.

The Doheny Campus supplements and extends the educational opportunities which Mount St. Mary's College offers. This location, close to the industrial part of Los Angeles, was thought to be an ideal location for two-year, career-oriented associate degree programs; for graduate degree programs; and for California Credential programs.

Number One Chester Place houses Physical Therapist Assistant offices and music classrooms.

Number Two Chester Place provides offices for the Nursing Department, in addition to those of the Religious Studies program and the Business Department.

Number Four contains the Doheny Campus Library which supplements the Chalon Campus Coe Library. Also in this building are the Learning Resource Center, Computer/Language laboratory, classrooms, and science laboratories.

Number Seven provides offices for Student Services — the Director, ASB, Advisement, Career Counseling, Financial Aid, Campus Ministry — as well as faculty offices and seminar rooms.

Number Eight Chester Place, the Doheny Mansion, is a California Historical Monument and its Pompeian Room — a domed hall of Italian Marble — is often used for both educational and social events for students and faculty. This beautiful three-story late Victorian structure provides a number of reception rooms and dining rooms and a small art gallery on the first floor. Other floors are not open to the public.

Carondelet Center, formerly a game room for the Doheny family, provides a small student center and bookstore.

Number Ten is the administration building; it houses offices of the Dean of the Campus, Admissions, Registrar, Business, Graduate Division, as well as the Education Department and other faculty offices.

Number Eleven, Ahmanson Commons, provides the Food service, dining areas, and seminar rooms and offices.

Number Fifteen, McIntyre Hall, houses the majority of resident students, and in addition, contains a large student center/meeting facility.

Between Ahmanson Commons and McIntyre Hall is located the Chapel of Our Lady of Mercy, the spiritual center of the campus.

Number Seventeen houses the Child Development Center, a state-funded day care center for young children. This center serves students of diverse ethnic, linguistic,

and social backgrounds from the surrounding area. Mount St. Mary's students in the Early Childhood program fulfill assignments in child observation at the Center. Beautiful, Victorian Prague Hall ("the Castle") and its unique Loft accommodate about forty resident students.

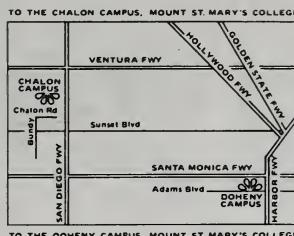

The former carriage house behind Number Ten has been restored and serves as a unique setting for the Art Department.

The tennis court and pool areas are in back of Number Eight. Parking areas are on the Mall.

GENERAL INFORMATION

Admission/Financial Aid/Tuition and Fees

Admission To The Undergraduate Degree Programs

Admission to the Associate Degree Program

The basic requirements for admission to the associate degree program on the Dohe-ny campus are graduation from an accredited high school or the GED, an ability to profit from the program, and submission of SAT/ACT results.

Specializations within the Associate in Arts programs have specific requirements. For admission to these specializations, students must meet the prerequisites and requirements specified by each program. (See appropriate section in catalog.) A student may be admitted to the campus in an undeclared specialization in order to begin to take prerequisites for programs as well as to raise her gpa. All specializations are open to women.

Since admission to the associate program is based on a consideration of the following information, all items must be received before a student can be accepted. The following are required:

1. Completed application form;
2. SAT or ACT scores;
3. High school and college transcripts;
4. Other information a student may wish to provide in support of her application;

For applicants with a gpa below 2.0 in college preparatory subjects, two letters of recommendation and a personal interview with members of Mount St. Mary's College Admissions Committee are required (to be admitted as an undeclared student).

Transfer students with 15 semester hours (units) or more of transferable college credit and a gpa of 2.5 or above, are not required to submit SAT or ACT scores. Those with fewer than 15 semester hours (units) of transferable college credit must satisfy admission requirements and procedures as well as submit both high school and college transcripts and SAT or ACT scores.

Advanced standing is determined on an individual basis and is not decided until an evaluation of all previous academic work has been completed.

Credit for courses taken in other accredited colleges or universities is transferable provided that the transferred courses satisfy curriculum requirements at Mount St. Mary's College. Credit for extension courses is not automatically transferable. The last 24 units immediately preceding graduation ordinarily must be completed at Mount St. Mary's College.

Admission to the Baccalaureate Degree Programs

Applicants must be graduates of an accredited high school and should have completed a college preparatory course of study including the following: algebra, geometry, three years of English (literature and composition), U.S. History, government, a lab science, two years of a foreign language and an advanced course in either mathematics, science or a foreign language. Some majors may have additional requirements.

Students should have an average of B or better in these college preparatory courses as well as satisfactory SAT or ACT scores.

An applicant who has taken any college level classes since graduation from high school must apply for admission to advanced standing as a transfer student. A previous college record may not be disregarded. The transfer student who, as a high school graduate, was qualified for admission as a freshman may be admitted to the college with a cumulative grade point average of at least 2.25 for all transferable college work attempted.

The transfer student who, as a high school graduate, was not qualified for admission as a freshman may be admitted to the college after completing a minimum of 24 transferable units with a cumulative grade point average of at least 2.25. Some majors may have additional requirements.

All majors are open to women. Men may be admitted into the Music and Nursing Programs.

Admission to Graduate Study

For admission policies and procedures for the Graduate Division see the next section of the catalog.

Honors at Entrance

Applicants may qualify for Honors at Entrance by rating 1230 or above on the following formula:

$$\frac{400 \times \text{GPA} + \text{S.A.T.}}{2}$$

2

Undergraduate Admission Procedures

All applications for admission and supporting documents should be sent to the Admissions Office, Chalon Campus.

Freshman Admission Procedures

Freshman applicants for admission must submit the following:

1. Completed application form with an application fee of \$25.00. This processing fee is not refundable nor applicable to tuition. Application fee waivers are granted upon evidence of financial need.

2. Candidates must arrange to have official transcripts forwarded directly to the Director of Admissions. The transcript should include all academic work beginning with grade 9 and any college entrance test results (PSAT, SAT, or ACT) available.

Applications and transcripts are accepted upon completion of the junior year in high school. Students with an acceptable high school gpa in college preparatory subjects and compatible SAT or ACT scores can be considered for early admission in either the bachelor or associate degree program without senior year grades. Transcripts submitted become the property of Mount St. Mary's College and cannot be returned to the applicant. A final transcript must be sent upon graduation.

3. Scores on the Scholastic Aptitude Test (SAT) or the American College Test (ACT). Information concerning registration for either of these tests is available in the Admissions Office or the high school counseling office.
4. Other information a student may wish to provide in support of her/his application: awards, honors, special experiences.
5. Students accepted for admission with additional academic work to be completed are considered as conditionally accepted. These students are expected to continue to demonstrate a comparable level of academic achievement; failure to do so can lead to a retraction of the student's acceptance status. Final transcripts are required.

Letters of recommendation are not required. An applicant may choose to submit them in order to strengthen the application.

Admissions Procedures for International Students

Besides meeting Mount St. Mary's College's admission requirements, international students must comply with the immigration regulations of the United States Department of Justice as follows:

1. Submit all academic records, both transcripts and results of examinations administered by ministries of education or other certifying agencies, along with notarized English translations. Descriptive titles of courses studied (i.e., European History, Inorganic Chemistry), the number of lectures and laboratory work in each course and the grades earned are necessary. Copies of documents are acceptable only if official signatures and school/college seals are affixed.
2. Take the Test of English as a Foreign Language (TOEFL) and arrange for scores to be sent to the Director of Admissions. A score of 550 is required. (Applications for the test and the list of test dates and sites for all countries may be obtained by writing to TOEFL, Educational Testing Service, Princeton, New Jersey 08541, U.S.A.)

- Students studying at an ELS school must complete ESL Level 109 before admission to Mount St. Mary's will be considered.
3. Submit a statement of financial responsibility. Parents, relatives, or the student must assume the financial responsibility for tuition and living expenses for the total period of study. Verification of bank funds must also be submitted, along with an English translation.

Students who have American sponsors residing in the United States must request that the sponsors submit a notarized Form I-134, along with a verification of funds from an American bank.

4. An international student who has been studying in the United States either at an ELS school or another American college, must comply with all immigration regulations for transfer.
5. A personal interview is strongly recommended, if possible, and can be arranged through the Admissions Office.
6. All documents must be submitted by the following deadlines: July 15 for the Fall term; December 15 for the Spring term.

The Immigration Form I-20 will not be issued until all required documents have been received and the student has been officially accepted to Mount St. Mary's College. The I-20 will be sent with the student's official letter of acceptance.

Foreign students who are not requesting F-1 visas, but who hold other immigration visas which permit study at American colleges, must submit their immigration documents and follow all procedures for admission of international students.

Transfer Admission Procedures

Transfer applicants for admission must submit the following:

1. Completed application form with an application fee of \$25.00. This processing fee is not refundable nor applicable to tuition. Application fee waivers are granted upon evidence of financial need.
2. Transcripts of credits. College transfer students should request the Registrar of each college they have attended to forward two copies of their transcript, including work in progress, directly to the Admissions Office. Transcripts submitted become the property of Mount St. Mary's College and cannot be returned to the applicant. Official transcripts of all prior college work must be on file in the Office of the Registrar by the end of the first semester of attendance.
3. Transfer students to the Associate in Arts program with less than 15 transferable units or to the Baccalaureate program with less than 24 transferable units must also submit their high school transcript and SAT or ACT scores.
4. Other information a student may wish to provide in support of her/his application: awards, honors, special experiences.

Letters of recommendation are not required. An applicant may choose to submit them in order to strengthen the application.

Procedures for Intercampus Admission to Baccalaureate Program From Associate Program

Mount St. Mary's College offers students who begin their studies with the associate degree the opportunity to continue in a baccalaureate program. For the specific information about requirements for the baccalaureate degree programs, consult the appropriate listing in the catalog or meet with the program director or department chairperson.

Applicants who are applying for a change from the associate program to the baccalaureate program must follow the procedure below:

1. Complete the program change application including the official recommendations of:
 - a. Academic advisor or specialization director;
 - b. Appropriate department chairperson;
 - c. Dean of the Doheny Campus.
2. Submit the completed application form and transcripts to the appropriate department at Chalon (Education Department, Doheny).

The department chairperson reviews the application and transcripts and informs the student of the decision.

Change of program applications are available at the Registrar's Office, Doheny Campus.

Placement and Acceleration

Acceleration Program for High School Students

Superior high school juniors or seniors who are recommended by their principals may be permitted to enroll in regular on-campus classes and earn college credit. A special reduced fee is available for 1-6 units per semester.

Advanced Placement

Students who earn scores of 3, 4, or 5 in Advanced Placement Examinations (ETS) may receive at least six semester units of college credit for equivalent courses provided they are accepted and registered students at Mount St. Mary's College. Students taking the Advanced Placement Examinations should arrange to have test results sent to the Office of Admissions.

Admission as a Special Student or Continuing Education Woman

Persons who wish to be admitted to the college to attend a seminar, class or classes, without matriculating into one of the degree programs, may register as special students. Women who wish to begin or return to college after an interruption in their studies may enroll in up to twelve units (a maximum of nine units during any given semester) as special students without declaring their intention to matriculate. If after successfully completing the twelve units, the student wishes to remain as a special student, the Advisement Center should be so advised. However, if the student wishes to matriculate into a degree program as a continuing education woman, application through the Admissions Office should be completed. The student should also make this intention known to the Advisement Center, which will provide for academic advisement, transfer evaluation, portfolio evaluation, and other services as needed. For more complete details, see the section on the Transfer Student on page 26.

Testing

All beginning first time freshmen and transfers with fewer than 30 units* complete a battery of tests including reading, writing, and math prior to registering for classes. Specific details of the testing program are mailed to all accepted students prior to the semester of enrollment. Special programs of study and assistance are available to students whose test scores suggest they would benefit from the program.

*In the associate degree program those transfer students with fewer than 20 units are tested.

Financial Aid

All financial aid at Mount St. Mary's College is administered in accordance with principles which have been established nationally. These are based on the belief that parents have a responsibility for assisting their children to meet educational costs, and that financial aid is available to fill the gap between a family's contribution (including the student's own potential resources) and the student's yearly academic expenses.

The amount of the contribution expected from a family is determined by a careful analysis of the family's financial strength, based on the Student Aid Application for California (SAAC) which is submitted to the College Scholarship Service.

There are many financial assistance programs available from sources outside the college such as Cal Grant A, B, C, from the State, Pell Grants and loans from the Federal government, and scholarships given by foundations, business firms, and clubs. High school seniors should investigate all sources of aid.

The financial aid programs available at MSMC are:

Scholarships/Grants/Awards: Art and Music scholarships, Alumnae scholarships, President's scholarships, Graduate scholarships, Graduate Staff assistantships, Supplemental Educational Opportunity Grants, Dean's Awards, Leadership Awards, other MSMC grants and awards.

Loans: National Direct Student Loans, Guaranteed Student Loans, Federal Nursing Loans, and MSMC Loans. Short term loans: First Interstate Bank Emergency Loan (\$300 maximum); Nancy Manning Loan (\$50 maximum; Chalon students only). For both short term loans, contact Student Development Office.

Employment: College work-study, Service Contracts.

Financial aid at MSMC is awarded on the basis of satisfactory academic progress and financial need and without discrimination by sex, race, religion, or handicap. Assistance is also dependent upon the availability of funds. Since all forms of aid must be coordinated with the awards from the California Student Aid Commission and Pell Grant, applicants are urged to complete the SAAC/Pell Grant common application and Cal Grant supplements by the designated deadline. Applications will be reviewed when all paperwork is on file and first priority will be given to students who meet MSMC deadline of March 1. Students' needs will be met with a combination package of grant, loan, and work based on the availability of funds and the individual situation of the student.

Financial aid brochures giving complete application and program information may be obtained by writing to the financial aid office at the Chalon or Doheny campuses.

Expenses for 1983-1984

Tuition (Payable at Registration)

Undergraduate Students

Full-time (12-17 units/semester plus Interterm)	\$5,500.00	per year
	2,750.00	per semester
Full-time (units in excess of 17/semester)	182.00	per unit
Part-time (less than 12 units/semester not including Interterm)	182.00	per unit
Tuition Deposit - required of all incoming full-time undergraduate students. Not refundable (held in escrow for one year). Applicable only to tuition.	100.00	

Graduate Students

Tuition (per unit)	155.00
--------------------	--------

Special Programs

College Classes for High School Students(1-6 units)	70.00	per unit
Emeritus Status for Seniors, 65 yrs.+ (1-6 units)	85.00	per unit
Junior Year Abroad Registration	80.00	
Tuition and Fees for Cooperative courses/programs will be calculated on an individual basis.		

Auditing Courses (Recorded on Transcript)

Students register for audit in the same manner as for credit and pay the same fees.

Fees

Student Body Fees

Chalon Campus Students	35.00	per semester
Doheny Campus A.A. Students	35.00	per semester
Graduate Students and students with 1-6 units	5.00	per semester
Orientation Fee (for new students)	50.00	

Health Service Fee

Chalon Campus Students	45.00	per semester
Doheny Campus A.A. Students	35.00	per semester

Student Health and Accident Insurance

131.20 per year

All full-time students who are not covered by personal insurance should carry the student Health and Accident Insurance.

Students who are already covered by personal insurance may elect not to participate in this plan. However, it is necessary to submit a Waiver Card no later than September 1.

A graduate student may elect to purchase Student Health and Accident Insurance if the student is carrying six or more units.

Examinations

Comprehensive Examinations (Graduate Students)	75.00
Credit for a course by examination (non-refundable)	
Clinical courses, per course	130.00
Other courses, per course	75.00
Portfolio Application/Counseling	60.00
Portfolio Evaluation/Decision	200.00
Credit for Extra-institutional Learning	
Evaluation	60.00

General

Application for Admission (all students)	25.00
Late Registration (after published dates and time of registration)	20.00
Adding/Dropping Courses (per transaction)	2.00
Adjustments in course schedule after published dates	10.00
Graduation Fee — Undergraduate Students	50.00
Graduation Fee — Graduate Students	75.00
Transcripts	2.00
Teacher Placement File	10.00
Teacher Placement File copies sent out at the request of the student (each copy)	3.00
Administrative Fee for handling returned checks and postdated checks	10.00

Courses

Student Teaching — Elementary	5.00	per unit
Student Teaching — Secondary	5.00	per unit
EDU 115 ABCD	7.00	per course
NUR 40 (equivalent to 6-unit course)	1,092.00	
NUR 100 (equivalent to 6-unit course)	1,092.00	
Applied Music — part-time student	40.00	per course
Private Music Lessons		fee paid to instructor

Full payment of all expenses is due on or before Registration Day of each semester, including all previous unpaid obligations.

Members of religious communities receive a 40% tuition discount during the academic year and summer session.

Full-time employees of Archdiocesan institutions, upon verification of employment, receive a 40% tuition discount.

Residence

Board and small double room	3,110.00	per year
Board and large double room	1,555.00	per semester
Board and single room	3,240.00	per year
Board and single room	1,620.00	per semester
Board, single room, private bath	3,390.00	per year
Board, single room, private bath	1,695.00	per semester
Board and room, Interterm only	3,630.00	per year
Board and room, Doheny Campus	1,815.00	per semester
Double room	385.00	
Single room	3,240.00	per year
Single room	1,620.00	per semester
Single room	3,390.00	per year
Single room	1,695.00	per semester

A guest rate of \$20.00 per day is required for residence during vacation periods. An advance payment of \$100.00 is required for a room reservation. \$75.00 is applied to the student's account for the first semester; \$25.00 is retained from the first payment as a room deposit (to be applied against unusual cleaning and damage costs) until such time as the student discontinues residence.

Students already in residence make an advance deposit of \$75.00 for priority in requesting a room for the following year.

Rooms are reserved for the year. Room assignments are made in the order of receipt of the reservation payment.

Advance payment is forfeited if notice of withdrawal is received after August 1. Room deposit is forfeited if notice of intention to withdraw from residence is not given to the Director of Residence prior to the close of the Fall semester.

Reduced Charges

All students complying with the procedure established for withdrawal from the College are entitled to have charges reduced according to the following scale:

Period Of Time	Reduction
During 1st Week (Tuition)	100% minus \$25.00
	Administrative
During 1st Week (Room & Board)	75%
During 2nd Week (Tuition, Room & Board)	75%
During 3rd Week (Tuition, Room & Board)	50%
During 4th Week (Tuition, Room & Board)	25%
After 4th Week	-0-

For Interterm (Part-time Students)

Period Of Time	Reduction
During 1st Week (Tuition, Room & Board)	50%
During 2nd Week (Tuition, Room & Board)	25%
After 2nd Week	-0-

The date on which notice of withdrawal is filed with the Registrar's Office is used to calculate reduction of charges for tuition and/or room and board. Reductions will first be credited against a student's financial aid, if any, before a balance accrues to the student. No refunds will be made for fees. Refunds will not be made in cases of suspension or dismissal.

When outside agencies, grants, scholarships or loans do not cover the withdrawal or change of unit charge, the individual will be responsible for the amount due.

Note Regarding Interterm

No additional charge is made and a maximum of 4 units is allowed for Interterm for full-time students; consequently, no refund will be made to anyone not attending. The tuition charge for the first half of the academic year, paid in September, covers the Fall semester and Interterm. The second half of the tuition charge for the academic year, paid in February, covers the Spring semester. For a full-time student entering the college for the first time after Christmas, payment for the Spring semester includes Interterm. Payment is made at the time of registration. No refund will be made if the student does not attend Interterm.

The same policy applies to room and board charges. Since no additional charges are made, no refunds will be made.

Students who come to the College only for the Interterm and come outside the established exchange process will pay the regular per unit tuition and the board and room fee established for Interterm.

Obligation for Payment

Tuition for all students, including those whose tuition payments have been deferred, becomes an obligation in accordance with the provisions of the reduced charges.

Failure to make payments for tuition, fees, or other amounts owed the College when they fall due, or to arrange for such payments before their delinquent dates, is considered sufficient cause to 1)bar the student from classes or examinations, 2)withhold diploma, scholastic certificate, or transcript of record, and/or 3)suspend the student.

All tuition and fees are subject to change without notice.

Deferred Payment Schedule

The following is the schedule of fees charged for deferred payments

Fall Semester	\$0-500	\$501-1,000	\$1,001-1,500	\$1,501-2,000	\$2,001-2,500	\$2,501 and above
September 6 — September 20	\$7.00	\$15.00	\$20.00	\$30.00	\$37.00	\$45.00
September 21 — October 20	\$7.00	\$15.00	\$20.00	\$30.00	\$37.00	\$45.00
October 21 — November 20	\$7.00	\$15.00	\$20.00	\$30.00	\$37.00	\$45.00
Spring Semester						
February 7 — February 20	\$7.00	\$15.00	\$20.00	\$30.00	\$37.00	\$45.00
February 21 — March 20	\$7.00	\$15.00	\$20.00	\$30.00	\$37.00	\$45.00
March 21 — April 20	\$7.00	\$15.00	\$20.00	\$30.00	\$37.00	\$45.00

Possible methods for paying tuition, room and board and/or fees at Mount St. Mary's College:

1. Payment in full by mail. Payment must arrive at Mount St. Mary's College no later than August 24, 1984, for Fall semester or January 18, 1985, for Spring semester. This method of payment will greatly facilitate the registration process and eliminate any need to stand in long lines to pay in person on campus.
2. Payment in full by cash, check or money order by September 14, 1984, for Fall semester and February 8, 1985, for Spring semester. This payment must be made in person to the Business Office on campus.
3. Payment of minimum of 25% of all charges by mail and a series of deferred payments. (See above schedule.) This payment must be made by mail no later than August 24, 1984, for the Fall semester or January 18, 1985, for the Spring semester. Contact the Director of Business and Finance to make arrangements for all deferred payments.

N.B. Registration dates for the Academic year 1985-1986 will be published in the Schedule of Classes.

ACADEMIC INFORMATION/ STUDENT DEVELOPMENT

The Associate Degree

Student Services at Doheny

The Baccalaureate Degree

Student Development at Chalon

Graduate Degree Programs

ACADEMIC INFORMATION/ STUDENT DEVELOPMENT

Academic Policies: All Undergraduate Programs

Grades

At the end of each term, the student receives a grade in every class. The grade indicates results of examinations, term reports, and general scholastic standing in the entire course.

A minimum grade point average (GPA) of 2.0 is required in lower division work before a student can be granted junior standing. The same GPA is required in upper division work before the student can be graduated.

The student's grade point average is computed according to this scale:

A	excellent	4 grade points per unit
B	good	3 grade points per unit
C	average	2 grade points per unit
D	poor but passing	1 grade point per unit
F	failure	0 grade points per unit

The following are not computed in the GPA:

AU	audit
CR	credit given; work C or better in quality
I	incomplete
IP	in progress; deferred grading for graduate thesis, senior project, or undergraduate research work in progress
NC	no credit given; work D or F in quality
R	course was repeated at later date
RD	report delayed
U	unauthorized withdrawal
W	withdrawn

Grading Policies

Credit/No Credit

To encourage a wider choice of courses by lessening the student's concern for the grade point average, selected courses may be taken for CR/NC. The following regulations apply to this option:

Students may apply a maximum of 9 semester units of CR/NC to the Associate in Arts degree, and a maximum of 18 semester units of CR/NC to the baccalaureate degree. Students may not choose to take more than 5 units each term for CR/NC.

Students may take nine units of general studies courses, no more than one course in any area, on a credit/non-credit basis.

Courses taken for CR/NC may not be applied to requirements for the student's major, except at the discretion of the major department.

The student must indicate intent to take a course CR/NC no later than the last day to drop a class, as indicated on the academic calendar, by filing with the Registrar a form signed by the advisor, the instructor, and the student. A change to letter grade may *not* be petitioned after the form has been filed. Signings are a form of active consent and not pro forma.

Incomplete

An Incomplete is given only when a student:

1. has fulfilled the majority of the course requirements,
2. has a passing grade in class work,
3. is prevented from completing the assigned work for serious reasons,
4. has consulted the instructor prior to the grading period, and the instructor has determined that the student can realistically complete the work within one semester.

An Incomplete will remain as such unless removed by the instructor within one semester. The Incomplete is ignored when computing the GPA. An Incomplete can be extended beyond one semester only upon petition to the academic dean.

Repetition of Courses With D/F/NC Grades

Only courses for which D, F, and NC were assigned may be repeated for a higher grade/CR. In cases of repeated courses the units are counted once and the higher grade is computed in the GPA.

Unauthorized Withdrawal

The grade U indicates unauthorized withdrawal, and is used in the circumstance of a student who neither withdrew nor completed course requirements. It is used when, in the opinion of the instructor, completed assignments or course activities or both are insufficient to make normal evaluation of academic performance possible. A grade of U is **not** computed in the student's GPA.

Withdrawal From Courses

The grade W indicates withdrawal from a course, according to the following policy: withdrawal (W) indicates that a student withdrew from a class during the period scheduled on the college calendar. The instructor and the advisor must be notified of this withdrawal. After the scheduled date permission from the appropriate dean may be requested for reasons of emergency. A withdrawal form must be filed in the Registrar's office to have an official withdrawal with the grade of W. The W carries no connotation of quality of student performance and is not calculated in the grade point average. Failure to officially withdraw from a class may result in the grade of F.

Honors

Dean's List

To give public recognition to academic achievement, the Dean posts a list each term with the names of full-time students who have obtained a grade point average of 3.5 or higher for the preceding term.

To qualify for the Dean's List, a student must have taken at least 12 letter-graded units in the preceding semester.

National Spanish Honor Society

Attendance

Since regularity and punctuality are essential to the successful pursuit of study, the number and character of student absences will be taken into account in determining academic grades. Unless proof to the contrary is furnished, an instructor will assume that an absence is without serious cause.

There is no provision for a system of allowed cuts and absences. Students may be dropped from a class for excessive absences when in the opinion of the instructor, further enrollment in the class would be of little value to the student. Occasionally, a student is excused from class attendance by the academic dean in order to represent the college at some function. The student should inform his/her instructors of such excused absences and secure from them assignments.

Course Examinations

All undergraduate students are required to take the regular course examinations.

Placement Examinations

Examinations used to place a student at a level of study may result in lower levels of study being waived. No credit will be awarded as a result of these placement examinations. See Credit by Exam, p. 42.

Independent Study/Directed Study

Opportunity for independent study and directed reading is available to qualified students. In independent study, the student has responsibility for planning, implementing, and presenting the project; the faculty member approves the project, meets with the student several times in the term, and evaluates the final results. In directed reading, the faculty member shares the responsibility with the student, generally planning the readings and/or projects and meeting with the student regularly.

Guidelines for Independent Study/Directed Study

1. Introductory courses to a discipline will not be taken in this mode.
2. Freshmen will take neither independent study nor directed study.
3. No more than two independent studies or directed studies will be taken in any one semester.
4. In extraordinary circumstances, the above guidelines may be waived by petition.

Prior to registering for independent or directed study, the student discusses plans with the faculty sponsor, prepares a proposal including goals, a summary of content and evaluative criteria, and files an approved form for the projected study in the office of the registrar.

Probation and Dismissal

Probation

A student is placed on probation for failing to maintain a 2.0 GPA for all courses undertaken in a term. A student must achieve a GPA of 2.0 or higher during the following term in order to continue in the college.

Dismissal

A student is subject to dismissal for the following reasons:

1. Failure to maintain a minimum GPA of 1.0 during any term.
2. Failure to maintain a minimum GPA of 2.0 during a probationary term.

The dean has the power to dismiss students and to suspend dismissal. When extenuating circumstances, such as prolonged illness, account for the disqualification, the student may be permitted, on petition to the dean, to continue on probation until the next term.

Enrollment in the College implies willingness on the part of the student to comply with the requirements and regulations of the College. If the student fails to comply with these requirements and regulations, or if it is determined by the dean that the

student is not able to benefit from the opportunities offered by the College, withdrawal may be requested even though no specific breach of discipline is charged.

Withdrawal From College

Students thinking of withdrawing from the College should schedule an interview with a member of the Advisement Center staff (for A.A. students, their advisor) in order to explore other options or assistance. Students who must withdraw from the college at any time must file a withdrawal notice in the office of the Registrar. Forms are available from the Chalon Advisement Center and from the advisor in the A.A. program. Students wishing to re-enter must file an application for readmission with the Admissions Office.

Leave of Absence

Students in good standing may request a leave of absence from the college for one semester. Extensions beyond one semester may be granted by the appropriate dean. Students may re-enroll through the Advisement Center.

Transcripts

Transcripts are issued at the written request of students or graduates to the Office of the Registrar. At the close of each term, transcripts for registered students must be held for inclusion of grades for the term, and therefore will not be available for approximately three (3) weeks. Partial transcripts will not be issued. At times other than the close of the term, the normal period required for processing transcripts is one week. No transcript will be released unless all indebtedness to the college has been satisfied. All transcripts are \$2.00 each.

Academic Petitions

Students may petition the waiver or the modification of any academic policy or regulation, for good reason, which must be documented. The petition must be approved by the dean. The student files the approved petition in the office of the registrar for placement in the student's permanent file.

Grievance Procedure

Copies of Mount St. Mary's College Grievance Procedure, in the Student Handbook, are available upon request at the Student Development Office.

Transfer Students

Students transferring into the college bring different backgrounds, goals, education, and experiences. In recognizing this, special efforts are made to provide academic advisement and program planning that build on the learning the student has already acquired. Careful attention is paid to provide assistance in the scheduling of classes so that major requirements as well as college general education requirements are fulfilled.

Transfer students are assigned an academic adviser in the area of their major; the services of the Academic Advisement Center are available to all students.

Appeals of academic regulations and curriculum requirements are possible where such action seems warranted. Students seeking to appeal regulations other than course requirements in their major should obtain a petition from the Academic Advisement Center. The completed form should be taken to the appropriate dean for approval. Students seeking a substitution or waiver of requirements in their major should obtain the written approval of the departmental chairperson. Copies of this approval should be in the student's permanent file.

Credit for Prior Experiential Learning

Recognizing that college-level learning can and frequently does occur outside the formal setting of the college or university classroom, Mount St. Mary's College has developed a process by which prior learning when properly documented may be assessed and credit awarded.

The objectives of the credit for prior learning program are: to provide a means of evaluating and awarding credit for college-level learning wherever it occurred; to enable the student to build a current academic program of study on the skills, competences, and knowledge already acquired; and to increase student's flexibility in meeting educational requirements.

As a matter of policy, to be eligible for this evaluation, the past learning must be adequately documented and verified; consistent with the student's academic or educational goals; evaluated by faculty in the specific area of learning; and appropriate to the mission and goals of Mount St. Mary's College.

The college provides for the evaluation of prior learning in the following ways: credit by examination and credit for non-traditional learning, including credit for non-collegiate coursework.

Procedures for the Evaluation of Prior Experiential Learning

When students have acquired college-level skills, competence, and learning relating to their academic goals through experiences such as work, travel, and reading, they may have this learning evaluated for credit by preparing a portfolio containing an application, supporting evidence and documents, and a narrative relating the non-traditional learning experience to their educational objectives. Travel must have had an academic component in order to qualify for evaluation.

These portfolios should be prepared according to the guidelines in *CAEL Student Handbook* with the guidance of an adviser. If the portfolio is approved by a faculty committee, the student may earn college credit appropriate to the experiences. A fee is required to conduct and process this evaluation; see Tuition and Fees. For further details, see the appropriate dean or consult the Academic Advisement Center on either campus.

Credit by Exam

There are two ways a student may demonstrate knowledge of content areas: by challenging course exams and by taking standard proficiency exams. Credit for certain

courses in the college may be earned by successfully passing exams. Credit for certain courses in the college may be earned by successfully passing departmental exams. A student must notify the department of intention to challenge a departmental course one month in advance of the scheduled exam. Successfully passing the exam, a student may receive credit for the course. A fee is required to conduct and process this; see Tuition and Fees, p. 30.

Students may also take externally administered exams such as CLEP (College-Level Examination Program from CEEB) and PEP (Professional Equivalency Program from ACT) in those areas approved by the college. Information about these exams and a current list of approved exams are available from the dean's office, the registrar's office, or the Academic Advisement Center. Credit for CLEP or PEP exams taken prior to enrolling at Mount St. Mary's College and which appear on the transcript of record from another college or university will be accepted according to the transfer of credit procedure. If there has been no official awarding of credit, an original transcript from ACT or CEEB must be presented.

Students who have taken courses sponsored by business, industry, the armed forces, or other non-collegiate agencies may apply for an evaluation of these learning experiences. If the course has previously been evaluated by the American Council on Education (ACE) and appears in *The National Guide*, a student may not have to prepare a portfolio. In all other cases, a student requesting credit for non-collegiate courses must prepare a portfolio for evaluation by a faculty committee.

For the baccalaureate degree, a maximum of 50 units may be secured through credit by exam, CLEP area exams, and prior experiential learning (portfolio evaluation). No more than 30 units will be granted for any one of the three areas above. All units earned in this manner are held in escrow until the student has successfully completed 30 units of course work at Mount St. Mary's College. Up to 24 units of credit will be accepted toward the Associate in Arts degree for prior experiential learning, challenge or standard proficiency exams, and courses taken through non-collegiate agencies—with no more than 18 units being accepted in any of the three areas. All units earned in this manner will be held in escrow until the student has successfully completed 24 units of course work at Mount St. Mary's.

Credit examinations and portfolio evaluations will be given only to students who are admitted to the college. After satisfactorily completing the examination or evaluation, the student must file the approved forms in the Office of the Registrar. Only CR, "credit," (i.e., no letter grades) will be given: no record of failures will appear on the transcript. All credit awarded through these means will be so noted on the student's transcript.

Advanced Standing

The extent of the transfer student's advanced standing is determined on an individual basis and is not decided until an evaluation of all previous academic work has been completed.

Credit for courses taken in other accredited colleges or universities is transferable provided that the transferred courses satisfy curriculum requirements at Mount St. Mary's College. A maximum of 36 semester units or 54 quarter units for course work taken in an accredited college is transferable toward the associate degree.

No more than 66 semester units may be transferred to the baccalaureate program from an accredited community college. Credit for extension courses is not automatically transferable.

A final credit summary and determination of advanced standing will be prepared by the Academic Advisement Center after the applicant is accepted for admission and all final transcripts have been submitted.

Transfer of Credit

Once admitted to and enrolled in the college, the student is normally expected to pursue study only at Mount St. Mary's College.

A student seeking an exception to this policy must file a Transfer of Credit Clearance with all approvals in the office of the registrar prior to registration in the course for which approval has been obtained.

Classification of Students

To be classified as a sophomore, a student must have satisfactorily completed 30 semester units (10 standard courses), or the unit equivalent; as a junior, 60 semester units (20 standard courses); as a senior, 90 semester units (30 standard courses).

A student with full-time status must carry 12-17 units per semester. Part-time students carry less than 12 units per semester. Foreign students (with nonimmigrant "F-1" student status) enrolled in beginning ESL (on or off campus) plus nine semester units may be considered as students with full-time status.

Special students may take a course or courses for academic credit without following a prescribed curriculum toward a degree.

Auditors attend class sessions regularly but are not obligated to take examinations. They receive no credit for courses audited.

Ordinarily a student should be a sophomore before enrolling in upper division courses. It is the student's responsibility to be aware of prerequisites or requirements for enrolling in upper division courses.

Degree Application

May graduates must file for the appropriate degree during the Fall semester prior to graduation. Students who plan to graduate at other times should file for the degree not later than three weeks after the start of their final semester.

THE ASSOCIATE DEGREE

The Associate in Arts program gives students the opportunity to develop academic competencies and to explore various options in determining a career. Faculty and staff offer excellence in their specialized fields and show concern for the individual student. The fundamental goal of this program is to provide knowledge and skills for an enriched life and those necessary for employment.

The specializations are designed to prepare the student either for employment immediately after graduation, or for transfer to a bachelors program. Four semesters are usually required to complete the A. A. degree. Students with deficiencies in mathematics or English skills may need one or two additional semesters.

Majors Offered

Mount St. Mary's College confers the Associate in Arts degree with the following majors:

Business (Administration, Office Procedures,
or Travel and Tourism)

Early Childhood Education

Liberal Arts

Pre-Health Science

Physical Therapist Assistant

A complete description of the requirements for each major as well as course descriptions begin on page 73.

Academic Policies: Associate Degree

Degree Requirements

1. A minimum of 60 semester hour units of credit are required with a grade point average of at least 2.0. The last 24 units immediately preceding graduation must be completed at Mount St. Mary's College; of these, a minimum of 12 must be in the student's major and earned in regular course work.
2. The following courses are required:
 - a. A course in religious studies
 - b. A three-unit course in humanities outside the specialization requirements: art, music, literature, cultural history
 - c. English 10AB
 - d. One unit of Group Experience: An Introduction to Women's Leadership
 - e. At least one term of off-campus involvement by participation in one of the following:
 - Social Action
 - Fieldwork or clinical experience associated with the specialization.

3. Satisfaction of the residence requirement. *Residence* is defined as the last 24 units before graduation which must be taken at Mount St. Mary's College. At least some of these units are in the student's specialization and are earned in regular course work.

Specialization Requirements

To obtain a degree with a specialization, the particular requirements in that area must be met. Basic curricular patterns listed in this bulletin should be followed with the consent and approval of academic advisers.

Credit Load

During the first term of the freshman year, a student may select a minimum program of courses unless the area of specialization prescribes a certain pattern.

Graduation With Honors (Associate in Arts Degree)

With honors shall be granted to a student who has earned the Associate in Arts degree while maintaining a cumulative 3.5 grade point average prior to the final semester.

The overall GPA at the end of the fall semester of the academic year is used in determining honors. The student's grade point average will be calculated on the basis of grades earned at Mount St. Mary's College.

Courses at another institution after matriculation are not counted into the cumulative grade point average.

Experience Requirements

Experience endeavors to relate personal growth and learning to the more practical aspects of life. Opportunities for experience can occur both inside and outside the college.

Group Experience facilitates the incoming student's adjustment to the demands of college life by teaching tools for personal effectiveness and presenting strong female role models in various careers. Students work in small groups with staff and peer counselors to discuss concerns, explore values and goals, and practice communication skills.

Social Action/Fieldwork extends the learning process beyond campus limits. The student becomes aware of important issues in society by dealing with them. Opportunities are offered for career-related experiences and the blending of theory and practice. In Social Action the student performs supervised volunteer services such as tutoring, hospital, volunteer work, child care, home visiting, and the like. In Field Work the student engages in supervised fieldwork or practicum as determined by the major.

Academic Support Services

Academic Advisement

The advisement program is coordinated through the Academic Advisement Center. All students are assigned an adviser with whom they plan their academic programs. The adviser assists in clarifying program requirements and in coordinating the students' schedules.

Although the individual faculty advisers and the Advisement Center staff make every effort to provide advisement for the student, it is ultimately the student's responsibility to see that all procedures are followed and all requirements are fulfilled.

Learning Resource Center

The Learning Resource Center provides audio-visual programs and study modules in the fields of business education, communication skills, nursing, psychology, religious studies, and science. The Center contains the equipment necessary for use of the modules as well as providing technical assistance by a staff member whenever needed. A tutoring service for all first year communication skills students, as well as for selected areas of study, is also provided in the Center.

Skills Programs

The ability to communicate is one of the basic tools of learning. A student must be able to receive and to transmit information accurately. This process involves reading, writing, speaking, and listening, as well as understanding non-verbal messages. A student must be able to think logically and apply knowledge to problems and situations at hand. In order to facilitate the acquisition of these tools, the following programs are offered:

College Skills (Learning Skills) Specialized courses in areas such as study skills, reading, math, and English are provided for students whose previous performance and/or test results would indicate they might experience academic difficulty. These courses are required for students who are academically underprepared.

Communication Skills Four levels of instruction in Communication Skills are offered: (1) large group instruction on principles; (2) small group workshops to apply these principles; (3) individual tutorial help as needed; (4) self-teaching, using machines and programmed materials in the communication skills lab in the Learning Resource Center.

Summer Skills To enable students to get a better start in their college careers, a Summer Skills program is offered with courses in English, math, reading and study skills. This is especially for those students with low test scores, or for those who choose to participate in this extra program.

Student Services

Student Activities

College involvement gives the student the opportunity to become a vital part of the college. Students are encouraged to serve on college committees and to initiate religious, cultural, and social activities on the Doheny Campus. The limited enrollment offers many chances for participation in student government and campus organizations. In fact, a priority of the college is to provide its women with distinctive leadership opportunities.

Many organizations are open to the Mount students in an effort to broaden their experiences. Among these, the Associated Students sponsor a wide range of social, cultural, recreational, volunteer, and religious activities. The Student Board meets regularly to discuss student concerns and to promote student involvement. Several occasions arise each year for interaction with baccalaureate students at Chalon as well as with students of surrounding colleges. Special interests are represented in various clubs and groups, including the Deltas (the service sorority which serves as the official hostess group on the Doheny Campus), and the Student Nurses' Association of California.

In addition to the on-campus activities, students are invited to take part in the many opportunities available to them in the greater Los Angeles area.

Women's Leadership Program

The Leadership program, a non-degree program open to all students, is designed to foster the development of leadership potential. The required Group Experience course provides a foundation for elective seminars in which students learn how and why effective leadership works. Leading in small groups allows students to test theories in practice and to develop confidence and assertiveness. Advanced students plan and carry out their own leadership projects on or off campus.

Campus Ministry

A variety of services are available through the Campus Ministry office on the Doheny Campus, including celebrations of the Eucharist, pastoral counseling, weekend and evening retreats, sacramental preparation, a prayer group, inquiry and Catholic update, and involvement in a variety of volunteer service opportunities. Several activities are sponsored through a coordinated effort with the Chalon Campus staff and students.

Doheny has its own chapel, and is located next to St. Vincent's Church. It is just a few blocks from the Newman Center of the University of Southern California. Both facilities are open to the Mount community.

Career Center

The Career Center offers a variety of resources to assist students in finding the college majors and careers best suited to their values, interests, and abilities. Students may take an elective course in career exploration and use the many self-evaluative tools,

including the computer, available in the center. Students are also encouraged to meet with the counselor for an individual consultation.

The Career Center also assists students in finding part-time work through listings on the job board. In addition, students receiving financial aid are eligible for on-campus work-study positions through the financial aid office.

Residence

Doheny residence provides an opportunity for a group-living experience in a warm and friendly atmosphere. Student life is largely self-regulated under the guidance of the director of residence and residence assistants. Every effort is made to allow for student privacy while providing opportunities for a good community-living experience.

Health and Counseling Services

Students at the Doheny Campus have available to them the full scope of health and mental health services offered by the Student Health Service of the University of Southern California. All Doheny students must have a preliminary statement of health submitted to the USC Student Health Center. To use the Center, students need only show their MSMC identification card. Students are expected to provide their own transportation to the Center.

Informed and concerned staff are available for the individual student who desires counseling. Limited short term consultation is available on campus. Students are referred to the University of Southern California Counseling Center for further services. These include women's support groups, ethnic identity groups, and workshops on various topics from shyness to stress management.

THE BACCALAUREATE DEGREE

Mount St. Mary's College confers the following baccalaureate degrees:

The Bachelor of Arts with majors in
American Studies
Art
Biological Sciences
Business
Chemistry
Child Development
Diversified Major (for elementary teaching credential students)
English
French
Gerontology
History
Mathematics (Computer Science emphasis)
Music
Philosophy
Political Science
Psychology
Religious Studies
Social Science
Sociology
Spanish

The Bachelor of Science with majors in

Biochemistry
Biological Sciences
Chemistry
Nursing
Physical Therapy

The Bachelor of Music with a major in Music

The Bachelor of Fine Arts with a major in Art

Individually Designed Major

The Individually Designed Major is available to students interested in giving further creative direction to their own education. This student is encouraged to utilize alternative modes of education and to assume leadership in initiating educational and cultural experiences. Admission to the Individually Designed Major presumes the ability on the part of the student to engage in independent study. Freshmen are eligible to apply for membership after the successful completion of their first semester at Mount St. Mary's College.

With the approval of the academic dean, students of demonstrated ability may also apply to earn a bachelors degree in an individually constructed program of study directed by a board of three faculty members. Information is available in the Advisement Center and from the assistant academic dean.

Academic Policies: Baccalaureate Degree

Degree Requirements

1. Completion of at least 129 semester units with a grade point average of 2.0 (C average) for all college work undertaken at Mount St. Mary's College. A minimum of 45 semester units must be in upper division work.
2. Completion of a major, as designated by the major department.
3. Satisfaction of the senior residence requirement. *Residence* is defined as the last 30 units before graduation which must be taken at Mount St. Mary's College; of these, a minimum of 12 semester units must be in the student's major and earned in regular course work.
4. Completion of a Mount St. Mary's College general studies program.

The General Studies Curriculum

An educated person is one who is not only academically prepared in an area of specialization but also one who has knowledge and appreciation of the diverse fields of human endeavor. To achieve this, a student is expected to explore areas of learning outside the major through the General Studies curriculum. The college has adopted the following components of a liberal education as fundamental in developing excellence of mind and spirit. The components are integrated into the educational program, and into the General Studies Curriculum, in a way that enables the growth of students as free, imaginative, and responsible human beings, sensitive and responsive to the needs of the human person and human society. These components are:

1. effective written expression of ideas;
2. effective oral communication;
3. analysis of assumptions, methods of argumentation, values;
4. problem-solving: defining problems, identifying issues; organizing, analyzing, synthesizing ideas; comparing, contrasting ideas; decision-making;
5. understanding of personal and group behavior;
6. effective participation in a group or organization;
7. sense of history as providing perspective for interpreting human events;
8. sense of literature as reflecting and interpreting human experience;
9. understanding of and appreciation for music and the visual arts;
10. curiosity about and a spirit for investigating the natural universe;
11. ability to recognize patterns of thought used in science and mathematics;
12. understanding of the impact of advancing technology on human society and culture;
13. understanding of social classes and social structures in diverse societies;
14. understanding of contemporary economic, social, and political issues;

15. understanding of criteria and standards to assess personal moral values and ethical judgements;
16. openness to understanding of, and respect for philosophical, religious, and ethical diversity;
17. awareness of the religious and spiritual dimensions of human existence.

General Studies Requirements

The following structure and content for the General Studies Curriculum applies to all bachelor degrees except that there is no language requirement for the Bachelor of Fine Arts, the Bachelor of Music, and the Bachelor of Science degrees.

Students may take nine units of general studies courses, no more than one course in any area, on a credit/non-credit basis.

No more than nine units of general studies may satisfy requirements in one's major program. This restriction does not apply to courses taken in preparation for the major.

The college policy on challenge examinations (see p. 42) will prevail in the General Studies Curriculum.

I. Communication Skills (minimum 7 units)

A. Written (6 units)

ENG 1AB	Freshman English	(3,3)
ENG 5H	Freshman Honors English	(3)
ENG 6H	Freshman Honors English	(3)
ENG 10AB	Written and Oral Communication	(3,3)

B. Oral (1-3 units)

SPE 10	Introduction to Communication	(2)
SPE 11	Communication Practicum	(1)
SPE 12	Business and Professional Communication	(3)
+SPE 13	Oral Argumentation	(3)
SPE 14	Group Communication	(3)
SPE 21	Communication Apprehension	(1)
SPE 22	Voice and Diction	(1)
PSY 2	Communication	(2)
PSY 135	Group Dynamics	(3)
POL 134	International Organization-MUN	(3)
PTH 168	Interpersonal and Interprofessional Relationships	(3)

II. Analytical Skills (minimum 3 units)

PHI 5	Logic	(3)
BIO 1AB	Biological Dynamics	(4,4)
BIO 3	General Microbiology	(4)
BIO 41AB	Human Anatomy and Physiology	(4,4)
BIO 51AB	Human Physiology and Anatomy	(4,4)
CHE 1A	General Chemistry	(4)
CHE 3	Foundations of Chemistry	(3)
ECO 2	Macroeconomics	(3)
MTH 1	College Algebra	(3)
MTH 3AB	Mathematical Analysis I	(4,4)

MTH 9	Introduction to Computer Processes	(3)
MTH 9H	Introduction to Computer Processes: Honors Section	(3)
MTH 10	Mathematical Ideas	(3)
MTH 20	Programming	(3)
MTH 38	Elements of Probability and Statistics	(3)
MTH 50	Modern Mathematics	(3)
MTH 54	Elementary Number Systems and Geometry	(3)
PHS 1	Scientific Concepts	(3)
PHS 2	General Physical Science	(3)
PHS 4	Elementary Environmental Studies	(3)
PHS 5	Selected Topics in Physical Science	(3)
POL 10	Political Concepts	(3)
POL 38/138	Individual Rights	(3)
SPE 13	Oral Argumentation	(3)
POL 186	Introduction to Public Administration	(3)
PSY 106	Experimental Psychology	(3)
SOC 117	Methods of Research	(3)

III. Arts and Sciences (minimum 21 units)

At least one course must be taken in each of the following categories (A - G):

A. Art or Music

ART 5	Fundamentals of Art	(3)
ART 7	Modern Art Survey	(3)
ART 8	Introduction to Visual Fundamentals	(3)
ART 77	History of Art: Christian	(3)
ART 170	History of Art: Ancient to Medieval	(3)
ART 171	History of Art: Renaissance to Romanticism	(3)
ART 172	History of Art: Modern World	(3)
MUS 6	The Fine Arts: Music	(3)
MUS 114	Music in Latin America	(3)
MUS 125	Music Masterpieces	(3)
MUS 141	Historical Period Studies	(3)
MUS 142	History of Opera	(3)
MUS 143	Composer Studies—Mozart	(3)
INT 95	Study/Travel: European History and Culture	(1-6)
SPR 12	The Arts in Los Angeles	(3)

B. Literature

ENG 15	Literature and Society	(3)
ENG 16	Literature and the Human Experience	(3)
ENG 17	Literary Focus	(3)
ENG 18	Studies in World Literature	(3)
ENG 21	Classical Epic and Drama	(3)
+ENG 22	The Bible as Literature (see RST 80)	(3)
ENG 25	Mythmaking	(3)
ENG 26	American Experience	(3)

POL 171	Presidents and Personality	(3)
POL 179	California Politics	(3)
POL 192	Plays and Politics	(3)

IV. Foreign Language (minimum 9 units)

Required for B.A. degree only.

FRE 1	Elementary French	(3)
FRE 2	Basic French	(3)
FRE 3	Intermediate French	(3)
FRE 32	History and Civilization of France	(3)
FRE 133	Contemporary French Culture	(3)
SPA 1	Elementary Spanish	(3)
SPA 2	Basic Spanish	(3)
SPA 3	Intermediate Spanish	(3)
SPA 4A	Introduction to Spanish Literature	(3)
SPA 4B	Introduction to Spanish Culture	(3)
SPA 42	History and Civilization of Spain	(3)
SPA 144	History and Civilization of Spanish America	(3)
SPA 145	Contemporary Hispanic Culture	(3)

(See Foreign Language Fulfillment Alternatives following General Studies information.)

V. Philosophy and Religious Studies

(minimum 15 units — must include 3 units of Ethics)

A. RELIGIOUS STUDIES (6-9 units)

Ordinarily, courses must be taken in at least two of the following areas:

1. Scripture

RST 11	Introduction to Old Testament	(3)
RST 15	Introduction to New Testament	(3)
RST 90S	Special Studies in Christian Scriptures	(3)
RST 190S	Advanced Studies in Christian Scriptures	(3)

2. Christian Thought

RST 21	Catholicism	(3)
RST 90T	Special Studies in Christian Thought	(3)
RST 123	The Church	(3)
RST 131	Jesus	(3)
RST 190T	Advanced Studies in Christian Thought	(3)

3. Christian Ethics

RST 41	Introduction to Christian Ethics	(3)
RST 45	Contemporary Issues in Christian Ethics	(3)
RST 90E	Special Studies in Christian Ethics	(3)
RST 149	Ethics of Life and Death	(3)
RST 190E	Advanced Studies in Christian Ethics	(3)

4. Religion and Religions

RST 61	Introduction to World Religions	(3)
RST 70	Faith and Human Development	(3)
+RST 80	Bible as Literature (see ENG 22)	(3)
RST 90R	Special Studies in Religions	(3)
RST 178	Death and Dying	(3)
PHI 160	Philosophy of Religion	(3)
RST 190R	Advanced Studies in Religion(s)	(3)
SOC 195	Sociology of Religion	(3)

The following will be offered for General Studies credit on a course-by-course basis:

RST 90	Special Studies	(1-3)
RST 91	Workshop	(1-3)
RST 95	Internship	(1-3)
RST 190	Advanced Studies	(1-3)
RST 191	Seminar	(3)

Please see schedule of classes for details.

B. PHILOSOPHY (6-9 units)

At least one course from among those listed under Philosophical Ideas must be taken.

1. Philosophical Ideas

PHI 15	Challenges in Philosophy	(3)
PHI 24	Socrates, Plato, Aristotle	(3)
PHI 95	Special Problems	(1-3)
PHI 125	Aquinas	(3)
PHI 126	Descartes to Kant	(3)
PHI 130	Existentialism and Phenomenology	(3)
PHI 134	American Thought	(3)
PHI 150	Metaphysics	(3)
PHI 152	Theory of Knowledge	(3)
PHI 158	Scientific Method	(3)
PHI 160	Philosophy of Religion	(3)

PHI 170	Social and Political Philosophy	(3)
PHI 172	Marxism	(3)
PHI 174	Aesthetics	(3)
PHI 176	Philosophy in Literature	(3)
PHI 178	Philosophy of Woman	(3)

2. Ethics

PHI 21	Moral Values	(3)
PHI 92	Business Ethics	(3)
PHI 168A	Contemporary Moral Problems	(3)
PHI 168B	Bioethics	(3)

3. Other

+PHI 5	Logic	(3)
PHI 155	Symbolic Logic	(3)
PHI 158	Scientific Method	(3)
+PHI 160	Philosophy of Religion	(3)

+This course may be used for double counting, i.e., it may be used to satisfy simultaneously a requirement in another area.

There are the following restrictions on double counting courses:

- (i) courses may be double counted only if they are listed under the area within which the student wishes to double count;
- (ii) no double counting is allowed across categories in area III;
- (iii) At most six units of the 21-unit minimum in area III may involve double counting with other areas;
- (iv) no more than one course from areas I-IV may double count to satisfy a requirement in area V;
- (v) one and only one course within area V may be used to satisfy simultaneously a religious studies and a philosophy requirement.

Foreign Language Fulfillment Alternatives

This requirement may be satisfied by any of the following alternatives:

1. students satisfy level 3 of a language by course work or examination;
2. students take course work to complete level 2 in each of two languages;
3. re-entry students (those whose formal education has been interrupted for a period of four or more years) may take two courses in the literature and culture of a people whose language is included in a language requirement of the college;
4. students whose native language is not English may demonstrate academic proficiency in English as a second language by
 - a. passing the TOEFL examination with scores above 550; or
 - b. sequential work in ESL to raise student performance to 109 or above. In the case of a bilingual or multilingual student, the Department of Foreign Languages will determine which is the student's first, or native language, and which is the second, or foreign language.

Graduating With a Double Major

Students who wish to earn a degree with a double major must observe the following requirements:

1. The two majors may be in the same or different degree programs. The student must determine which is the primary major and satisfy the general studies requirement for the degree of that major. The other major is considered the secondary major.
2. All requirements for both majors must be met, including all upper division work, foreign language, and any additional requirements.
3. The department chairpersons of both major areas must approve the student's completion of the requirements for the major.
4. A second major may be earned in the same academic area, but no more than 9 upper division units may satisfy requirements in both majors.

Second Baccalaureate

In order to receive a second baccalaureate degree, a student must fulfill the following requirements:

1. Completion of a minimum of 24 semester units in residence beyond the requirements for the first baccalaureate degree.
2. Completion of all departmental requirements, including a foreign language if necessary, in the area of the major for the second degree.
3. Completion of all other institutional requirements if the first degree has been earned elsewhere.

Graduation With Honors

Summa cum laude shall be granted to a student who has received a cumulative grade point average of 3.85 or higher.

Magna cum laude shall be granted to a student who has received a cumulative grade point average of 3.7 or higher.

Cum laude shall be granted to a student who has received a cumulative grade point average of 3.5 or higher.

The overall GPA at the end of the Fall semester of the student's academic year is used in determining honors. To be eligible, the student must have completed 48 letter-graded units at Mount St. Mary's College. The student's grade point average will be calculated on the basis of grades earned at Mount St. Mary's College as well as grades transferred into the College at time of matriculation. Courses at another institution after matriculation are not counted into the cumulative grade point average, with the exception of approved junior year abroad and exchange programs.

Special Academic Services

Academic Advisement Center and Services

The Chalon campus advisement program is coordinated through the Academic Advisement Center. All students are assigned an adviser with whom they plan their academic programs. The adviser assists in clarifying the requirements in the general studies program and the major department.

To further serve the student's advisement needs, the Academic Advisement Center functions as a drop-in office for on-going guidance and referral services. Help in understanding and following college policies is always available. The staff, along with student assistants, provides information on many aspects of college life and clarifies the procedures for filing petitions, Transfer of Credit, Withdrawal/Leave of Absence, Study Abroad, and foreign students' I-20 and I-538 forms.

Although the individual faculty advisers and the Advisement Center staff make every effort to provide advisement for the student, it is ultimately the student's responsibility to see that all procedures are followed and requirements fulfilled.

Learning Assistance Center

In order to enable each student to achieve maximum benefit from the academic programs at the College, a Learning Assistance Program is available on the Chalon campus. Students whose previous performance would indicate they might experience academic difficulty at Mount St. Mary's College take part in the program through assessment testing and follow-up programs in math, English, and study skills.

The center provides individualized and group sessions. A program of student tutors in academic areas, as need dictates, is also provided..

Placement and assessment testing are available to all students who request them. Students may be referred to the Learning Assistance Center by faculty, or deans, or may seek assistance themselves.

Junior Year Abroad

Mount St. Mary's College offers several opportunities for foreign study during one or both terms of the junior year. Applications may be made to accredited universities. Students' requests will be approved by the academic dean on an individual basis.

Students who wish to take part in this program must obtain the approval of the academic dean and the chairman of their major department. They must qualify by a grade point average of 2.5. If they plan to attend classes in which the lectures are given in a foreign language, they should have sufficient proficiency in that language before entering the program.

To facilitate transfer of credits from foreign universities, students should observe the following procedure:

1. Work out with the assistance of their advisers an acceptable program of courses for the year; a record of the approved program is kept on file in the office of the registrar.

2. Maintain status as Mount St. Mary's College students by registering in the office of the registrar for the year abroad; the fee for registration is \$60 per semester.
3. Register as regular students at the foreign university and request that transcripts of credits be sent to the registrar at Mount St. Mary's College; courses taken abroad are treated in the same manner as other transfer courses.

The GPA earned by a student during the year abroad is included in determining the student's overall GPA for the conferral of honors at graduation.

Further information may be obtained from the Advisement Center.

ROTC

Through a cross-town agreement, Mount St. Mary's College students may take part in the Loyola-Marymount University Air Force ROTC program.

(See courses listed under ROTC.)

Navy and Marine Corps NROTC programs are available to qualified Mount St. Mary's College students through agreement with UCLA.

Further information may be obtained from the Advisement Center.

Carondelet College Exchange

Students enrolled as degree candidates at any one of the National Federation of Carondelet Colleges offering the bachelor degree — Avila College in Kansas City, Missouri; The College of St. Catherine in St. Paul, Minnesota; The College of St. Rose in Albany, New York; Fontbonne College in St. Louis, Missouri; and Mount St. Mary's College in Los Angeles — may spend up to two semesters as visiting students at another Federation college. Visitors make progress toward the degree begun at their home campus while taking advantage of the rich learning experience of being with students from a different part of the country on a campus with unique academic resources.

The GPA earned by the student during the exchange semester(s) is included in determining the student's overall GPA for the conferring of honors at graduation.

For further information contact the Academic Advisement Center.

Student Development

Mount St. Mary's College provides students with programs and experiences conducive to personal, cultural, ethical, social, and intellectual growth. Student initiative and responsibility are encouraged in an atmosphere of close interrelation among students, faculty, administration and staff.

Student Activities

Students are encouraged to become members of various college committees where, with members of the faculty and administration, they may contribute to the policy and procedures involved in their own educational process.

The limited enrollment at Mount St. Mary's College offers many opportunities for participation in student government and campus organizations. In fact, a priority of the college is to provide women with distinctive leadership opportunities.

To supply the broadening experience which organized discussions and planned activities furnish and to foster interest in the special fields which students are pursuing, many opportunities and organizations are open to Mount St. Mary's College students in campus life. Among them, the Associated Students of Mount St. Mary's College sponsors a wide range of cultural, educational, recreational, athletic, volunteer and social activities. The governing board of the Associated Students of Mount St. Mary's College meets at regular intervals to analyze student concerns, reflect student attitudes on questions of administrative policy, promote student activities, consider appointments, and appropriate student body funds. Residence Council addresses residence issues and promotes activities. Mount St. Mary's College has a student-run newspaper and yearbook. Several of the students' special interests include Round Table which sponsors theater excursions in Southern California, an active Model United Nations program (annually attends New York conference), the Mount Chorus and Orchestra, Pi Theta Mu (an honorary service sorority), professional student affiliations (Student California Teachers' Association, Student Nurses' Association of California, Women of Management and Enterprise, the American Chemical Society Student Affiliates), and a local social sorority, Kappa Delta Chi.

In addition to the many on-campus activities, Mount St. Mary's College's urban location offers the cultural and recreational opportunities available in the greater Los Angeles area.

Leadership Program

The Leadership program is designed to provide for a group of students the development of their potential leadership skills. It offers workshops and seminars on how to delegate authority, how to motivate groups of people, and how to provide constructive criticism and support. Leadership students not only study leadership techniques but have the opportunity to put them into practice. Students in the Leadership program are encouraged to enroll for internships related to their career goals. The Women's Leadership Program is a non-degree program, supplemental and open to all majors. See special programs for course listings.

Counseling Services

Students at Mount St. Mary's College may find assistance in an atmosphere of responsible freedom in one or more counseling situations. Counseling may range anywhere from a fifteen-minute informational chat with an instructor on the campus to a long-term therapy as a result of a referral to an outside resource through the college health services or the department of psychology.

Students (either individually or in a group) have the opportunity to talk over problems of concern in academic, personal, or vocational matters in an atmosphere of acceptance and in a confidential manner, with a staff of professionally trained psychologists who are also members of the teaching staff. The goals of such counseling are the realization and development of individual resources and increased self-understanding. Psychological testing is also provided when it is deemed appropriate.

Four peer counseling groups exist to help students: Health Advocates, Student Orientation Service (SOS), Resident Assistants, and Student Assistants in the Academic Advisement Center. All peer counselors receive training in communication skills and understanding of college-services through seminars and weekend workshops.

Campus Ministry

Campus Ministry is a pastoral apostolate of service to members of the entire Mount community through concern and care for persons, the proclamation of the Gospel and the celebration of the Eucharist. Campus Ministry provides for: retreats, liturgical celebrations, religious activities, counseling, interfaith discussions and social action. The College chaplain works with the Campus Ministry Office to provide students with a sense of Christian living.

The Student Placement Office

The Student Placement Office offers a variety of services and employment opportunities for enrolled students. Job opportunities on campus are available in the library, the food service, the student bookstore, the switchboard, faculty offices, and other places. Jobs are filled according to students' financial need and skill. Students interested in on-campus employment are encouraged to file applications early in the Financial Aid Office and in the Student Placement Office. Off-campus jobs, including seasonal and summer employment opportunities, are posted in the Student Placement Office and Campus Center.

Career and Job Development Services

The offices of Career Planning and internship/job development assist the student in finding the major or career best suited to the student's interests. Students are encouraged to meet for an individual consultation of career plans. Additionally, a career planning seminar is regularly offered to provide students with the self-evaluative tools, labor trend information and job search skills that will enable them to build satisfying and influential careers. The office of internships/job development assists the student in internship placement and in the transition from college to the world of work.

Residence Life

Primary emphasis in the residence halls is on a close interrelationship of students and staff to create a social situation which fosters the formation of personal values and integrity. On-campus living affords increased opportunities to develop personal relationships and to participate in the many enriching programs which Mount St. Mary's College offers. Student resident life is largely self-regulated, under the direction of the residence council which is composed of elected residence officers and floor representatives, resident assistants, faculty members in residence, the associate director of residence, and the director of residence.

In addition to the director of residence and associate director of residence, several other staff members help to contribute to the general well-being of the resident students. These include the assistant director, a dormitory assistant, and students who serve as resident assistants. A religious faculty member lives on each floor of the residence halls.

The residence staff gives much time and attention to assigning rooms and room-mates. They make every effort to provide a living/learning environment which will allow the student both privacy and the freedom to develop relationships conducive to social and educational growth.

Off-campus housing arrangements for unmarried students are the responsibility of the students and of their parents. The college offers assistance in making these arrangements.

Commuter Services

Mount St. Mary's College recognizes the special needs of commuter students. There is a monthly newsletter, the *Commuter Chronicle*, which addresses commuter issues. An off-campus Housing Referral service is administered through the Student Development Office. The Commuter Representative facilitates car-pooling, distributing lockers and scheduling commuter workshops at convenient times. The campus center is an informal lounge open especially for all commuter students.

Health Services

The Mount St. Mary's College Chalon Campus Health Center offers the services of a health educator and a part-time physician to students, administration, faculty, and staff. Emphasis is placed on preventive medicine. Consultations, examinations, first aid treatment, whirlpool, ultrasonic therapy, hydrocollator therapy, clinical laboratory tests and medical counseling for various matters (e.g., weight control and skin problems) are available.

Incoming students, freshmen and transfer, must submit the results of a recent physical examination (within the previous six months) by a private medical doctor to the Health Center prior to entrance. Thereafter, members of the college community are encouraged to avail themselves of the Health Center for yearly physical examinations and laboratory testing.

GRADUATE DEGREE PROGRAMS

Mount St. Mary's College in Los Angeles offers the following degree programs:

The Master of Arts in Religious Studies (See page 201.)

The Master of Arts in Applied Spiritual Theology (See page 222.)

The Master of Science in Education with concentrations in: (See page 118.)

Administrative Studies;

Counseling (Pupil Personnel Services; Marriage, Family, and Child Counseling; and Human Services);

Special Education (Learning Handicapped).

Individually designed graduate programs are also available.

(See page 122.)

Admission Policies

A student who holds a bachelors degree from an accredited college or university, or the equivalent of a bachelors degree, is eligible to apply for admission. The student's previous academic record must give evidence of the ability and the preparation necessary for successfully pursuing graduate study.

Application

Application procedures must be completed before or during the first semester of enrollment. The applicant forwards the following, where applicable, to:

The Graduate Office
Mount St. Mary's College
10 Chester Place
Los Angeles, CA 90007

1. Application and application fee.
2. Two official transcripts of all previous college work, both undergraduate and graduate, sent directly from each institution to the Graduate Office. These records should show, for upper division work, a minimum GPA of 3.00 for applicants to the Master of Arts in Religious Studies, and 2.50 for applicants to the Master of Science in Education programs.
3. Two letters of recommendation from persons who have had ample opportunity to judge the applicant's:
 - a) academic ability and achievement
 - b) appropriate professional potential in education, counseling, administration, or teaching in special education (learning handicapped). (For applicants for the Master of Science in Education only.)
4. Results of the *Miller Analogies Test*.

5. Interview with the graduate advisor.
6. Copies of credentials held (for the Master of Science in Education).
7. Results of the Basic Educational Skills Test for applicants for the Master of Science in Education who are also applying for a credential program).
8. Results of the TOEFL test, for applicants whose first language is other than English. A minimum score of 550 is required.

Applicants from countries other than the United States:

9. Must submit results of the TOEFL test (for applicants whose first language is other than English). A minimum score of 550 is required.
10. Must have their transcripts sent to the Credential Evaluation Service for equivalency determination. (Special application forms are provided.)
11. Must submit a notarized statement guaranteeing financial support during the period of study at Mount St. Mary's College.
12. May obtain further details published in "Information for Prospective Graduate Students From Other Countries," included with the application forms.

Admission and Acceptance

1. After all requirements for admission are fulfilled, an official departmental acceptance is sent directly to the applicant from the Graduate Office. Acceptance is determined by the action of the Graduate Dean and the Departmental Advisor.
2. The student enrolls in the first semester of graduate study after the official acceptance. The student *may* take one semester of course work before acceptance into the graduate division, but *may not* register for a second semester if application procedures have not been completed.
3. In the event that the applicant's undergraduate record does not include all of the required courses or a satisfactory grade point average, supplementary undergraduate work may be required to fulfill the prerequisites of the major department.
4. Masters degree students may apply for financial assistance from Mount St. Mary's College after completion of all requirements for official acceptance, and the successful completion of one graduate course. Graduate scholarships and assistantships are available; contact the Graduate Office. Contact the Education Department for information about financial assistance for students in credential programs.

Academic Policies

Residence and Time Limit

After acceptance into a degree program the student is expected to remain continuously enrolled in each regular semester up to and including the semester in which the degree is awarded. The minimum residency for the masters degree is three semesters; or one semester and three summer sessions; or two semesters and one summer session, or four summer sessions. The degree is ordinarily earned within five consecutive academic years or nine consecutive summer sessions.

Credit is not granted for work extending beyond these limits. Any term or summer session in which the student fails to register for classes is included in these limits.

A graduate student who is eligible but who chooses not to enroll continuously may petition for a leave of absence for a specified period of time. The granting of a leave of absence does not change automatically the time limit for completing the program. At the end of the period of leave the student may re-enroll without filing an application for readmission. After a lapse of **three consecutive semesters** the student will follow the same procedures as those required for new applicants.

Unit Load

The number of semester units of work taken in the respective semesters or summer sessions is determined in consultation with departmental advisors. Full-time students ordinarily carry eight semester units of graduate work during a regular semester, and six semester units during the summer session.

Graduation

1. **Application for degree:** Candidates for the Masters degree file a formal degree application in the Graduate Office at the beginning of their final semester, on forms provided. The specific date for this application is published in the current Graduate and Evening College calendar.
2. **Graduation Exercises:** Candidates receiving degrees are invited to participate in the Graduation Exercises. These ceremonies are held each year at the end of the Spring semester. All graduates who have completed their programs since the previous spring are included in the exercises of Hooding and Commencement.

Readmission of Students Who Have Already Completed a Graduate Degree

Graduates who wish to enroll for another credential or degree will follow the same procedure as new applicants. New recommendations and other records may be required, depending upon changed circumstances. An application fee is not charged unless a period of five or more years has elapsed since the completion of the previous program.

Non Degree-Seeking Graduate Students (Unclassified Status)

Students who hold bachelors' degrees from accredited colleges or universities are eligible to take courses for unit credit at the college without the intention of pursuing a graduate degree or credential. They may take either undergraduate courses in subjects of special interest or graduate courses for which they are qualified.

Students complete registration forms and may be required to provide evidence of possessing a baccalaureate degree at the time of registration. Their registration is approved by the departmental advisor. They are expected to observe the prevailing standards of scholarship and attendance.

If, after taking courses at the college, a student should become an applicant for a degree, a limited number of graduate credit courses (no more than nine units) may be applied to the individual degree program, after the student has been regularly admitted to the Graduate Division. These courses must satisfy the requirements of the program and meet the approval of the program advisor and the Graduate Dean.

Course Numbers

Although all of the work counted toward the masters degree is of a distinctly advanced character, not all of the courses need be taken from the 200-level. With the approval of the graduate advisor in the major field, upper division courses suitable for a well-rounded program may be included, provided that the student earns at least a grade of B. A maximum of upper division units that may be included are nine semester units for the Master of Science in Education degree, and six units for the Master of Arts in Religious Studies and the Master of Arts in Applied Spiritual Theology.

Grades

The grade point average for all work presented for an advanced degree must be at least 3.0 or B average. A required course in which a grade of D or F has been received must be repeated.

The student's grade point average is computed according to this scale:

A	excellent	4 grade points per unit
B	good	3 grade points per unit
C	average	2 grade points per unit
D	poor	1 grade point per unit
F	failure	0 grade points per unit

The following grades are not computed in the GPA:

AU	audit
CR	C or better; credit given (see below)
I	incomplete (see below)
IP	in progress: deferred grading for graduate thesis or field experience
NC	D or F; no credit given (see below)
R	course was repeated at later date
RD	report delayed
U	unauthorized withdrawal
W	withdrawn

Grading Policies

Credit/No Credit

CR/NC applies only to the Supervised Field Experience in graduate programs.

Incomplete

An Incomplete is given only when a student:

1. has fulfilled the majority of the course requirements;
2. has a passing grade in the classwork;
3. is prevented from completing the assigned work for serious reasons;
4. has consulted the instructor prior to the grading period;
5. has been assessed by the instructor that he/she can realistically complete the work within one semester.

An incomplete will remain as such unless removed by the instructor within one semester. It is not computed in the GPA. An Incomplete can be extended beyond one semester only upon petition to the instructor with the approval of the Graduate Dean.

Repetition of courses with D/F/NC grades

Only courses for which D, F, and NC were assigned may be repeated for a higher grade or CR. Courses may be repeated only once. In cases of repeated courses, the units are counted once and the higher grade is computed in the GPA.

Credit by Examination

Credit for courses may be earned by satisfactory completion of examinations offered by the department. Petition to take such examinations is made through the advisor of the respective program. Forms for such petitions may be obtained from the Graduate Office.

Credit examinations will ordinarily be given only to students who have been admitted to a graduate program and have maintained a 3.0 GPA in at least one semester or six units of study at Mount St. Mary's College. After satisfactorily completing credit examinations, students will file appropriate completed forms with the Registrar's Office. Only CR, i.e., no letter grade, will be given for passing these examinations; no record of failures on these examinations will appear on the transcript.

A maximum of nine units, which may be included in the 24 units of residency, may be earned by credit examination.

Transfer of Credit

A maximum of six semester units of graduate work taken in an accredited graduate program is transferable to Mount St. Mary's College, provided that:

1. the transfer courses satisfy curriculum requirements at Mount St. Mary's College and a grade of B or better was earned;

2. the courses are transferred after the student has been accepted into the program and prior to the last semester of graduate study. (Transfer of Credit forms are available from the Graduate Office.)
3. correspondence and extension courses are not transferable;
4. courses must have been taken within seven years of the date on which the student was accepted in a Mount St. Mary's College graduate program.

Students once admitted to a graduate program are expected to pursue study only at Mount St. Mary's College. (For credential students, the Ryan Act requires residency in one college program.)

Unauthorized Withdrawal

The grade U indicates that an enrolled student neither withdrew nor completed course requirements, thus making normal evaluation of academic performance impossible. A grade of U is not computed in the student's GPA.

Withdrawal From Courses

The grade W indicates withdrawal from a course, according to the following policy:

Withdrawal (W) indicates that the student was permitted to withdraw from a class during the period scheduled on the college calendar with the approval of the instructor and advisor. After the scheduled date, petition to the Graduate Dean is required.

The W carries no connotation of quality of student performance and is not calculated in the grade point average. Students who do not officially withdraw may receive a grade of F.

Withdrawal from Programs

Students who withdraw from a graduate program at any time must file a withdrawal notice in the Graduate Office.

Probation

Failure to maintain a 3.0 GPA places the student on probation. A student on probation must achieve a GPA of 3.0 or higher during the next term in order to be readmitted to regular standing and may be required to take fewer units of work while on probation.

Dismissal

A student is subject to dismissal for failure to maintain a 3.0 GPA during the probationary period. The Graduate Dean and/or the Graduate Council has the authority to dismiss students and to suspend dismissal.

Grievance Procedure

Copies of Mount St. Mary's College Graduate Student Grievance Procedure are available upon request at the Graduate Office.

The Graduate Council

The Graduate Council is an advisory body, composed of the graduate program advisors and the Graduate Dean, whose function is to recommend modifications or changes in graduate policy to the Graduate Dean. The main objectives of the Graduate Council are to promote excellence in research and scholarship beyond the undergraduate level and to strengthen existing graduate programs. Among their concerns are admission standards, degree requirements, faculty appointments, and program review and approval.

Responsibility for compliance with published deadlines, regulations, and procedures rests with the student. The written authorization of the Graduate Dean is required for exceptions to published regulations. Because graduate degrees are awarded for scholarly accomplishments, quantitative requirements for specific degree programs must be considered as minimum standards.

COURSES OF INSTRUCTION

Designation of Credits and Courses

Departmental Listing of Courses

COURSES OF INSTRUCTION

Designation of Credits and Courses

Courses numbered 1-99 are lower division courses, generally taken by freshmen and sophomores; those numbered 100-199 are upper division courses, generally taken by juniors and seniors, or majors. Lower division courses marked with an * may be taken for upper division credit with the permission of the instructor and appropriate adjustment in course requirements. Credit for courses whose course numbers include the letter X may not be applied to the baccalaureate degree.

Courses numbered 200-299 are graduate level; those numbered 300-399 are professional courses and those between 340-349 are professional credit courses which may be submitted for equivalency evaluation to be applied to a credential or masters program.

Courses listed as upper division/graduate (100/200) may be taken for either.

Courses to be offered in 1984-85 are noted with †.

Courses to be offered in 1985-86 are noted with ‡.

Courses approved for fulfillment of the General Studies Curriculum requirements are identified after the course description in each department:

GS-IA	Written Communication Skills
GS-IB	Oral Communication Skills
GS-II	Analytical Skills
GS-III A	Art or Music
GS-III B	Literature
GS-III C	History
GS-III D	Natural and Physical Sciences
GS-III E	Mathematics
GS-III F	Social and Behavioral Sciences
GS-III G	Contemporary Economics or Politics
GS-IV	Foreign Language
GS-VA1	Religious Studies: Scripture
GS-VA2	Religious Studies: Christian Thought
GS-VA3	Religious Studies: Christian Ethics
GS-VA4	Religious Studies: Religion and Religions
GS-VB1	Philosophy: Philosophical Ideas
GS-VB2	Philosophy: Ethics
GS-VB3	Philosophy: Other

After the last day to add a course as published in the schedule of classes, no changes may be made respective to the level of study.

The college also offers workshops, seminars, and classes for CEU's (Continuing Educational Units). All records of study and transcripts will be processed through the National Registry for Continuing Education with the American College Testing program.

Aerospace

Mount St. Mary's College has an agreement with Loyola-Marymount University for students to participate in the Air Force ROTC Program. For complete listing, see ROTC.

American Studies

Interdepartmental

What is distinctive about American culture? What are the developing trends in American society, in public policy, in consumer-behavior? What values do Americans treasure? The major in American Studies focuses on the influences of the past and present which have affected American character, experience, and institutions.

This major is of particular value to students interested in entering government service, business, economics, management, political writing, teaching, and law.

It is possible to have a double major combining American Studies with a major in English, history, or pre-law.

The B.A. Degree with a Major in American Studies

A minimum of thirty-six units in American Studies offerings consisting of four lower-division courses as preparation (ENG 26, HIS 71, HIS 72, SOC 5) and eight upper-division courses (AST 175 and seven electives from American Studies Electives). Three of the upper-division courses must be in the humanities (literature, philosophy, art) and three in the social sciences (history, political science, sociology, economics) — or other courses with the approval of the American Studies Program Director.

Preparation:

ENG 26	The American Experience	(3)
HIS 71-76	Two American history courses	(3,3)
SOC 5	Sociological Perspectives	(3)

Recommended Preparation:

ECO 2	Macroeconomics	(3)
POL 10	Political Concepts	(3)

Interdisciplinary Electives

SOC 185	Political Sociology	(3)
SOC 189	Sociology of Aging	(3)

Required Seminar

AST 175	Seminar in American Studies	(3)
---------	-----------------------------	-----

Total Units in American Studies: 48

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirement.

The Minor in American Studies

A minimum of twenty-one units consisting of two lower-division courses (one in history and the other in English or sociology) and five upper-division courses (AST 175 and at least one in social science and one in humanities). Students interested in an American Studies minor should arrange their programs with the American Studies Program Director.

AST 172 Special Studies in American Civilization (1-3)

May be repeated for credit.

AST 175 Seminar in American Studies (3)

Study of a recurrent theme in American life from a variety of perspectives. Students will consider how the theme manifests itself in

the art, literature, philosophy, history, and political and economic order of American society. The particular theme chosen for study will vary from year to year. May be repeated for credit. Required for both the major and minor in American Studies. Other courses are described in the respective departmental listings.

Anthropology***Departmental Affiliation: Sociology*****ANT 2 Cultural Anthropology (3)**

A study of the basic components of culture and social structure; the varied patterns whereby human needs are met in both primitive and modern societies; cultural change.

ANT 125 Comparative Societies (3)
See SOC 125.

ANT 137 Culture and Personality (3)
See SOC 137.

Art

The art major is directed toward several goals. It provides the undergraduate student with a thorough and comprehensive understanding of art as an essential human activity. It prepares students who wish to continue as professional artists or teachers of art. It offers areas of specialization for those students who will pursue graduate study in art.

The BACHELOR OF ARTS DEGREE IN ART offers the students thorough course experiences in drawing, design, painting, photography, printmaking, sculpture, ceramics, fiber design, and art history.

The BACHELOR OF FINE ARTS DEGREE IN ART offers greater possibilities for personal concentration and development. In addition to the regular course work in drawing, design, painting, photography, printmaking, sculpture, fibers/weaving, ceramics, and art history, the student chooses an area of specialization for further study and experimentation. The B.F.A. candidate will prepare a portfolio and present her work in an exhibition at the end of the senior year.

Art courses are offered on both campuses which enrich the liberal arts experience for the student and expand the general studies offerings.

At the Doheny campus a student can begin art studies towards the B.A. or B.F.A. degree, finishing at the Chalon campus. Students should follow the guidelines suggested in the transfer program. Art courses are taught in a converted carriage house, a unique studio space at Doheny.

The B.A. Degree with a Major in Art

Preparation:

ART 1	Drawing I	(3)
ART 2	Design I	(3)
ART 4	Painting I	(3)
ART 5	Fundamentals of Art	(3)

Requirements:

ART 106	Design II	(3)
ART 122	Drawing II (Figure)	(3)
ART 111	Printmaking I	(3)
ART 112	Ceramics I	(3)
Two courses in Art History:		(6)

Three upper division courses in art: (9)

Total units in Art: 39

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirements.

The B.F.A. Degree with a Major in Art

Preparation:

ART 1	Drawing I	(3)
ART 2	Design I	(3)
ART 4	Painting I	(3)
ART 5	Fundamentals of Art	(3)

Requirements:

ART 106	Design II	(3)
ART 122A	Drawing II (Figure)	(3)
ART 111	Printmaking I	(3)
ART 112	Ceramics I	(3)
ART 175	Critical Theories of the Visual Arts	(3)
ART 176	Portfolio and Exhibition	(3)
Three courses in Art History:		(9)
Eleven upper division courses in Art:		(33)

Upper division work should reflect an area of concentration. All B.F.A. candidates must prepare and produce a portfolio and exhibition at the end of the senior year (ART 176).

Total units in Art: 72

Plus general studies requirements and electives totaling 129 semester units.

The Minor in Art

A minimum of seven courses in art:

ART 1	Drawing I	(3)
ART 2	Design I	(3)
ART 4	Painting I	(3)
ART 5	Fundamentals of Art	(3)

Three additional courses in Art:		(9)
----------------------------------	--	-----

Total units in Art: 21

The Minor in Art History

A minimum of seven courses:

ART 5	Fundamentals of Art	(3)
ART 170	History of Art: Ancient to Medieval	(3)
ART 171	History of Art: Renaissance to Romanticism	(3)
ART 172	History of Art: Modern World	(3)
ART 175	Critical theories in the Visual Arts	(3)
ART 199	Independent Study: Research Paper in Art History	(3)

One elective course in Art:		(3)
-----------------------------	--	-----

Total units in Art: 21

The Minor in Graphic Design

A minimum of seven courses:

ART 1	Drawing I	(3)
ART 2	Design I	(3)
ART 6	Design II	(3)
ART 10	Photography I	(3)
ART 130	Graphic Communication	(3)
ART 132	Art Production Methods	(3)

Choice of one Art History:

ART 5	Fundamentals of Art	(3)
ART 172	History of Art, Modern World	

ART 1 Drawing I (3)

Development of basic drawing skills. Emphasis on fundamentals of form, structure, and composition. Various black and white media are explored.

ART 2 Design I (3)

An investigation of the elements and principles of design through specific visual problems. Color theories are explored and subsequent interaction of color is studied through application.

***ART 4 Painting I (3)**

The development of skills relative to composition, color and other structural elements of painting. Primarily acrylic paint will be used although various materials can be considered. Building a stretcher bar and stretching canvas will be included.

***ART 5 Fundamentals of Art (3)**

Illustrated lecture through the use of slides and films on the development of art forms and historical periods through contemporary life. Various modes of painting, sculpture, architecture, and crafts will be studied. GS-IIIA

***ART 6 Design II (3)**

The application of the elements and principles of design to further the development of creative ideas. Includes graphic processes and techniques. Prerequisite: ART 2

***ART 7 Modern Art Survey (3)**

The aim of this course is to help students develop a greater aesthetic awareness through direct exposure to the visual arts.

Emphasis on visits to artists, studios, major museums, and galleries. GS-IIIA

***ART 8 Introduction to Visual Theories (3)**

The course will introduce the student to a variety of studio methods, materials, and concepts. It will expand their awareness of themselves and their relationship to art. Current artistic trends will be related to their historical precedent. GS-IIIA

***ART 9 Fiber Arts I (3)**

The development of design and visual concepts through the use of fiber techniques of weaving will be introduced and non-loom processes will be explored.

***ART 10 Photography I (3)**

A laboratory and theory course introducing techniques of shooting, developing, and printing. Students are expected to supply their own cameras.

***ART 11 Printmaking I (Intaglio) (3)**

A laboratory course involving intaglio, collograph, and relief printing processes. Historical development and the aesthetic value of the print image will be considered. Creative experimentation with materials and technique is emphasized. Prerequisites: ART 1, 2.

***ART 12 Ceramics I (3)**

Foundation course emphasizing wheel-thrown forms. The student will be introduced to all aspects of ceramic processes. Emphasis will be on personal development of visual concepts through the use of clay.

***ART 45 Creative Art Experience for Young Children (3)**

The study of the child and environment in relation to art. Materials and ideas developed to stimulate personal expression in children.

***ART 46 Art as Therapy (3)**

Through the use of various techniques, this course will familiarize the student with the experiential and cultural dimensions of working in art with exceptional individuals who are physically or mentally handicapped.

***ART 53 Serigraphy (3)**

An introduction to silk screen printing. The study of techniques through the use of various stencils, chemicals, and photo-processes. The course will include building a printing unit.

ART 94 Study/Travel (1-6)**ART 99 Special Experience (3)**

An individually designed course combining field experience with studio projects. May be repeated for credit.

ART 130 AB Graphic Communication (3,3)

The development of visual ideas for the purpose of communication. A variety of techniques and graphic processes will be explored. Students will develop visual images relative to social, industrial, and institutional concerns. *Prerequisites: ART 2 and ART 6.*

ART 132 Art Production Methods (3)

Fundamentals of camera ready mechanical art assembly including layout, inking, paste-up, photocopying, and type specification. *Prerequisite: ART 2.*

ART 135 Graphic Art Internship (1-3)

Development of skills in the graphic arts as used in offset printing. Emphasis will be on design, layout, and copy production and the step-by-step preparation of artwork from design to plate and press. *Prerequisites: ART 2 and ART 132.*

ART 142 ABC Serigraphy II (3,3,3)

Investigation into more complicated stencil making processes. Further experiments with photographic techniques and color

separation. Students will be encouraged to develop their own visual vocabulary. *Prerequisite: ART 53.*

ART 149 Sculpture I (3)

An introduction into basic sculpture processes and techniques. Emphasis on the creative development of three-dimensional form in space. Various materials will be explored.

ART 150 ABC Photography II (3,3,3)

The further development of camera and dark-room techniques. Emphasis will be placed on the study and creative use of controlled lighting. Advanced students will explore contemporary photo processes. Personal direction and the development of photography as an art form will be emphasized. *Prerequisite: ART 10.*

ART 151 ABC Printmaking II (3,3,3)

Further development of printmaking skills including etching, photoetching, lithography, and color printing. Personal direction will be encouraged. *Prerequisite: ART 11.*

ART 154 ABC Fiber Arts II (3,3,3)

The further development of fiber techniques, including advanced weaving and fiber used to create sculptural form. Emphasis will be on individual growth application of visual concepts. A wide range of materials will be considered. *Prerequisite: ART 9.*

ART 159 ABC Sculpture II (3,3,3)

Advanced problems which encourage conceptual development and technical control. Individual direction and choice of materials are encouraged. *Prerequisite: ART 149.*

ART 162 ABC Ceramics II (3,3,3)

Increased emphasis on wheel-formed and handbuilt objects, glaze formulation and kiln supervision. Stresses further concepts of design, craftsmanship, and development of personal standards of evaluation. Individual direction through selective problems will be encouraged. *Prerequisite: Art 12.*

ART 164 ABC Drawing II (Figure) (3,3,3)

Drawing from life in various media, preceded by introductory anatomical studies. The accurate and creative use of the figure in composition will be an objective of the course. Advanced students will concentrate

on composition and individual development using the figure. *Prerequisite: ART 1.*

ART 166 ABC Painting II (3,3,3)
Contemporary modes of painting will be explored and traditional approaches re-examined. Emphasis will be on the further development of skills and techniques. Various painting materials will be investigated. Individual problems in painting will be coordinated. *Prerequisite: ART 4.*

ART 170 History of Art: Ancient to Medieval (3)

Illustrated lecture. Art from the prehistorical period to 1400 A.D., including Egypt, Greece, Rome, and the late middle ages. Relationships of painting, sculpture, and architecture to the social and cultural environment. **GS-III A.**

ART 171 History of Art: Renaissance to Romanticism (3)

Illustrated lecture. The arts in Europe from 1400 to 1850. Study of major styles and artists including Michelangelo, Rubens, Rembrandt, Delacroix, and their relationship to their culture. **GS-III A.**

ART 172 History of Art: Modern World (3)

Illustrated lecture. Major art movements and personalities from 1850 to the present, including Impressionism, Cubism, Surrealism, the Mexican muralists, Abstract Expressionism, and current trends. Emphasis on the cultural trends which provide the visual and theoretical background of contemporary art. **GS-III A.**

ART 175 Critical Theories in the Visual Arts: Seminar (3)

A systematic approach to art theory, criticism, and evaluation. Includes visits to museums, galleries, and exhibits. Lecture and discussion. *Prerequisite: Major or minor in art (upper division).*

ART 176 Portfolio Exhibition (3)

Open only to graduating seniors. Emphasis placed on professional readiness. All students must prepare a portfolio that will be shown. (B.F.A. Program only.)

ART 190 Workshop (1-3)

May be repeated for credit

ART 191 Directed Readings (1-3)

ART 195AB B.F.A. Studio (3,3)

ART 199 Independent Study (1-3)

Advanced individual problems. May be repeated for credit.

Biochemistry

Departmental Affiliation: Physical Science and Math

The major in biochemistry offers the student an interdisciplinary study of biology and chemistry, and provides an excellent preparation for all preprofessional areas leading into medicine, dentistry, and pharmacy.

The B.S. Degree with a Major in Biochemistry

Preparation:

BIO 1AB	Biological Dynamics	(4,4)
CHE 1AB	General Chemistry	(4,4)
CHE 6AB	Organic Chemistry	(4,4)
MTH 3AB	Mathematical Analysis I	(4,4)
PHY 1A	Elementary Physics	(3)
PHY 1B	Intermediate Physics	(4)

Requirements:

BIO 130	Genetics	(3)
BIO 151A	Cellular Physiology	(4)
CHE 107	Biochemistry	(4)
CHE 110AB	Physical Chemistry	(4,3)
CHE 111	Physical Chemistry Laboratory	(2)
CHE 199	Research	(3)

One additional upper division in chemistry and one additional course in biology, selected from BIO 118, 120, 151B.

Total units in chemistry, biology, mathematics, and physics: 70

Plus general studies requirements and electives totaling 129 semester units.
Courses are described in the respective department listings.

Biological Sciences

Students in the Department of Biological Sciences may elect one or more of the following options: Biological Sciences, Premedical or Predental Programs, Medical Technology, and Physical Therapy. The programs in Physical Therapy and Pre-medical or Predental emphasis are listed alphabetically in the catalog. See also the two-year Associate in Arts programs in Physical Therapist Assistant under the Index listing.

The programs listed above will prepare the student to enter medical school, graduate degree programs, clinical and research laboratories, allied health professions, or teaching.

Students may earn a B.A. degree or a B.S. degree. For the B.A. degree it is necessary to complete the foreign language requirement.

The B.A. Degree with a Major in Biological Sciences

Preparation:

BIO 1A	Biological Dynamics	(4)
BIO 1B	Biological Dynamics	(4)

Plus courses in chemistry, mathematics, and physics.

Requirements:

Seven to nine upper division courses including:

BIO 130	Genetics	(3)
BIO 150	Biology of Aging	(3)
BIO 151A	Cellular Physiology	(4)
BIO 180	Endocrinology	(4)
BIO 195	Senior Seminar in New Biology	(3)

Total units in biological sciences: 33-36

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirement.

The B.S. Degree with a Major in Biological Sciences

Preparation:

BIO 1A	Biological Dynamics	(4)
BIO 1B	Biological Dynamics	(4)

Plus courses in chemistry, mathematics, and physics.

Requirements:

Nine to ten upper division courses including:

BIO 130	Genetics	(3)
---------	----------	-----

BIO 150	Biology of Aging	(3)
BIO 151A	Cellular Physiology	(4)
BIO 195	Senior Seminar in New Biology	(3)
BIO 197	Research Readings	(1)
BIO 198	Biological Research	(1-3)

Recommendations:

BIO 151B	Medical Physiology	(4)
MTH 9	Introduction to Computer Processes	(3)
MTH 38	Elements of Probability and Statistics	(4)
CHE 120	Instrumental Methods of Analysis	(3)

Total units in Biological Sciences: 30-37

Plus general studies requirements and electives totaling 129 semester units.

*Premedical/Predental Program and the program in Physical Therapy can be found listed alphabetically in the catalog.***Medical Technology Program —
The B.S. Degree with a Major in Biological Sciences****Preparation:**

BIO 1A	Biological Dynamics	(4)
BIO 1B	Biological Dynamics	(4)
BIO 3	General Microbiology	(4)

Plus courses in chemistry, mathematics and physics.

Requirements:

Nine to ten upper division courses including:

BIO 104	Medical Bacteriology	(4)
BIO 105	Immunology	(4)
BIO 106	Medical Mycology	(3)
BIO 107	Parasitology	(3)
BIO 108	Hematology	(4)
BIO 130	Genetics	(3)
BIO 151A	Cellular Physiology	(4)
BIO 195	Senior Seminar in New Biology	(3)
BIO 197	Research Readings	(1)
BIO 198	Research	(1-3)

Recommendations:

MTH 9	Introduction to Computer Processes	(3)
MTH 38	Elements of Probability and Statistics	(3)
BUS 85	Business Management	(3)
CHE 120	Instrumental Methods of Analysis	(3)

Total units in Biological Sciences: 33-45

Plus general studies requirements and electives totaling 129 semester units.

The Minor in Biological Sciences

A minimum of 21 units in the biological sciences including:

BIO 1A	Biological Dynamics	(4)
BIO 1B	Biological Dynamics	(4)
BIO 130	Genetics	(3)

Plus at least four upper division courses in the Biological Sciences are required.

BIO 1A Biological Dynamics (4)

An introduction to the science of biology and the variety of organisms in the biosphere. Topics presented include theories relative to the origin of life, cellular structure and function, evolution as a unifying principle in biology, and processes of inheritance. Laboratory experiences give students an opportunity to understand scientific methods of investigation. Lecture 3 hrs., laboratory 3 hrs. **GS-II, III D**.

BIO 1B Biological Dynamics (4)

An introduction to the study of biology at the organismic, population, and environmental levels. Included are topics dealing with the structures and coordination of functions of complex multicellular organisms, biological factors that support community life systems, ecological interrelationships of plants and animals, and man's impact upon the environment. Lecture 3 hrs., laboratory 3 hrs. *Prerequisite: BIO 1A.* **GS II, III D**

BIO 3 General Microbiology (4)

Basic principles of microbial growth and metabolism, morphology, taxonomy, pathogenicity, immunity, and control. Microorganisms as agents of disease and normal inhabitants of man's environment. Techniques of isolation, cultivation and identification of these organisms. Lecture 3 hrs., laboratory 3 hrs.

BIO 4 Fundamentals of Biology (3)

An introductory course in biology. Presents the main principles of organization, function, heredity, and evolution of plants and animals, and introduces the student to methods of study in the life sciences. Lecture 2 hrs., laboratory 2 hrs. **GS-III D**

BIO 10 Health Science (3)

An introductory course designed to provide the student with a basic understanding of

the functioning of the human body as it relates to common health problems. Included are such topics as nutrition, infectious disease, and the effects of alcohol, drugs, and tobacco. Lecture 3 hrs. (Meets Health Education requirement for California clear teaching credentials.) **GS-III D**

BIO 12 Fundamentals of Nutrition (3)

A study of the principles of nutrition and their application with emphasis on nutritional requirements of the body throughout the life cycle; cultural, economic, psychological and social influences on food habits; the food environment; diet counseling; introduction to nutritional therapy in various diseases. *Prerequisite: knowledge of basic chemistry and human physiology.*

‡BIO 31 Human Sexuality (3)

An introduction to the physiology of human sexuality. Current understanding of sexual behavior will be examined mainly from the physiological and neuroendocrine aspects of function and behavior. **GS-III D**

BIO 41AB Human Anatomy and Physiology (4,4)

Study of the structure and function of the human body. Lecture 3 hrs., laboratory 3 hrs. Course specifically designed for students enrolled in the two-year health programs. **GS-II, IIID**

BIO 51AB Human Physiology and Anatomy (4,4)

The study of the structure and function of the human body. The aim of the course is to provide students with an understanding of the interdependence and interrelationships at each level of organization beginning with the molecular level and progressing to the organism as a whole. Lecture 3 hrs., laboratory 3 hrs. **GS-II, IIID**

†BIO 65 Medicinal Plants (3)
An introduction to the effects of plants on human health. Materials will be drawn from botany and medicine and will analyze and explore the harmful and beneficial properties of plants and their uses by the layperson and in orthodox medicine. Lecture 3hrs., laboratory 3hrs. **GS-IIID**

‡BIO 67 Field Biology (3)
An introduction to the concepts of field biology. Basic principles of plant and animal taxonomy and ecology. Identification of local species. Lecture 2 hrs., laboratory and field trips 3-5 hrs.

***BIO 87 Fundamental Concepts (1-3)**

An acyclic series of basic concepts in the field of biological sciences which present an introductory understanding of living systems. **GS-III D**

‡BIO 104 Medical Bacteriology (4)
Morphology, taxonomy, metabolism, and immunology of bacteria pathogenic to man. Techniques of isolation, cultivation, and identification of these organisms. Lecture 2 hrs., laboratory 4 hrs. **Prerequisite: BIO 3.**

‡BIO 105 Immunology (4)
Basic principles and theories of the body's immune mechanisms. Native immunity, antibody-antigen reactions, tissue transplants, autoimmune diseases, hypersensitivity. Lecture 3 hrs., laboratory 3 hrs. **Prerequisite: BIO 3.**

‡BIO 106 Medical Mycology (3)
Introduction to the morphology, physiology, and taxonomy of the fungi which cause disease in man. Techniques of isolation, cultivation, and identification of these organisms. Lecture 2 hrs., laboratory 3 hrs. **Prerequisite: BIO 3.**

‡BIO 107 Parasitology (3)
Study of the morphology, habits, and life cycles of animal parasites and their relation to disease in man. Lecture 2 hrs., laboratory 3 hrs. **Prerequisite: BIO 1AB or 3.**

‡BIO 108 Hematology (4)
Normal blood formation and abnormal blood conditions. Laboratory observation of blood cells, techniques of enumeration and identification of normal and abnormal elements in the blood. Lecture 2 hrs., laboratory 4 hrs. **Prerequisite: BIO 1AB.**

BIO 112 Human Nutrition (3)
A study of the principles of nutrition and their application with emphasis on nutritional requirements of the body throughout the life cycle; cultural, economic, psychological, and social influences on food habits; food selection, meal planning, controls for safety and nutritive value of food supply; nutrition education and services in the community; use of case studies in therapeutic nutrition. **Prerequisite: knowledge of basic chemistry and human physiology.**

‡BIO 120 Embryology (4)
Study of the control mechanisms of development: physiological processes involved in growth and repair, induction, and differentiation. Examination of various developing systems will include sea urchins, plants, chicks, and humans. Lecture 3hrs., laboratory 3hrs. **Prerequisite: BIO 1AB, BIO 51AB.**

‡BIO 130 Genetics (3)
A study of heredity. Classical viewpoints are examined and explained by modern molecular analyses. Molecular aspects of reproduction and their significance to evolution are considered. Lecture 3 hrs. **Prerequisite: BIO 1AB or BIO 51AB.**

BIO 149 Molecular Physiology (4)
An examination of cell structure and function focusing on cellular organelles. Energistics and metabolism with the molecular basis of nerve and muscle function, the immune response, and genetic regulation are included. Lecture 3hrs., laboratory 3hrs. **Prerequisite: BIO 1AB, CHE 1AB**

BIO 150 Biology of Aging (3)
An examination of the various physiological aspects associated with the effects of aging on the human body. Emphasis will be placed on the major causes of death in the United States and preventive medicine theories related to these diseases. **Prerequisite: BIO 1AB or 51AB.**

‡BIO 151A Cellular Physiology (4)
A study of the biomolecular principles of cellular systems: unicellular and multicellular organization and specialization, membrane transport, energetics, protein synthesis, neurobiology, and immunobiology. Lecture 3hrs., laboratory 3hrs. **Prerequisites: BIO 1AB, CHE 6AB.**

BIO 151B Medical Physiology (4)
A detailed study of the functional processes of the human body at the molecular and organ system levels: dynamics of fluid balance, control mechanisms, transport systems, metabolic activity, aging, and neuroendocrine and neuromuscular integration will be included. References to pathophysiology will be made. Lecture 3 hrs., laboratory 3 hrs. *Prerequisite: BIO 1AB, CHE 1AB.*

BIO 158 Gross Anatomy (4)
Integrative approach to the study of gross structure of the human body with emphasis on skeletal, neuromuscular, circulatory, and respiratory systems. Dissection of cadaver reinforced by the use of multiple teaching/learning media. Lecture and laboratory. *Prerequisite: Physical Therapy Junior Status.*

**BIO 160 Neuroanatomy/
Neurophysiology (3)**
Development, gross and microscopic structure and function of the central nervous system. Basic principles of neurophysiology which control posture and movement including spinal cord reflexes, ascending and descending tracts of the spinal cord, and suprasegmental influences. Lecture and Laboratory. *Prerequisite: Physical Therapy Junior Status.*

†*BIO 180 Endocrinology (4)
A study of the molecular and physiological effects of hormones of living systems: mechanisms of neuroendocrine control, bi-directional feedback, biological clocks, membrane receptors, and mechanisms of hormone action will be included. Emphasis will be placed on the human endocrine system. Lecture 3 hrs., laboratories will be individually directed. *Prerequisite: BIO 1AB, BIO 151A, CHE 6AB.*

BIO 187 Selected Topics in Biology (1-3)

An acyclic series of topics of current interest in the biological sciences which presents recent developments in the field.

BIO 190 Workshop (1-3)
May be repeated for credit.

BIO 192AB Special Studies (3,3)

BIO 194 Internship (1-3)

**BIO 195 Senior Seminar in New
Biology (3)**
Seminar in the principles and applications of modern genetics and cellular and molecular physiology with an emphasis on contemporary problems in research in such areas as immunology, oncology, and aging. *Prerequisite: Senior standing.*

**BIO 196TA Tutoring in Biological
Sciences (1-3)**

Assisting in course presentation under the direction of the faculty. *Prerequisite: Senior standing with a major in biological sciences.*

BIO 197 Research Readings (1)
Directed reading in special interest area for the departmental research requirement.

BIO 198 Biological Research (1-3)
Directed research project. Should be taken under the guidance of a biology faculty member presently engaged in laboratory investigations. The completed project will be presented to senior majors and science faculty. The research project is usually initiated during the junior year and completed before graduation.

BIO 199 Independent Study (1-3)
The initiation or continuation of a project under departmental faculty direction. Work should culminate in a research paper or report.

Business

The Business Department offers two degree programs. The associate degree in business is available on the Doheny campus and is a strong foundation for transferring to a baccalaureate program.

The baccalaureate degree, on the Chalon campus, offers specializations in business administration, fashion merchandising, international business, management, managerial accounting, marketing, and real estate.

The A.A. Program

This curriculum is designed to prepare the student for upper division business classes. It allows the student to learn skills and business fundamentals necessary for advancement. Instruction is centered around helping students develop their understanding of the applications of business basics.

The courses in **Business Administration** give the background for advancement while those classes in liberal arts provide the "plus" of wider horizons and broader interests—all of this in an atmosphere of support and encouragement conducive to personal growth and development.

The A.A. program offers two options for those students wishing additional skills in particular areas. The **Travel and Tourism** option prepares students for entry level positions in the travel industry. Students may wish to pursue an International Business or other business baccalaureate degree with this preparation. The **Office Procedures** option prepares students for work as a member of an office staff. Students may wish to pursue a business baccalaureate with this preparation. This flexibility allows the student to move into the business world or to transfer to a baccalaureate degree program.

To be accepted into the A.A. Business program, students must have a cumulative high school gpa of at least 2.5 in all college preparatory courses. SAT or ACT scores are required and will be considered during the application process. Students who have at least 12 units of previous college course work must have a minimum gpa of 2.25 in order to be considered for admission into the program on the basis of this college course work only. All applications are reviewed individually; an interview may be required. Students who receive a D or F in any required business or economics course are responsible for repeating the course.

The A.A. Degree in Business:

Business Administration

Requirements:

First Year		
ENG 10AB	Written/Oral Communications	(3,3)
SPR 80	Group Experience	(1)
PHI 5	Introduction to Logic	(3)
PSY 1	General Psychology	(3)
ECO 2	Macroeconomics	(3)
BUS 4	Introduction to American Business	(3)
BUS 9	Introduction to Computer Processes	(3)
BUS 23	Mathematics for Business	(3)
Second Year		
ECO 1	Microeconomics	(3)
BUS 5	Business Law I	(3)
BUS 15	Financial Accounting	(4)
BUS 16	Managerial Accounting	(4)
BUS 21	Business Communication	(3)
BUS 92	Business Ethics	(3)

Total units: 60

Plus all requirements for the A.A. Degree.

The A.A. Degree in Business:

Office Procedures

Requirements:

First Year		
ENG 10AB	Written/Oral Communications	(3,3)
SPR 80	Group Experience	(1)
PHI 5	Introduction to Logic	(3)
PSY 1	General Psychology	(3)
ECO 2	Macroeconomics	(3)
BUS 4	Introduction to American Business	(3)
BUS 9	Introduction to Computers	(3)
BUS 23	Mathematics for Business	(3)
Second Year		
*ECO 2	Microeconomics	(3)
BUS 5	Business Law I	(3)
BUS 15	Financial Accounting	(4)
BUS 16	Managerial Accounting	(4)
BUS 20	Office Administration	(3)
BUS 21	Business Communications	(3)
BUS 22AB	Advanced Typing	(2,2)
BUS 90	Internship	(3)
BUS 92	Business Ethics	(3)

Total units: 60

Plus all requirements for the A.A. Degree.

*May be substituted with departmental permission.

The A.A. Degree in Business: *Travel and Tourism*

Requirements:

First Year		
ENG 10AB	Written/Oral Communications	(3,3)
SPR 80	Group Experience	(1)
PHI 5	Introduction to Logic	(3)
PSY 1	General Psychology	(3)
HIS 25	Cultural History and Geography	(3)
ECO 2	Macroeconomics	(3)
BUS 4	Introduction to American Business	(3)
BUS 9	Introduction to Computers	(3)
BUS 23	Mathematics for Business	(3)
Second Year		
**ECO 1	Microeconomics	(3)
**BUS 5	Business Law I	(3)
BUS 15	Financial Accounting	(4)
**BUS 16	Managerial Accounting	(4)
**BUS 21	Business Communications	(3)
BUS 50	Travel and Tourism	(3)
BUS 90	Internship	(3)
BUS 92	Business Ethics	(3)
BUS 160	Marketing or	
BUS 161	Retailing	(3)

Total units: 60

Plus all requirements for the A.A. Degree.

*May be substituted with departmental permission.

**Within the travel and tourism emphasis a student selects one of the three emphases:

1. **Business option:** as described;
2. **Foreign language option:** nine units of foreign language are substituted for Managerial Finance, Business Law, and Business Communications;
3. **History option:** nine units of history are substituted for Managerial Finance, Business Law, and Business Communications.

The Baccalaureate Program

The baccalaureate programs in business prepare students for professional careers by stimulating rigorous, imaginative, analytic, and probing attitudes. An emphasis on breadth, skills, problem solving and basic knowledge pervades all levels of education in the business major. The scope of the business program, coupled with a wide range of nonbusiness subjects at all educational levels, reflects the College's belief that education is to equip students for satisfying achievements in life as well as in business.

The emphasis in **Business Administration** offers a curriculum centered around the practical, applied courses that qualify students to enter administrative positions immediately after graduation. Courses cover the broad spectrum of business activity and allow the students to choose from a variety of possible career opportunities in both the public and private sector.

The emphasis in **Health Service Administration** is a Bachelor's Degree business program designed to prepare students for administrative positions in medical, hospital, and health-care facilities.

The emphasis in **International Business** prepares the student for the many opportunities available in the fields of international business, international finance and government service. The International Business emphasis is designed for individuals with an interest in business on a global scale. The business segment of the emphasis concentrates on the social, political, and economic aspects of the international marketplace. The language segment prepares students for the practical needs of language and contemporary culture necessary for the effective business relations in the world marketplace. A minor in International Business is also offered.

The emphasis in **Managerial Accounting** qualifies students to enter the most rapidly expanding areas in business activities. Students are prepared in the practical areas of cost accounting and internal auditing as well as the application of computer techniques to corporate accounting systems. Graduates will be qualified for employment in corporate accounting departments, computer firms and as internal auditors. Accountants are an integral part of the management team of an organization.

The emphasis in **Marketing** prepares a student for careers in marketing, advertising and sales. Areas of study include product design, promotion, distribution policies, salesmanship and pricing decisions.

Business Internship (BUS 190) is restricted to juniors and seniors whose academic performance qualifies them for the internship experience. The department will attempt to place such students as interns in administrative positions where they can increase their competency and acquire practical business experience.

Students must achieve a C or better in all preparation and requirement courses required for the business major. Students are responsible for repeating any courses in which they receive a D or F.

The B.A. Degree with a Major in Business

Business Administration Emphasis

Preparation:

BUS 5	Business Law I	(3)
BUS 15	Accounting I	(4)
BUS 16	Accounting II	(4)
BUS 92/	Introduction to Business	
PHI 92	Ethics	(3)
ECO 1	Microeconomics	(3)
ECO 2	Macroeconomics	(3)
MTH 9	Introduction to Computer Processes	(3)
MTH 28	Mathematical Analysis for Business	(3)
MTH 38	Elements of Probability and Statistics	(3)
PSY 1	General Psychology	(3)
SPE 10	Public Speaking	(3)
SPR 18	Career Planning	(1)

Requirements

Nine upper division business courses:

BUS 130	Business Finance	(3)
BUS 157	Personnel	(3)
BUS 160	Marketing	(3)
BUS 161	Advertising	(3)
or		
BUS 170	Real Estate	
BUS 173	Real Estate Investment	(3)
BUS 184	Organizational Behavior	(3)
BUS 185	Business Management	(3)
BUS 192	Business Policy	(3)
BUS 190	Internship	(3)

Recommendations:

RST 17	Education for Justice	(3)
SOC 5	Sociological Perspectives	(3)

MTH 3A is highly recommended for any business major who intends to enter a master of business administration program.

Total units in Business: 47

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirements.

The B.A. Degree with a Major in Business

Health Services Administration Emphasis

Preparation:

BUS 5	Business Law I	(3)
BUS 15	Accounting I	(4)
BUS 16	Accounting II	(4)
PHI 92/	Introduction to Business	
BUS 92	Ethics	(3)
ECO 1	Microeconomics	(3)
ECO 2	Macroeconomics	(3)
MTH 9/	Introduction to	
BUS 9	Computer Processes	(3)
MTH 28	Mathematical Analysis for Business	(3)
MTH 38	Elements of Probability and Statistics	(3)
PSY 1	General Psychology	(3)
SPE 10	Public Speaking	(3)
SPR 18	Career Planning	(3)

Requirements:

36 upper division units, including:

BUS 107	Health Care Law	(3)
BUS 111	Management of Health Services	(3)
BUS 112	Health Services Internships	(3)
BUS 130	Business Finance	(3)
BUS 154	Cost Accounting	(3)
BUS 157	Personnel	(3)
BUS 160	Marketing	(3)
BUS 161	Advertising	(3)
or		
BUS 175	Principles of Sales	(3)
BUS 170	Real Estate	(3)
BUS 184	Organizational Behavior	(3)
BUS 185	Business Management	(3)
BUS 192	Business Policy	(3)

Total units in Business: 48

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirements.

The B.A. Degree with a Major in Business

International Business Emphasis

Preparation:

BUS 5	Business Law I	(3)
BUS 15	Accounting I	(4)
BUS 16	Accounting II	(4)
BUS 92/	Introduction to Business	
PHI 92	Ethics	(3)
ECO 1	Microeconomics	(3)
ECO 2	Macroeconomics	(3)
MTH 9/	Introduction to Computer Processes	
BUS 9	Mathematical Analysis for Business	(3)
MTH 28	Elements of Probability and Statistics	(3)
MTH 38	General Psychology	(3)
SPE 10	Public Speaking	(3)
SPR 18	Career Planning	(1)
POL 31/131	International Relations	(3)

Requirements:

39 upper division units including:

BUS 130	Business Finance	(3)
BUS 157	Personnel	(3)
BUS 160	Marketing	(3)
BUS 185	Business Management	(3)
BUS 189	International Management and National Policies	(3)
BUS 191	International Internship	(3)
BUS 192	Business Policy	(3)
BUS 195	International Marketing	(3)
ECO 195	International Economics	(3)

The remaining course to be chosen from upper division Business or Political Science courses, especially:

BUS 161	Advertising	(3)
BUS 170	Real Estate	(3)
BUS 175	Principles of Salesmanship	(3)
SOC 125	Comparative Social Structures	(3)
POL 125	Foreign Relations of the United States	(3)
POL 134	International Organizations	(3)
POL 135	Selected Problems in International Organization	(3)

POL 155 Comparative Politics of
Selected Areas (3)

Total units in Business: 50-53

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirements.

The B.A. Degree with a Major in Business

International Business/Foreign Language Emphasis

Preparation:

BUS 5	Business Law I	(3)
BUS 15	Accounting I	(4)
BUS 16	Accounting II	(4)
BUS 92/	Introduction to Business	
PHI 92	Ethics	(3)
ECO 1	Microeconomics	(3)
ECO 2	Macroeconomics	(3)
MTH 9/	Introduction to Computer	
BUS 9	Processes	(3)
MTH 38	Elements of Probability and Statistics	(3)
PSY 1	General Psychology	(3)
SPE 10	Public Speaking	(3)
SPR 18	Career Planning	(1)
POL 31/131	International Relations	(3)

Requirements:

27 upper division units including:

BUS 130	Business Finance	(3)
BUS 160	Marketing	(3)
BUS 185	Business Management	(3)
BUS 189	International Management and National Policies	(3)
BUS 191	International Internship	(3)
BUS 195	International Marketing	(3)
ECO 195	International Economics	(3)

Recommendations:

POL 125	Foreign Relations of the U.S.	(3)
POL 131	International Relations	(3)
RST 17	Education for Justice	(3)
SOC 5	Sociological Perspectives	(3)
SOC 125	Comparative Social Structures	(3)
POL 134	International Organizations	(3)
POL 135	Selected Problems in International Organization	(3)

Foreign Language Requirements:

21 units in Spanish or French

See also International Business Minor in Foreign Languages.

Total units in Business/Economics: 44

Plus general studies requirements and electives totaling 129 semester units.

The Minor in International Business

BUS 15	Accounting I	(3)
ECO 2	Macroeconomics	(3)
BUS 185	Business Management	(3)
BUS 160	Marketing	(3)
BUS 161	Advertising	(3)
BUS 189	International Management and National Policies	(3)
BUS 194	International Economics	(3)

The B.A. Degree with a Major in Business

Managerial Accounting Emphasis

Preparation:

BUS 5	Business Law I	(3)
BUS 15	Accounting I	(4)
BUS 16	Accounting II	(4)
BUS 92/	Introduction to Business	
PHI 92	Ethics	(3)
ECO 1	Microeconomics	(3)
ECO 2	Macroeconomics	(3)
MTH 9/	Introduction to Computer Processes

PSY 1	General Psychology	(3)
SPE 10	Public Speaking	(3)
SPR 18	Career Planning	(1)

Requirements:

39 upper division business units including:

BUS 160	Marketing	(3)
BUS 161	Advertising	(3)
BUS 162	Retailing	(3)
BUS 163	Marketing Research	(3)
BUS 170	Real Estate	(3)
or		
BUS 173	Real Estate Investment	(3)
BUS 175	Principles of Salesmanship	(3)
BUS 185	Business Management	(3)

BUS 190	Business Internship	(3)
BUS 192	Business Policy	(3)

Recommendations:

RST 17	Education for Justice	(3)
SOC 5	Sociological Perspectives	(3)

MTH 3A is highly recommended for any business major who intends to enter a master of business administration program.

Total units in Business: 50

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirements.

B.A. Degree with a Major in English and Business Administration. (See English Department.)

The Minor in Business

A minimum of 21 units selected from business offerings. Students interested in a business minor should arrange their total programs with the department chairperson. Because of the variety of careers to which a business program may lead, the choice of courses is flexible.

Minor in Business recommended for English majors. (See English Department.)

Minor in Computer Science for Business majors. (See Mathematics Department.)

BUS 4 Introduction to Business (3)
A general survey of the principles of accounting, marketing, finance, management, and government policies as they apply to modern American business.

BUS 5 Business Law I (3)
An introduction to the development of legal principles for business activity, as found in common law, statutory laws, and the Uniform Commercial Code. Use of case studies for practical applications.

BUS 9 Introduction to Computer Processes (3)
This course includes a description of the computer, its logical structure and functioning, input-output, storage, and peripheral equipment. It also covers an introduction to programming using the BASIC language and the data processing cycle with emphasis on business applications. This course is not an acceptable preparation for MTH 20. *Prerequisite: PHI 5, BUS 23 or sufficient math proficiency scores, or consent of instructor.*

BUS 12X Typing (3)
This course covers fundamental skills in the operation of the typewriter. It also includes the minimum essentials of letterwriting,

simple tabulations, centering, and manuscript typing. Minimum speed at the end of the course is 35 words per minute with acceptable accuracy. This course is open to all students and credit may not be applied to the baccalaureate degree.

BUS 14X Business/Intermediate Shorthand (3)

Five hours lecture per week. An introduction to or review of the Gregg system of shorthand, including reading and writing practice, learning and reviewing shorthand brief forms and phrases, dictation on practised and new material, introduction to transcription at the typewriter. Credit for BUS 14 may not be applied toward the baccalaureate degree. *Prerequisite: completion of or concurrent enrollment in a typing class.*

BUS 15 Financial Accounting (4)

Detailed analysis of business transactions, accounting for corporate activity, asset and liability valuation, stock and bond transactions, reporting net income, assets, liabilities, earnings per share, and stockholders' equity, statement of changes in financial position and brief introduction to income tax. *Prerequisite: BUS 23, BUS 28 or sufficient math proficiency scores, PHI 5, or consent of instructor.*

BUS 16 Accounting II: Managerial (4)

The fundamentals of managerial decision making based on incremental cost behavior analysis, nature of fixed and variable costs, cost-volume-profit analysis, budgeting and the use of budgets, measuring and interpreting cost variance, product costing, common cost allocation and other managerial decision making topics. *Prerequisite: BUS 15.*

BUS 20 Office Administration (3)

Planning and executing projects related to office administration; use of judgement, initiative, and creativity in solving problems encountered in business offices; learning to assemble data for executive decisions; creative thinking and proper attitudes in interpersonal relations.

BUS 21 Business Communications (3)

Mechanics and techniques of effective business writing; theory of and practice in composing various types of business letters and

reports, with emphasis on the human relations aspect; handling.

BUS 22AB Advanced Typewriting (2,2)

Refining speed and accuracy rates; advanced office production problems; statistical typewriting; manuscripts; special emphasis on business forms. *Prerequisites: 22A — Typing speed of 35 words per minute with acceptable accuracy; 22B — Typing speed of 45 words per minute with acceptable accuracy.* Credit for BUS 22AB may not be applied to the baccalaureate degree.

BUS 23 Mathematics for Business (3)

Fundamentals of mathematics as applied to business: percentage, discount, interest, tax, commission, mark-up, insurance, etc.

(This course is not to be confused with BUS 28/MTH 28, required of all Baccalaureate Program business majors.)

BUS 24AB Shorthand Transcription (3,3)

Continued development of speed and accuracy in taking dictation; development of business vocabulary; preparation of mailable transcripts. Credit for BUS 24AB may not be counted toward the baccalaureate degree.

BUS 27 Legal Secretarial Procedures I (3)

This course is designed for students who plan to pursue legal secretarial careers. It offers specialized training in legal phraseology, spelling, legal office routines and procedures; along with the preparation, dictation, and typing of civil, family, and criminal law papers. *Prerequisite: Typing speed of at least 45 words per minute.*

BUS 28 Mathematical Analysis for the Business Student (3)

Topics in Algebra including solutions of systems of equations and inequalities; exponential and logarithmic functions; linear programming and mathematics of finance. Emphasis is placed on the application of mathematics to problems in business. (See MTH 28.)

BUS 29 Legal Secretarial Procedures II (3)

An advanced legal procedures course offering specific training in the preparation and filing of probate proceedings, closing the estate, landlord and tenant agreements, and corporations. *Prerequisite: Typing speed of at least 45 words per minute; BUS 27 recommended.*

BUS 50 Travel and Tourism (3)

This course examines the business and economics of tourism. The role of travel agency and agent and the relationship with hotel, airlines, and other industries are discussed.

BUS 90 Business Internship (1-6)

Work experience in a business firm or legal office. Students increase their knowledge and understanding of business and professional fields by analyzing and evaluating their experiences at seminar sessions with fellow students and the faculty coordinator. A text on interpersonal relations is used at the seminars, and a personal and performance evaluation by the employer is an important facet of the course.

BUS 92 Introduction to Business Ethics (3)

A study of the goals and means of business activities, with special emphasis upon the following: societal values, ethical decision-making in the conduct of business, social responsibility of business, equality of opportunity, and the ethics of advertising, including analysis of case studies in light of ethical theories. *Limited to non-health care majors. See PHI 92.*

BUS 106 Business Law II (3)

Upper level study of business law. Applications to areas of agency, partnerships, corporate law, sales security transactions, and insurance.

BUS 107 Health Care Law (3)

Study of hospital and health care administration, concerned with the legal corporate entity, the physician-patient relationship, the hospital-patient relationship, and the hospital-physician relationship. *Prerequisite: BUS 5.*

BUS 111 Management of Health Services (3)

Study of special problems which a manager encounters in the administration of health services programs. *Prerequisite: BUS 183*

BUS 112 Health Services Internship (3)

BUS 130 Business Finance (3)

A study of the forms and sources of financing business firms; techniques of raising funds, appraising risks, allocating and controlling capital, and evaluating performance. *Prerequisites: BUS 15, ECO 2, MTH 38.*

BUS 133 Government and Business (3)

The spectrum of government influence on and control of business; the regulation of competition and monopoly, the protection of consumers, and the control of environment and quality of life.

BUS 137 Intermediate Managerial Accounting I (3)

Accounting theory and practice relating to problems of asset valuation and classification in accounts and statements. Theory and practice relating to problems of valuation and classification of liabilities and stockholders equity. *Prerequisites: BUS 15, 16.*

BUS 138 Intermediate Managerial Accounting II (3)

Inventory control theory, valuation methods and systems, capital budgeting alternatives, debt management and cash flow. *Prerequisites: BUS 15, 16, 137.*

BUS 153 Computer Programming (3)

Computer system fundamentals, flowcharting, programming in Fortran and BASIC; file organization and maintenance; programming; graphics and techniques; debugging programs. *Prerequisite: MTH 9.*

BUS 154 Cost Accounting (3)

Budgeting responsibility accounting; inventory planning; performance measurement; costing methods; job order and standard costs; direct vs. full costing; cost allocation; cost-volume profit analysis; analytic cost reports. *Prerequisites: BUS 15, 16.*

BUS 155 Systems Design and Analysis (3)

Basis techniques for design of information systems; computer hardware and software needed in computer-based systems; information determination, need evaluation,

presentation, and analysis. See MTH 133.
Prerequisite: BUS 153.

BUS 157 Personnel (3)
 Techniques of job-applicant screening; job-performance evaluation; firings vs. layoffs vs. transfers. Elements of psychology in production and employee relations. Principles relating to administration of an employee benefits system.

BUS 160 Marketing (3)
 Basic marketing institutions, practices and legislation; the subjects of merchandising, wholesaling, distribution channels, pricing, advertising, and marketing research. Practical applications enhanced through case studies and experiences in the field.

BUS 161 Advertising (3)
 This course examines the major problems of modern advertising and promotion. Among these are the social and economic role of advertising; controls over advertising; planning the campaign; the role of research; the media strategy and coordination with other elements of the marketing communication mix. *Prerequisite: BUS 160.*

BUS 162 Retailing (3)
 Principles of retailing applied to the problems of organization and operation of retail establishments. The business aspects of buying, stock planning, inventory control, markup, stock accounting and pricing. Special problems of retail management will be discussed including departmentalization, personnel control, supervisory training, store layout and store location. *Prerequisite: BUS 160.*

BUS 163 Marketing Research (3)
 Fundamentals of marketing and industrial research as an approach to problem solving in business cases are used to develop the student's analytical ability and to demonstrate the application of business research fundamentals. *Prerequisite: BUS 160.*

BUS 170 Real Estate (3)
 Introduction to economics of land ownership and use; fundamentals of ownership; financing; appraisal; management and transfer of residential and other real property. *Prerequisite: ECO 2.*

BUS 171 Real Estate Law and Management (3)

Business and legal aspects. Estates in land, purchase and sales contract, conveyances, mortgage and trust deed transactions, property taxes, landlord and tenant, wills and inheritance. *Prerequisite: BUS 5.*

BUS 172 Real Estate Finance (3)
 Functions and practices of various real estate financing institutions. Embraces mortgage lending, servicing, and mortgage banking relative to all types and uses of real estate. *Prerequisite: BUS 170.*

BUS 173 Real Estate Investment (3)

Emphasizes problems and methodology for making the real estate investment decision. Includes real estate versus other investments; real estate user and investor requirements; decision models; tax factors and syndication.

BUS 175 Principles of Sales (3)
 A study of sales function and its relationship to the over-all marketing program. Topics considered include setting sales objectives, formulation of sales strategy, development of a sales organization, selecting and working with distributors and dealers, measurement of salesmen's performance, evaluation of sales management performance, control of sales operations, and integration of sales and other marketing activities. *Prerequisite: BUS 160.*

BUS 181 Behavioral Science in Management (3)

A study at both the analytical and experiential level of the interpersonal phenomena which affect managerial behavior. Students learn to increase their behavioral flexibility as well as their social sensitivity to the people-oriented problems in the business environment. *Prerequisites: BUS 85, 160.*

BUS 184 Organizational Behavior (3)

Emphasis on the "contingency view" for understanding the "whys" of behavior and the "hows" of increasing effectiveness. (The contingency view contends there is no way of managing all situations.) The student will develop conceptual skills involved in: 1) diagnosing the human problems in management; 2) recognizing the situation and how it relates to the organization as a whole as

well as to the external environment; 3) understanding how the individual's actions and actions of the parts of the organization are interdependent and impact one another; 4) knowing how and when to use models for managing organizational problems. *Prerequisites:* BUS 4, BUS 185, PSY 1.

BUS 185 Business Management (3)
Introduction to principles of organization, decision making and control; analysis of line and staff structures, production and quality standards, responsibility and business-community relationship. Use of case studies and experiences in the field. *Prerequisite:* BUS 4, PSY 1.

BUS 186 Tax Accounting (3)
Statutes, regulations, administrative rulings, and court decisions relating to federal and California income taxes. Audit procedures; partnership and corporate tax returns. *Prerequisites:* BUS 15, 16, 137.

BUS 187 Management of a Data-Based System (3)
Planning and development of an integrated management information system: data base design; data management systems; operating systems, standards, and documentation; data security; performance evaluations; monitoring, hardware, and economics of a data-based system; problems of conversions. *Prerequisite:* MTH 9.

BUS 188 Auditing (3)
Audit functions of the CPA. Nature of audit evidence, audit procedures, audit work papers, audit reports, evaluation of internal controls and internal auditing, statistical sampling in auditing; problems of auditing computer-based accounting records. *Prerequisites:* BUS 15, 16.

BUS 189 International Management and National Policies (3)
Application of modern management theory to the administration of international business. The course will study the impact of multigovernmental policies upon the management of international enterprises. *Prerequisite:* BUS 185.

BUS 190 Business Internship (1-6)
Qualified juniors and seniors majoring in Business may receive supervised, on-the-job training related to their major. The student is responsible for setting up the internship, which must be approved by the department chairperson.

BUS 191 International Internship (1-6)
An intensive work study program with an international corporation at either its American or foreign locations. The program provides diversified management-level practice in the routine administration of foreign businesses.

BUS 192 Business Policy (3)
A study of business practices regarding strategy formulation, profitability, competition, advertising, production, customer relations. Extensive use of case studies. *Senior level standing.*

BUS 193 Selected Problems (1-3)
Course, independent study, seminar, or directed readings in current issues and policies.

BUS 195 International Marketing (3)
Changing international marketing conditions will be studied in conjunction with the special problems concerning international transportation. Topics will include foreign market surveys, trade promotion, political, legal, economic and cultural environments, multi-national competition, and integration of physical distribution into the marketing systems. *Prerequisite:* BUS 160.

BUS 197 Independent Study (1-3)
Course, independent study, or directed readings on a topic of interest to the student. *Prerequisite: Senior standing; consent of faculty sponsor and approval of department chairman.*

Chemistry

Departmental Affiliation: Physical Science and Math

A student majoring in chemistry receives a comprehensive view of the principles of this science and participates in personalized laboratory instruction and individual research.

The chemistry major is excellent preparation for all health science careers, education, scientific writing, and careers in food, petroleum, and textiles.

The minimal major in chemistry, leading to a B.A. degree, is designed for those interested in secondary science teaching, chemical technology, and other broadly-based careers requiring a science background.

The bachelor of science degree in chemistry or biochemistry is recommended for those who wish to pursue graduate or medical studies.

The B.A. Degree with a Major in Chemistry

Preparation:

CHE 1AB	General Chemistry	(4,4)
CHE 6AB	Organic Chemistry	(4,4)
MTH 3AB	Mathematical Analysis I	(4,4)
PHY 1A	Elementary Physics	(4)
PHY 1B	Intermediate Physics	(4)

Requirements:

CHE 107	Biochemistry	(4)
CHE 110AB	Physical Chemistry	(4,3)

Two additional upper division courses in chemistry

Total units in Chemistry: 33

Total units in mathematics and physics: 16

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirement.

The B.S. Degree with a Major in Chemistry

Preparation:

CHE 1AB	General Chemistry	(4,4)
CHE 6AB	Organic Chemistry	(4,4)
MTH 3AB	Mathematical Analysis I	(4,4)
MTH 4AB	Mathematical Analysis II	(3,3)
PHY 1A	Elementary Physics	(4)
PHY 1B	Intermediate Physics	(4)

Requirements:

CHE 110AB	Physical Chemistry	(4,3)
CHE 111	Physical Chemistry Laboratory	(2)
CHE 199	Research	(3)
	Four additional upper division courses in Chemistry	(12)

Total units in Chemistry: 40**Total units in mathematics and physics: 22**

Plus general studies requirements and electives totaling 129 semester units.

The Minor in Chemistry

CHE 1AB	General Chemistry	(4,4)
CHE 6AB	Organic Chemistry	(4,4)
CHE 107	Biochemistry	(4)

One additional upper division course in Chemistry

Total units in Chemistry: 24**CHE 1A General Chemistry (4)**

Lecture, three hours; laboratory, four hours. Lecture: atomic theory, atomic structure and the periodic table; molecular structure and bonding, introductory organic chemistry; structure and properties of solids, liquids, and gases; kinetic theory and colligative properties. Laboratory: use of the analytical balance and volumetric equipment; stoichiometry; molecular and equivalent weights. *Prerequisites: High school chemistry, three years of high school mathematics, and satisfactory score on Chemistry Placement Examination, or grade of C or better in CHE 3 and MTH 1. GS-II, IIID.*

CHE 1B General Chemistry (4)

Lecture, three hours; laboratory, four hours. Lecture: chemical reactions, equilibria, kinetics, oxidation-reduction. Metals, non-metals, metalloids, radioactivity, thermodynamics and electrochemistry. Laboratory: quantitative analysis using gravimetric and titrimetric techniques. *Prerequisite: Grade of C or better in CHE 1A.*

CHE 1H General Chemistry: Honors Section (3)

Lecture, three hours; see description of CHE 1B. Laboratory, four hours: Quantitative analysis using gravimetric and titrimetric techniques, equilibria, thermo-chemistry and kinetics. Emphasis will be on

problem solving and data analysis using the computer. *Prerequisite: CHE 1A and consent of instructor. Open only to students admitted to the Honors Programs.*

CHE 3 Foundations of Chemistry (3)

Lecture, three hours. An introduction to the principles and laws of chemistry including atomic structure and the periodic table, bonding, nomenclature, stoichiometry, gases, solutions, and introductory organic chemistry. *Note: This course is a prerequisite to CHE 1A if the student fails to qualify for CHE 1A on the Chemistry Placement Examination. GS-II, IIID.*

CHE 6A Organic Chemistry (4)

Lecture, three hours, laboratory, four hours. Lecture: reactions of hydrocarbons, alkyl halides, and organometallic compounds. Organic nomenclature, stereochemistry, reaction mechanisms, NMR and IR spectroscopy, organic synthesis. Laboratory: methods of separation, purification, and identification; introduction to synthesis. *Prerequisite: CHE 1B*

CHE 6B Organic Chemistry (4)

Lecture, three hours, laboratory, four hours. Continuation of Chemistry 6A. Lecture: reactions of functional groups and aromatic compounds; synthesis. Introduction to chemistry of proteins, carbohydrates,

lipids, and nucleic acids. Laboratory: Synthesis and reactions of typical organic compounds; introduction to biochemical methods of analysis.

A grade of C or better in prerequisite courses is required for any upper division Chemistry course.

CHE 104 Qualitative Organic Analysis (3)

Lecture, one hour; laboratory, eight hours. Microtechniques, separation of mixtures, derivatives, identification of unknown organic compounds, spectroscopic methods. *Prerequisites: CHE 6AB.*

CHE 107 Biochemistry (4)

Lecture 3 hours; laboratory 4 hours. Enzyme kinetics; bioenergetics; metabolic pathways and control mechanisms; biochemical genetics. *Prerequisite: CHE 6B.*

†CHE 110A Physical Chemistry: Thermodynamics (4)

Lecture and quiz, four hours. Laws of thermodynamics and chemical equilibria and cell emf. Introduction of computer programming to the analysis of chemical problems. *Prerequisites: CHE 1AB, MTH 3AB, PHY 1AB.*

†CHE 110B Physical Chemistry: Dynamics (3)

Lecture, three hours. Kinetic theory and chemical kinetics; transport processes; quantum mechanics. *Prerequisite: CHE 110A.*

†CHE 111 Physical Chemistry Laboratory (2)

Laboratory, six hours. Chemical and phase equilibria, electrochemistry, kinetics and

transport processes, conductance, diffusion. *Prerequisite: CHE 110A.*

CHE 120 Instrumental Methods of Analysis (3)

Lecture, one hour; laboratory, eight hours. Theory and applications of modern instrumental methods including gas chromatography, radiochemistry, various spectroscopic methods and selected electrochemical methods. *Prerequisite: CHE 1AB.*

CHE 190 Inorganic Chemistry (3)

Lecture, three hours. Chemistry of inorganic systems with emphasis on reaction mechanisms, complexes, bonding and periodic relationships. *Prerequisite: CHE 110AB.*

CHE 196 Internship in Chemistry (3)

An intensive work study program for qualified upper division students. The student is responsible for setting up the internship in conjunction with the appropriate faculty and the office of Career Planning and Placement. The internship must be approved by the department chairperson.

CHE 197/297 Seminar (1-3)

CHE 198 Topics in Chemistry (1-3)
Prerequisite: Consent of chemistry staff.

CHE 199/299 Research in Chemistry (1-3)

Research problems to be arranged with individual faculty members. *Prerequisite: Consent of chemistry staff.*

Child Development

Departmental Affiliation: Psychology

The Child Development major provides an interdisciplinary approach for developing a broad base for understanding young children as individuals and as members of society. Students will study courses offered by the departments of Psychology, Sociology, Art, Music, and English. The Child Development Major is recommended primarily for individuals who seek careers with children and their families in child care, educational, hospital, or research settings. Child Development Majors also enjoy careers in the production, editing, and marketing of children's books, toys, and learning materials.

Students who plan this major at the outset of their college careers may elect to take courses in their first two college years through the Education Department at the Doheny Campus to qualify for the Children's Center Instructional Permit. (See the Early Childhood Education Program under the Education Department listing.)

Preparation:

PSY 1	General Psychology	(3)
PSY 12	Human Development	(3)
SOC 5	Sociological Perspectives	(3)

Recommendations:

PSY 34	Language and Concept Development and the Young Child	(3)
PSY 35B	Creativity and the Young Child	(3)
PSY 40	Statistics	(3)

Ten upper division courses chosen from the fields of psychology, sociology, art, music, and English, chosen in conjunction with an advisor according to the following guidelines:

Psychology: (Minimum 12 upper division units; maximum 21 upper division units)

Requirements:

PSY 113	Child Development and the Learning Process	(3)
PSY 132	Personality	(3)
PSY 192	Clinical Practicum (in a child development setting)	(3)

Recommendations:

PSY 109	Movement Psychology: Dance Therapy	(3)
PSY 168	Abnormal Psychology	(3)
PSY 125	Introduction to Counseling	(3)
PSY 106	Experimental Psychology *	(3)
PSY 134	Learning *	(3)
PSY 155	Psychological Testing	(3)

(*strongly recommended for candidates intending graduate study)

Sociology: (Minimum 3 upper division units; maximum 9 upper division units)

Requirement:

SOC 104	The Family	(3)
---------	------------	-----

Recommendations:

SOC 110	Deviant Behavior: Juvenile Delinquency	(3)
SOC 128	Introduction to Social Work	(3)
SOC 161	Dynamics of Majority-Minority Relations	(3)
SOC 175	Urban Sociology	(3)

Art: (A minimum of 3 units chosen from the following:)

ART 145	Creative Art Experience for Young Children	(3)
ART 146	Art as Therapy	(3)

Music: (A minimum of 3 units chosen from the following:)

MUS 31	Music and Movement for the Young Child	(3)
MUS 130	Creative Music Experience	(3)

English: (a minimum of 3 units chosen from the following:)

ENG 34	Pre-School Literature	(3)
ENG 134	Children's Literature	(3)

Majors must maintain a grade of C or higher in all courses applied toward the major.

Total units in the interdisciplinary major areas: 39

Plus general studies requirements and electives totaling 129 semester units including the foreign language requirement.

All courses are described in the respective department listings.

Economics

Departmental Affiliation: Business

ECO 1 Microeconomics (3)

An exploration of the economic affairs of the individual and the individual business firm. This course introduces the law of supply and demand and economic analysis of individual markets such as labor or international trade. **GS-IIIF.**

ECO 2 Macroeconomics (3)

An introductory analysis of the aggregate economic system. This course discusses methods of recording and determining gross national product, national income, and employment and participation rates. **GS-II, IIIG.**

ECO 44 Personal Finance (3)

Emphasis on the principles underlying financial security and investment planning; the study of credit institutions, the stock market, and home buying through special projects and experiences in the field.

ECO 107 Political Economics (3)

A brief survey of the history of economic and governmental relations. In-depth analysis of the current relationship between the economy and government. Fulfils CPE requirement. See POL 107. **GS-IIIG.**

ECO 113 Economic History of the United States (3)

A study of the economic development of the United States, agriculture, industry, labor, commerce, finance, and transportation.

ECO 131 Public Finance (3)

Income and expenditure of federal, state, and local governments; theories of tax incidence; nature and implications of the public

debt; fiscal policy; and inter-governmental fiscal relations.

ECO 135 Money and Banking (3)

The nature and functions of money and credit, the banking system, monetary policy in the domestic and international economics.

ECO 150 Labor Economics (3)

The evolution of trade union organization in the United States and labor legislation affecting it; an economic analysis of wage determination and its effect on employment; union-management relations in the collective bargaining process.

ECO 175 Urban Sociology (3)

See SOC 175.

ECO 193 Selected Problems (1-3)

Courses, workshops, seminars, or directed readings. May be repeated for credit.

ECO 195 International Economics (3)

The general principles of international relations and trade; the problems of developing countries and theories of growth and development; progress toward economic integration and cooperation in Europe, Latin America and Africa. *Prerequisite: ECO 1, 2, GS-IIIG.*

Diversified Major

Multiple Subject Credential: Elementary

The diversified major is designed for the student interested in qualifying for the Multiple Subject Credential and teaching in the elementary school.

See listing under Education.

Education

The Department of Education offers three degree programs with the following specializations:

Associate Degree

Early Childhood Education Program

Baccalaureate Degree

Elementary Teaching: Diversified Major

Secondary Teaching: Single Subject Credential (Art, English, Foreign Languages, Government, History, Life Sciences, Mathematics, Music, Physical Science, and Social Science)

Masters Degree (or Specialist/Services Credential)

Administrative Services

Counseling:

Pupil Personnel Services

Marriage, Family, and Child Counseling

Human Services

Special Education (Learning Handicapped)

Individually Designed Programs

Associate Degree

Early Childhood Education Program

The Associate Degree Program with a specialization in Early Childhood Education is designed for the student who wishes to enter the field of preschool teaching directly upon graduation. At the completion of the two-year program, the student is qualified to teach in child development programs (pre-kindergarten) or to transfer to a four-year program to complete a Bachelor of Arts degree in Child Development, or to complete the requirements for a Bachelor of Arts degree with a Diversified Major and for the Preliminary Multiple Subjects Teaching Credential.

The A.A. Degree in Early Childhood Education

Program Requirements:

Core Courses

EDU 31	Intro. to Early Childhood Education	(3)
EDU 32	Observation and Participation in Preschool Programs	(3)
EDU 34	Language and Concept Development of the Young Child	(3)
EDU 70	Intro. to Children with Special Needs	(3)
PSY 13	Early Child Development	(3)
ART 45	Preschool Literature	(3)
ENG 34	Preschool Literature	(3)
MUS 31	Music and Movement for the Young Child	(3)
EDU 39	Supervised Field Work: Preschool (taken during last semester)	(4)

General Requirements:

PSY 1	General Psychology	(3)
SOC 5	Sociological Perspectives	(3)
SOC 4	The Family	(3)
	Course in Mathematics or Science	(3)

A.A. Program Requirements:

SPR 80	Group Experience	(1)
ENG 10AB	Written and Oral Communication	(3,3)
	Religious Studies course	(3)
	Humanities course	(3)

Recommended Electives:

PHI 5	Intro. to Logic Courses in Spanish	(3)
-------	---------------------------------------	-----

The two-year program at the Doheny Campus fulfills coursework and field work requirements for a Regular Children's Center Instructional Permit. These requirements as established by the Commission on Teacher Credentialing of the State of California are the following:

1. Twenty-four semester units of coursework in early childhood education/child development, exclusive of field work.
2. Sixteen semester units of coursework in general education including at least one course in each of the following areas: Humanities, Social Sciences, Math and Science, and English.

3. A supervised field work course from an accredited institution (EDU 39) plus one year of experience in an instructional capacity in a child development program. (The Program Director on the Doheny Campus makes recommendations for completing this experience with the two-year program.)

This permit is issued for five years and is renewable for successive five-year periods. An Instructional Permit authorizes the holder to perform service in the care, development, and instruction of children in a child development program. As of February 1, 1983, applicants for a Children's Center Permit must pass the California Basic Skills Test for Teachers (CBEST).

Admission Requirements

To be accepted as an Early Childhood Education major, a student entering Mount St. Mary's College must have a GPA of 2.5. SAT or ACT scores are also considered; an interview may be required. Transfer students applying for the Early Childhood Education program after college experience must have a GPA of 2.25 in college-level courses, grades of C or better in all Early Childhood Education courses accepted for transfer, and a grade of C or better in a college-level (non-remedial) English course.

Specific Program Requirements

The student must complete all Early Childhood courses with a grade of C. A grade of C must also be achieved in ENG 10AB (Written and Oral Communication).

Because of a demand in Southern California for preschool teachers who can demonstrate speaking and writing ability in the Spanish language, a bilingual option is possible for students in the program. This option is strongly recommended.

Students in the Early Childhood Education specialization must be able to establish rapport with very young children and their families. They must be able to create an environment where children can discover themselves; to do this, they need broad knowledge of children's physical, social/emotional and cognitive development. Coursework, including observation, participation, and supervised teaching of children, is designed to enable students to demonstrate expertise in these areas within the two-year period.

Baccalaureate Degree

Preparation for certification as an elementary or secondary teacher in California consists of two components: academic preparation and professional preparation. The undergraduate student interested in elementary school teaching ordinarily completes a diversified (liberal studies) major and the Multiple Subjects Teacher Preparation Program. The undergraduate student interested in secondary school teaching ordinarily completes a program of academic preparation in a selected field and the Single Subject Teacher Preparation Program.

It is possible to complete both the academic preparation and the professional preparation in four years. Units taken in the Teacher Preparation Program may count toward the bachelors degree, but are not required for the diversified major or for graduation. Contact with program advisors and directors is especially important for undergraduate students planning to complete preparation for certification within four years.

Elementary School Teaching: The Diversified Major

The Diversified Major is designed for students seeking the Multiple Subject Credential authorizing them to teach in California schools. This credential is ordinarily obtained by persons interested in teaching in an elementary school.

The B.A. Degree with a Diversified Major

Multiple Subject Teaching Credential Academic Preparation Requirements: Eighty-four units in four areas of concentration with an average of 21 units in each area. An area may include as few as 18 units.

Area I — English and Speech

Requirements:

ENG 1AB	Freshman English	(3,3)
ENG 105	Advanced Composition	(3)
ENG 134	Children's Literature	(3)
	One upper division course in Literature	(3)
	One elective course in English	(3)
	One course in Speech	(2,3)
	One course in Linguistics	(3)

Area II — Mathematics and Science

Requirement:

BIO 10	Health Science	(3)
A minimum of 18 units chosen from courses offered in the areas of mathematics, physical science, and biological science. Ordinarily, two courses are selected from each area.		

Area III — Social Sciences

Requirements:

History		
HIS 176	The American Democratic Republic	(3)
or		
HIS 175	U.S., The Twentieth Century	(3)
or		
Elective	other United States History	

Political Science

One course in Political Science (3)
 One elective course from economics, history, or political science

One of the above courses must fulfill the Mount St. Mary's College Contemporary Political Experience (CPE) requirement, which will also fulfill the California credential requirement related to the U.S. Constitution.

*Requirements:***Psychology**

PSY 1	General Psychology	(3)
PSY 113	Child Development and the Learning Process	(3)

Sociology

SOC 5	Sociological Perspectives	(3)
-------	---------------------------	-----

One additional course from the following in Sociology, such as:

SOC 104	The Family	(3)
SOC 161	Dynamics of Majority-Minority Relations	(3)
SOC 175	Urban Sociology	(3)

Area IV — Humanities, Fine Arts, Foreign Languages*Requirements:*

ART 145	Creative Art Experience	(3)
MUS 130	Creative Music Experience	(3)
	Three courses in philosophy	(9)
	One to three courses in foreign language	(3-9)

Art 145 and Music 130 meet general studies requirements for Diversified Majors.

Important: Students who are considering this major should contact the Education Department as early as possible to obtain individual advisement. This is especially necessary for students interested in the Multiple Subject Credential, as credential requirements are subject to change. Upon petition to the program advisor, appropriate equivalent courses may be substituted for specified Diversified Major requirements. For graduation 129 units are required, including foreign language requirement. Students interested in the Multiple Subject Credential should see also the requirements for the Teacher Preparation Program, described in the next section.

Secondary School Teaching

Program of Academic Preparation in a Single Subject

The Single Subject Credential candidate must complete an approved program of academic preparation for which Mount St. Mary's College maintains an approved waiver program. The following programs of academic preparation are offered by Mount St. Mary's College: Art, English, Foreign Languages (French and Spanish), Government, History, Life Science, Mathematics, Music, Physical Science, and Social Science.

Since the Commission of Teacher Credentialing is currently involved in a periodic review of programs for continued approval, students interested in this program must contact the Education Department for up-to-date information.

Course requirements for the approved programs of academic preparation are not necessarily the same as for the major. Students interested in obtaining the single subject credential may obtain course requirements from the major department or from the Education Department.

Candidates who have not completed an approved program of academic preparation (waiver program) may qualify for the credential program by achieving a passing score on the relevant subject area test of the National Teacher's Examination. A prerequisite for acceptance into the Single Subject Credential Program is a course in the learning process (PSY 123 The Adolescent and the Learning Process). Students fulfill the state of California requirements related to The United States Constitution by satisfying the college Contemporary Political Experience (CPE) requirement.

Students interested in the Single Subject Credential should contact the Education Department as early as possible to obtain individual advisement, as credential requirements are subject to change.

Students interested in the Single Subject Credential should see also the requirements for the Teacher Preparation Program below.

Teacher Credential Programs

The Education Department is approved to recommend students for the Multiple Subjects (elementary) and Single Subject (secondary) California Basic Teaching Credentials. Either of these credentials may be obtained in a four-year baccalaureate degree program. When the student has completed the Diversified Major or an approved program of academic preparation in a single subject, the professional education courses, including supervised teaching, and all other requirements of the college for the baccalaureate degree, a preliminary credential may be obtained. The initially issued preliminary credential is valid for five years. Within these five years, a fifth year of thirty semester hours is required for a clear credential. This fifth year of study may be used to complete a masters degree in a subject matter area or to complete a program of study for a services or specialist credential. The recommendation of an approved college or university is required in order to obtain a clear credential.

Admission to Credential Status

Candidates for basic teaching credential programs apply directly to the Education department for admission. Consistent contact with program directors and advisors is important as credential requirements are subject to change.

Individuals who hold bachelors degrees from accredited institutions may study at Mount St. Mary's College to earn either the California Multiple Subjects or Single Subject Credential.

Prerequisites for admission include:

1. Completion of the application form for the Teacher Preparation Program, with statements affirming the moral character of the candidate according to guidelines provided by the Commission on Teacher Credentialing;
2. a pattern of academic competence—a minimum grade point average of 2.5 (on a four-point scale), documented by official transcripts;
3. good health sufficient for teaching;
4. two letters of recommendation indicating suitability for teaching;
5. mastery of the basic skills of reading, grammar, spelling, mathematics, and study skills;
6. interviews with at least two members of the Education department related to professional aptitude, goal-intent, and personal qualifications;
7. prior experience wth children and youth groups through volunteer tutorial programs or community action courses;
8. a passing score on the California Basic Skills Test (CBEST)—current State of California regulations require taking the CBEST prior to application for a teacher preparation program;
9. Graduate students must have a bachelors degree from an accredited college or university **and** the required program of academic preparation or the required score on the appropriate National Teacher's Examination.

Admission to a teacher preparation program does not guarantee that a credential will be granted. The Committee on Admissions reserves the right to dismiss from a teacher preparation program a candidate who does not meet stated requirements.

Multiple Subjects Credential Program

For the Preliminary Multiple Subjects Credential, candidates must have completed the Diversified Major or its equivalent as outlined in the Mount St. Mary's College Catalog under Diversified Major. Candidates who have a bachelors degree but who have not completed the Diversified Major may qualify by passing the National Teachers' General Knowledge Examination. All credential candidates must meet state of California requirements related to the U.S. Constitution and must have taken a course in the learning process (PSY 113 Child Development and The Learning Process). In addition candidates must complete the prescribed 24 units of professional education courses as listed below.

EDU 112	Diagnosis and Prescription: Elementary	(2)
EDU 105A	Classroom Organization and Management	(3)

EDU 105B	Mathematics: and Science: Elementary Curriculum	(2)
EDU 105C	Reading: Elementary Curriculum	(3)
EDU 105D	Communication and Social Studies: Elementary Curriculum	(2)
EDU 116ABC	Supervised Teaching: Elementary (See "Options to Meet Equivalency for Student Teaching")	(6-12)

Single Subject Credential Program

For the Preliminary Single Subject Credential, candidates must have completed an approved major for which Mount St. Mary's College maintains an approved waiver program. The following programs of academic preparation are offered by Mount St. Mary's College: Art, English, Foreign Languages (French and Spanish), Government, History, Life Science, Mathematics, Music, Physical Science, and Social Science. Since the Commission on Teacher Credentialing is currently involved in a periodic review of programs for continued approval, students interested in this program must contact the Education department for up-to-date information.

Candidates who have not completed an approved program of academic preparation (waiver program) may qualify for the credential program by achieving a passing score on the relevant subject area test of the National Teacher Examination. A prerequisite for acceptance into the Single Subject Credential Program is a course in the learning process (PSY 123 The Adolescent and The Learning Process). Students fulfill the state of California Requirements related to the U.S. Constitution by satisfying the college Contemporary Political Experience (CPE) requirement.

EDU 122	Diagnosis and Prescription: Secondary	(2)
EDU 125A	Secondary Curriculum	(3)
EDU 125B	Emerging Trends in Education	(2)
EDU 125C	Reading: Secondary Curriculum	(3)
EDU 125D	Secondary Methods	(2)
EDU 126ABC	Supervised Teaching: Secondary (See "Options to Meet Equivalency for Student Teaching")	(6-12)

Clear Credential Requirements

For Clear Multiple Subject and Single Subject credentials, candidates must meet California credential requirements in special education, including mainstreaming (at Mount St. Mary's College: EDU 170 or EDU 270) and in health education (at Mount St. Mary's College: BIO 10). Contact the Education department for information about regulations regarding reading. See sections on Multiple Subjects and Single Subject Credentials about the requirement related to the U.S. Constitution.

Clear credential requirements include thirty (30) post-baccalaureate unit in an approved "fifth year" program of study and the recommendation of an approved college or university. Mount St. Mary's College is approved by the Commission on Teacher Credentialing as a recommending college.

According to current legislation, "life" Multiple Subjects and Single Subject Credentials without renewal requirements are not available after September 1, 1985.

Since credential regulations and legislation are subject to change, contact the Education department for up-to-date information.

Credential Program Equivalency

Candidates who have had previous courses/experience which are equivalent to the Mount St. Mary's College credential requirements may petition through the credential program advisor to have such courses/experience accepted in lieu of the prescribed course work. It is the candidate's responsibility to obtain, complete, and submit the required petition forms and supporting documents to the credential program director. The credential program advisor makes a recommendation in consultation with the individual who is responsible for the course for which the candidate is seeking equivalency. The department chairperson reviews this recommendation. No grades or units are indicated on the candidate's transcript as a result of this process. However, completion of the equivalency is indicated in the candidate's advising folder. No more than one half of the credential requirements may be fulfilled in this manner to qualify for the Mount St. Mary's College institutional recommendation for the credential.

Options to Meet Equivalence for Supervised Teaching

Option I

Designed for teachers with two years of full-time appropriate teaching experience.

Required:

- A. Two years of previous full-time successful teaching experience appropriate to the credential-goal.
- B. Evaluations, using Mount St. Mary's College instruments, by the principal/or chairperson attesting to the last two tears of full-time successful teaching.
- C. Supervised Teaching during summer session under direct supervision of college personnel in a college selected placement site.
- D. A weekly seminar during Supervised Teaching is required.

Procedure for petitioning equivalency through Option I:

- A. Submit completed equivalency form for six units of Supervised Teaching (EDU 116B or 126B) with evaluations and verification of two years of full-time successful classroom teaching appropriate to the director of student teaching for departmental approval. No units are awarded for supervised teaching equivalency.
- B. Make an appointment for a conference with the director of student teaching at least one semester prior to the anticipated summer session of student teaching. Upon approval register for EDU 116C or 126C, six units.

Option II

Designed for teachers with four or more years of full-time appropriate teaching experience.

Required:

- A. Four years of previous full-time teaching experience appropriate to the credential-goal;
- B. Evaluations, using Mount St. Mary's College instruments, by the (1) principal and (2) supervisor or chairperson for the last two years of full-time teaching;
- C. Candidate is observed and evaluated by the director of student teaching during a semester in the candidate's classroom. The school principal and/or chairperson will be involved in the evaluation of the candidate's competency;
- D. Monthly seminars are required.

Procedure for petitioning equivalency through Option II:

- A. Submit completed equivalency form for six units of supervised teaching (EDU 116B or 126B) with evaluations and verification of four years of full-time successful classroom teaching appropriate to the credential-goal to the director of student teaching for departmental approval. No units are awarded for supervised teaching equivalency.
- B. Make an appointment for a conference with the director of student teaching at least one semester prior to the anticipated semester of observation. Upon approval register for EDU 116C or 126C, six units.

Graduate Degree and Credential Programs

Degree and credential programs may be pursued concurrently or separately.

Master of Science in Education

Thirty semester hours of graduate course work are required. These include the required core courses plus coursework in one of the following areas of concentration: Administrative Services, Counseling, Special Education (Learning Handicapped), and Individually Designed Programs.

Specialist and Services Credentials

A specialist or services credential program may be pursued concurrently with a masters degree program or separately. Specific courses required for each credential are indicated.

Prerequisites include:

A bachelors degree or its equivalent from an accredited institution.

A 2.50 (on a 4.0 scale) grade point average.

A minimum of 12 upper division units in education.

(Candidates for the M.S. in Ed. with the specialization in counseling may substitute 12 upper division units in psychology or behavioral sciences.)

Results of the Miller Analogies Test (effective January, 1983).

A passing score on the California Basic Educational Skills Test (CBEST) for applicants for the M.S. in Education who are also applying for a credential program.

Requirements for the Masters Degree:

Nine semester units including

EDU/PSY 200	Research Methods	(3)
EDU/PSY 202	Psychological Foundations of Education	(3)
OR		
EDU 203	Sociological Foundations of Counseling/Education	(3)
OR		
EDU 214	Philosophical and Historical Foundations of Education in the U.S. Integrating Modern and Emerging Trends	(3)
EDU 295	Thesis Guidance	(3)
OR		
EDU 296	Master's Seminar	(3)

Thesis

This thesis provides an opportunity for the student to obtain first-hand experience in research methods under competent direction. The thesis should be limited in scope and give evidence of the student's ability to organize knowledge, to analyze critically, and to present the results in a readable and accurate form according to Mount St. Mary's College regulations. A brief description of the topic and of the proposed method of investigation must accompany each topic presented for approval.

The candidate must present his/her complete thesis to his/her director not later than the date established by the director. It must be approved by the director before being finally typed according to the prescribed form. Two copies must be filed in the graduate office on the date determined by the director. Specific directions regarding the format and typing of theses may be obtained from the college bookstore. One copy of the completed and approved thesis is placed in each of the college libraries.

Masters Seminar

When a minimum of 24 units of graduate credit have been completed or when the last semester of coursework has been reached, the candidate may enroll in EDU 296 Masters Seminar. As a result of the seminar the candidate will produce a masters

degree project which relates to the student's area of interest. Specific directions regarding format and other requirements are presented in the seminar meetings. The seminar provides an atmosphere of sharing and mutual support for the study of topics of interest to the candidate. One copy of the completed work is to be approved by the seminar advisor who files it with the graduate office for placement in the Doheny Campus Library.

Administrative Services Degree and/or Preliminary Credential Program

Prerequisites for the Preliminary Administrative Services Credential Program (in addition to other application requirements) include: a valid California teaching credential or a services credential with a specialization in pupil personnel, health, librarian, or clinical rehabilitative services and a minimum of three years of successful, full-time classroom teaching experience, or three years of experience in one of the service areas above.

In addition to the nine units of core courses candidates will select a distribution of 21 units from the following courses:

EDU 205*	Development and Evaluation of Curriculum	(3)
EDU 215*	Organization of School Systems — Legal and Financial Aspects	(3)
EDU 216*	Supervision of Instruction and Programs	(3)
EDU 217*	Administration of Schools and Personnel	(3)
EDU 258*	Sociological Aspects of Administrative Leadership	(3)
EDU 263*	Laws Relating to Schools, Youth and Community	(3)
EDU 270*	Survey of Programs for Children with Special Needs	(3)
EDU 298*	Supervised Field Experience — Administration/Supervision	(3,3)

*These courses and EDU 214 are required for the Preliminary Administrative Services Credential (currently a 27 to 30 unit program). The Preliminary Administrative Services Credential Program is being reviewed and may be revised to meet new regulations (effective June 1985). Contact the Education Department for up-to-date information.

Thirty-three to thirty-six units are required to complete both M.S. degree and services credential.

The Professional Administrative Credential:

Due to legislative and regulatory changes currently in process, no specific information is available for printing as this catalog goes to press. Contact the administrative services program director for up-to-date information on the professional administrative services credential.

Early Childhood Education

No new students have been accepted into this degree or credential program since March 29, 1982. An individually designed masters degree program, with some courses in early childhood education, may be developed for persons interested in this area. (See p. 122)

Counseling

In addition to the nine units of core courses, candidates will select a distribution of 21 units in one of the following program options for the masters degree.

PUPIL PERSONNEL SERVICES

21 units chosen from those courses required for the PPS Credential, namely EDU 203, 263; EDU/PSY 202, 261, 262, 269, 270; PSY 224, 225 or 274, 230, 235; SOC 261.

Services Credential: Pupil Personnel (36-Unit Program)*

Requirements:

EDU/PSY 202	Psychological Foundations of Growth, Development, and Learning	(3)
EDU 203	Sociological Foundations of Counseling	(3)
EDU/PSY 261	Career and Educational Counseling	(3)
EDU/PSY 262	The Organization of Counseling and Mental Health Services	(3)
EDU 263	Laws Relating to Schools, Community, and Youth	(3)
EDU/PSY 269	Field Experience: Counseling	(1-3)
EDU/PSY 270	Survey of Programs for Children with Special Needs	(3)
PSY 224	Dynamics of Individual Behavior	(3)
PSY 225 OR	Counseling: Theory and Procedures	(3)
PSY 274	Counseling and Guidance of Special Children	(3)
PSY 230	Measurements: Theory and Procedures	(3)
PSY 235	Group Dynamics	(3)
SOC 261	Dynamics of Majority/Minority Relations	(3)

*42 units are required to complete both M.S. degree and services credential.

MARRIAGE, FAMILY, AND CHILD COUNSELING

21 units chosen from PSY 224, 225, or 274, 230, 235, 237; EDU 263; EDU/PSY 202, 269; SOC 261. NOTE: Candidates preparing for the California MFCC exam must

complete a minimum of 48 units. Before qualifying for the exam candidates must also document 3,000 hours of supervised counseling experience.

HUMAN SERVICES-PERSONNEL COUNSELING

21 units of graduate level courses, which must include PSY 224, 225 or 274, 230, and 235, plus nine units of electives from Psychology, Sociology, and/or Education.

Special Education (Learning Handicapped)

In addition to the nine units of core course candidates will select a distribution of 21 units from the following courses or other appropriate electives for the masters degree.

EDU 270/PSY 270*	Survey of Programs for Children with Special Needs	(3)
EDU 271/PSY 271*	Appraisal of Special Children	(3)
EDU 272/PSY 272*	Disturbances in Child Development	(3)
EDU 273/PSY 273*	Development of Programs for Children with Specific Learning Disabilities	(3)
EDU 274/PSY 274*	Counseling and Guidance of Special Children	(3)
EDU 275*	Teaching of Language Arts for the Learning Handicapped	(3)
EDU 276*	Teaching of Mathematics, Science and Social Science for the Learning Handicapped	(3)
EDU 277*	Language and Speech Disorders	(3)
EDU 278*	Supervised Teaching: Learning Handicapped	(3)

*These courses are required for the Specialist Credential (27 units). In addition to other application requirements, a prerequisite for this credential program is a valid California teaching credential.

36 units are required to complete both M.S. degree and specialist credential program.

See information on credential course equivalency.

Individually Designed Program (IDP)

For those who wish to earn a Masters degree without a Services or Specialist Credential, this program is flexible and not structured by required course work.

The Individually Designed Program may focus on two areas of study and permit related courses in other than these two areas; may center around a core-career objective; may combine disciplines with educational theory; or may be planned to permit in-depth study in an area of special interest.

Qualified candidates, under the direction of the program advisor, construct a cross-disciplinary program to meet their special interests or needs.

Individually Designed Program candidates will complete the nine units of core courses. Candidates in this program may choose EDU/PSY 202, EDU 203, or 214 as a core course requirement depending on program objectives. Candidates will complete 21 units of course work selected in consultation with the program advisor.

EDU 31 Introduction to Early Childhood Education (3)

A study of the history, scope, and current philosophies of programs for young children. Observations in a variety of local early childhood programs. Understanding of common denominators in sound early childhood programs. Education and licensing requirements for such programs are explored.

EDU 32 Observation and Participation in Preschool Programs (3)

Review of basic principles of child development and their application in the preschool setting by means of observation and participation. Introduction and use of alternative formats for recording and observations. Use of observational data to diagnose children's interests, developmental levels, and learning needs. Opportunities to create environments that enhance cultural pluralism. Includes two hours of observation weekly and two hours per week of assisting a teacher in an instructional capacity. *Prerequisite: Departmental approval.*

EDU 34 Language and Concept Development of the Young Child (3)

An indepth study of language and concept development of the child from birth through eight years. Primary factors in cognitive development are stressed including the basic elements of Piaget's developmental theory. The acquisition and development of language and its role in cognitive development are discussed. Methods and materials that enhance language and cognitive growth are presented, studied, and developed. Students observe and participate in a preschool setting.

#EDU 35B Creativity and the Young Child (3)

A study of those experiences which foster creativity and self-expression in the young child. Emphasis will be on art, music, play and movement. Students are required to observe and participate in a preschool setting. See PSY 35B

EDU 36 Learning Materials for Young Children (3)

Development, use, and evaluation of non-commercial learning materials for young children at home and in the preschool. Emphasis on learning through play and enhancing the child's self-esteem by means of

developmentally appropriate activities. Demonstrations of commercial learning materials. Course is suitable for parents or teachers.

EDU 39 Supervised Field Work: Preschool (4)

Instruction of children in the preschool under the direction of a master teacher. Conferences with teachers and supervisors accompany this work. *Prerequisite: Departmental approval.*

EDU 70 Introduction to Children With Special Needs (3)

An introduction to the various exceptionalities. A survey of special education programs. Study of the learning and behavioral characteristics of children with special needs together with a study of their families. Course includes specific suggestions for successful mainstreaming of children with special needs and current legislation regarding children with special needs. (Course meets California basic teaching credential requirements for special education.)

EDU 105A Classroom Organization and Management (3)

A study of the instructional program in public and non-public schools as it complies with the state, district, and/or diocesan frameworks. This course includes curriculum design and scheduling, elements of effective planning, strategies for individualized and group teaching, classroom patterns, routines, environment and discipline. Observation, participation, and some supervised teaching are integral aspects of this course.

EDU 105B Mathematics and Science: Elementary Curriculum (2)

The course is designed to reinforce math and science concepts, theories and their application. The main thrust is on methods, processes, evaluation procedures, materials, both manipulative and other, for lab and classroom, focusing on individual and group participation. Elementary school observation and participation are an essential component of the study.

EDU 105C Reading: Elementary Curriculum (3)

A study of the developmental process of reading in the elementary school encompassing word attack skills and comprehension skills. The course covers methods, materials, objectives and principles required for a teacher of reading. Evaluation processes researched are both diagnostic and achievement-oriented in nature. Observation and participation in an elementary school setting give opportunities for application of the theories.

EDU 105D Communication and Social Studies: Elementary Curriculum (2)

A study of the student and elementary school curriculum with special emphasis on the listening, oral, and written expression, non-verbal communication, and the social studies skills. Individual and group instruction is applied to general principles, objectives, instructional procedures, materials, and evaluation processes. Observation, participation, and some supervised teaching are integral aspects of this course.

EDU 112 Diagnosis and Prescription: Elementary (2)

Instruction in techniques and diagnosis of learning problems. Case studies and laboratory participation are used to aid students in translating diagnostic findings into prescription. *Prerequisite: PSY 113.*

EDU 115B Mathematics — Elementary Curriculum (2)

The course is designed to reinforce math concepts, theories and their application. However, the main thrust is on methods, processes, evaluation procedures, materials, both manipulative and other, for lab and classroom, focusing on individual and group participation. Elementary school observation and participation are an essential component of the study.

EDU 116A Supervised Teaching: Elementary (12)**EDU 116B Supervised Teaching: Elementary (6)****EDU 116C Supervised Teaching: Elementary (6)**

A study of children in an instructional program on different grade levels and in different socio-economic communities. This involves fulfilling the responsibilities expected of the in-service teacher. Throughout the continuum, the student, college instructors, supervising teachers, and other designated personnel measure the effectiveness of the student's interaction within the school community. The goal to be attained is an exemplary, personally secure and professionally competent individual. *Prerequisite: Approval of the Education Department Screening Committee.*

EDU 122 Diagnosis and Prescription: Secondary (2)

See EDU 112. *Prerequisite: PSY 123.*

EDU 125A Secondary Curriculum (3)

Courses of study, materials, and equipment used in teaching in junior and senior high schools are analyzed. The components that make up a comprehensive high school and the elements necessary for curriculum development to meet the needs of the individual and society are reviewed. Observations at a junior high school and a senior high school are a part of the course. *Prerequisite: PSY 123.*

EDU 125B Emerging Trends in Education (2)

A study of the philosophical and sociological factors influencing innovation and change in education with emphasis on those developments that are becoming established through evaluation, accountability, and experimentation. Field experiences are included.

EDU 125C Reading — Secondary (3)

The course reviews the basic skills, methods and materials required in beginning reading. Approaches, methods and materials more appropriate to the older student will be studied and tested in individual and group tutoring within a regular junior or senior high school. Attention will be given to the remedial aspects of reading as well as subject matter reading skills. Evaluation processes will include both diagnostic and achievement types.

EDU 125D Secondary Methods (2)
 A study of the rationale underlying the content, placement, and methodology as it specifically relates to the teaching major. This course includes practice in the development and use of materials and equipment for teaching in the junior and senior high school and in the necessary planning for effectively organized teaching. Observation and participation in the classroom are aspects of this course.

EDU 126A Supervised Teaching — Secondary (12)

EDU 126B Supervised Teaching — Secondary (6)

EDU 126C Supervised Teaching — Secondary (6)

Instructing students in a junior and a senior high school class the duration of one semester plus additional assignments comprising a total school day. Weekly conferences are included. Provisions are made for students to fulfill Supervised Teaching at Pasteur Junior High School and Hamilton High School. *Prerequisite: Admission by approval of the department.*

EDU 170 Introduction to Children with Special Needs (3)

(Course meets California basic teaching credential requirements for special education.) See EDU 70.

EDU 190 Workshop (.5-3)

May be repeated for credit.

EDU 199 AB Special Studies (.5-3; .5-3)

May be repeated for credit. *Prerequisite: Senior or graduate standing or consent of department.*

EDU 200 Research Methods (3)

A study of the various approaches to research including historical, descriptive, and experimental. Intended to develop facility in reading research reports and applying knowledge gained through research. Students prepare a research report outline for the master's project or thesis. See PSY 200.

†EDU 202 Psychological Foundations of Growth, Development, and Learning (3)

Contemporary psychological theory as applied to the processes of learning, personal growth, and education. Research and writing are offered to meet the individual needs of students doing graduate work in counseling, human services, and education. See PSY 202.

‡EDU 203 Sociological Foundations of Counseling/Education (3)

A study of education and counseling from a sociological perspective: includes study of the structure of society, its institutions and trends, and the use of sociological approaches to consider professional questions such as cultural and ethnic diversity, equal opportunity, achievement, and change.

‡EDU 205 Development and Evaluation of the Curriculum (3)

Basic principles of curriculum development. Study of the techniques of curriculum planning, evaluation of curriculum, and organizational patterns of curriculum.

EDU 214 Philosophical and Historical Foundations of United States: Integrating Modern and Emerging Trends (3)

This course deals with the issues and challenges of today's schools integrating modern and emerging trends in education. It is designed to reveal the unique characteristics of the American school system by presenting the philosophical and historical influences in its development.

‡EDU 215 Organization of School Systems: Legal and Financial Aspects (3)

A study of the organization and administration of school districts and school systems in the United States: considers the respective roles of federal, state, and local governments in education; examines legislation and litigation affecting school districts and theory and practice of school finance.

†EDU 216 Supervision of Instruction and Programs (3)

This course is designed to provide opportunities for students to develop those competencies required for effective supervision of instruction and educational programs. Such competencies as the following are to be emphasized: proficiency in effecting change in personnel for the improvement of educational programs and of teaching, effective interpersonal relations, development of skills in decision-making and in all aspects of program planning, implementation, and evaluation.

†EDU 217 Administration of Schools and Personnel (3)

A course in developing skills and understanding in the use of effective techniques in administrative leadership and in development of skill in handling personnel problems, basing decisions on sound principles of personnel administration. The course is designed on the case study approach, including visitations to schools whenever possible, and is specifically designed to prepare for service in elementary and secondary schools.

EDU 240 Child Development and the Educational Process (3)

Systematic study of the developmental characteristics of the young child beginning with pre-natal life. Examination of various theoretical positions with regard to development and learning. Study of recent contributions in research, practical experimentation, or theory which have important bearings upon the problems of human development.

EDU 241 Foundations of Early Childhood Education (3)

Introduction to the theoretical bases upon which early childhood programs have been and currently are being developed. Analysis of relationships between fundamental theories of child development, philosophies of curriculum and established programs. Evaluation of educational research and its relation to goals of early childhood education.

EDU 242A Curriculum Development for the Young Child in Early Childhood Education (3)

Study, evaluation, and development of programs and materials to stimulate the creative, physical and social/emotional development of the young child. Emphasis on provision for individuality in learning style, rate of development, and familial and cultural patterns and background. Classroom management procedures that respect the nature of the active, curious child.

EDU 242B Language and Concept Development in Early Childhood Curriculum (3)

Study, evaluation and development of programs and materials to stimulate language and concept development of the young child. Emphasis on provision for individuality in learning style, rate of development, and familial and cultural patterns and background. Classroom management procedures that respect the nature of the active, curious child.

EDU 243 Evaluation in Early Childhood Education: Children and Programs (3)

Study and use of various methods of evaluation such as observation, case studies, tests, developmental scales, and classroom products for the purpose of diagnosing children's needs and evaluating their growth and learning in all areas of development. Formulations of objectives based on children's needs and interests and design of evaluation methods consistent with these objectives. Interpretation of evaluative data. Principles and procedures for assessing the quality and effectiveness of educational programs for meeting the cognitive, physical, cultural, social and emotional needs of young children.

EDU 244 Parent and Community Involvement in Early Childhood Education (3)

Methods of studying the community served by an Early Childhood program, with emphasis on the similarities and differences among cultural groups in language, child-rearing practices, values and customs. Means of effectively encouraging parent and community participation for facilitating productive parent conferences, and for

planning programs to strengthen home-school cooperation, including parent education as related to individual child development. Development of criteria for working with volunteers, tutors, parents, teachers, and paraprofessionals from diverse cultures.

EDU 249A Supervised Field Experience: Early Childhood Education (prekindergarten) (3)

EDU 249B Supervised Field Experience: Early Childhood Education (kindergarten — grade 3) (3)

Assignment to one of a wide variety of carefully selected early childhood programs. Students take an active role in the program — working directly with children, teachers, other student teachers, parents, staff, and community. Possible settings include but are not limited to public and private K-3 settings, half-day nursery schools, preschool programs for exceptional children, children's centers, day care settings, etc., in representative cross-cultural environments. Participation in regularly scheduled seminars complements student growth in the field and is a requirement of the field experience requirement. Approval of faculty advisor is required.

†EDU 258 Sociological Aspects of Administrative Leadership (3)

A study of the knowledge, theory, and research of the behavioral sciences that are transforming school administration, the behavior of individuals and groups in an organizational setting, and its application to current professional problems in education.

†EDU 261 Career and Educational Counseling (3)

A study of the techniques, resources, and processes involved in career counseling. Exploration of relevant research as well as a survey of appropriate agencies in the community. (See PSY 261.)

†EDU 262 The Organization of Counseling and Mental Health Services (3)

An exploration of the organization and administration of the variety of traditional and innovative community and school-

based counseling services and programs. (See PSY 262.)

EDU 263 Laws Relating to Schools, Community, and Youth (3)

A study of the legal regulations relating to the community, youth, schools, school personnel as well as counseling and human services personnel. Students become familiar with the codes and legal references and with agencies which implement these regulations. Attention is also given to ethical issues in professional practice.

EDU 269 Field Experience: Counseling (1-3)

A field experience under professional supervision in a setting where counseling is practiced. Generally students participate in selecting an appropriate placement either in a school or a professional agency. (See PSY 269.)

EDU 270 Survey of Programs for Child With Special Needs (3)

Provides an introduction to the problem of exceptionalities of all types; the history of special education, the legal and administrative framework for special education in California; education, sociocultural, and psychological rationale for grouping children, while retaining the basic principles of normal growth and development underlying the deviations of the special exceptionalities. Types of special education programs are studied in relationship to the mainstream of regular education. Course meets California basic teaching credential requirements for special education. (See PSY 270.) Meets California requirements for special education for clear credentials.

EDU 271 Appraisal of Special Children (3)

A study of the use of tools for assessing exceptionalities in children; statistical concepts in measuring abilities; principles of assessment; methods of administration and interpretation; assessment instruments; and the relationship of the results of assessment to the total evaluation of the child. (See PSY 271.)

EDU 272 Disturbances in Child Development (3)

The student is guided in a study of learning and behavioral disturbances in childhood:

deficits in sensory motor functions, language, auditory and visual perceptual abilities and social and emotional development. Preventative and remedial programs in movement, perception, language, and cognitive skills and amelioration of socio-emotional disturbances will be discussed. (See PSY 272.)

#EDU 273 Development of Programs for Children with Specific Learning Disabilities (3)

Assessment of the characteristics and behaviors of exceptional pupils in terms of program and developmental needs. Utilization of systematic observation, academic assessment, clinical teaching, and formal assessment procedures for individualized instruction. Evaluating and reporting outcomes of a teaching-learning sequence in terms of stated objectives. Designing and utilizing pupil performance criteria to evaluate pupil learning and behavior. (See PSY 273.)

#EDU 274 Counseling and Guidance of Special Children (3)

Primarily a study of human relations, which provides the basis for the effective working relationships, both interpersonal and interprofessional, involving the complex situation of persons interacting with one another at all levels of the organization social structure. The student develops the ability to relate effectively with pupils, parents, co-workers, and resource personnel; becomes sensitive to the feelings and needs of others by understanding his own, develops skills of communication, and learns to appreciate and use available work harmoniously and effectively with all personnel — a necessary condition for the success of the concerted efforts of all members of the staff toward a common goal of promoting the learning of children. (See PSY 274.)

#EDU 275 Teaching of Language Arts for the Learning Handicapped (3)

In this course, the student draws upon the knowledge and skills requisite for effective teaching of reading and language arts in the regular classroom. He/she learns to adapt them to the learning abilities of learning handicapped children. This course may be taken concurrently with student teaching or completed before that semester.

†EDU 276 Teaching of Mathematics, Science and Social Science for the Learning Handicapped (3)

In this course the student draws upon the knowledge and skills requisite for effective teaching of mathematics, science and social science in regular classroom. He/she learns to adapt them to the learning abilities of learning handicapped children. This course may be taken concurrently with student teaching, or completed before that semester.

EDU 277 Language and Speech Disorders (3)

A study of normal language development, together with a study of causes, characteristics, and remediation of speech disorders and defects in the handicapped child. Includes observation evaluation programs of speech development and therapy.

EDU 278 Supervised Teaching: Learning Handicapped (1-3)

Experience in all aspects of teaching the learning handicapped child: assessment, programming, instruction, management, record maintenance, evaluation of progress, and contacts with families and community.

EDU 290 Workshop (5.5-3)

Experiential class focusing on particular area of interest. (See PSY 290.)

EDU 291 Marianne Frostig International Course in Special Education (3)

Topics explored include: psycho-educational methods and materials of teaching learning disabled, emotionally disturbed and developmentally disabled children and adolescents. Principles and goals of the programs for these children and adolescents are also discussed. The cognitive and socio-emotional development and adjustment of children, and how these can be improved through movement education, perceptual and language trainings are illuminated with case histories. Methods of instruction based on neurobiological, developmental, and clinical research, as well as principles of classroom management are addressed. This course is targeted for the United States student as well as an international audience.

EDU 292 Marianne Frostig Practicum in Clinical Education (1-6)

Individual study with Dr. Marianne Frostig. Various aspects of special education of interest to the participant will be included. Evaluation as well as treatment will be discussed and demonstrated. Graduate standing; permission of instructor required. (See PSY 192.)

EDU 295 Thesis Guidance (3)**EDU 296 Master's Seminar (3)**

Designed to provide opportunity for the candidate to develop competency in researching a current issue in education, analyzing its operational problem, and preparing a research project.

EDU 298 Supervised Field Experience: Administration and Supervision (1-3)

Directed and supervised experience in the supervision of instruction and in administrative activities. A wide variety of experiences is offered to prepare the student to

meet many situations in supervision and administration. Approval of faculty advisor is required.

EDU 299AB Special Studies (.5-3)

Prerequisite: Graduate standing or consent of department. May be repeated for credit.

EDU 301 Inservice Education (.5-3)**EDU 302 Inservice Education (.5-3)****EDU 345 Workshop in Special Education (.5-3)**

May be repeated for credit.

Sequencing of courses does not indicate courses offered during the Summer Session; for these courses, request the Schedule of Classes from the office of the Summer Session Director or from the Education Department. Sequencing of fall and spring term courses are subject to change. For current Schedule of Classes, contact the Registrar's Office.

Administrative Internship Program

In cooperation with the Los Angeles Unified School District, Mount St. Mary's College offers a program of study directed toward the Preliminary Administrative Services Credential. The following courses are restricted to students in this co-sponsored program, which extends for three semesters and one summer session, beginning in the Spring and concluding the following Spring.

Requirements for application are the same as for other Mount St. Mary's College Administrative Services credential and degree programs. Applicants must also be recommended by their current principals or appropriate administrators.

EDU 221 Leadership Development (3)

A study of leadership theory and practice as related to the roles and responsibilities of educational administrators and/or supervisors. The behavior of individuals and groups in an organizational setting is considered. Topics include: group processes, decision-making, climate, communication, and conflict management.

EDU 222AB Directing the Educational Program: Curriculum and Supervision (3,3)

A study of educational programs in schools and their supervision. Principles of curriculum development and evaluation, organization of curriculum, implementation of mandated programs, and the community's role in curriculum are considered. Study and application of competencies required for effective supervision of instruction and educational programs. Emphasized competency areas include: organization of supervisory program, strategies for supervision, staff development, and the role of supervisor as change-agent. This course is taught in two sequential three-unit segments. EDU 222A focuses on elementary schools; EDU 222B focuses on junior high and secondary schools.

EDU 223 School and Personnel Management (3)

A course in developing skills and understanding in the use of effective techniques in administrative leadership and in development of skill in handling personnel problems, basing decisions on sound principles of personnel administration. The course is designed on the case study approach, including visitations to schools when possible, and is specifically designed to prepare for service in elementary and secondary schools.

EDU 224AB Legal Financial Aspects of Education (2,2)

A study of the legal framework of education in the United States. Significant laws, state codes, regulations, court decisions with a focus on laws relating to youth, schools, and school personnel are considered. History, principles, and problems of educational finance; district- and site-level funding and budgeting; legal and financial implications of personnel contracts and the bargaining process are studied.

EDU 225A Educational Governance (2)

A study of concepts of authority, power, and influence in relation to organizational patterns of schools and districts. Considers the historical development of school organization and the respective roles of federal, state, and local government in education. Functions of school boards, district administrators, district and site counsels, as well as professional organizations and unions, are discussed.

EDU 225B Educational Governance and Special Education (1)

Organization, administration, and supervision of special education programs, especially within public school settings is studied. Includes review of current legislation and research. (This course together with EDU 222AB meets MSMC credential program requirements for Special Education for the Administrative Credential.)

EDU 226 Psychological Foundations of Education (3)

A study of psychological principles especially as related to the role of the educational administrator. Fundamentals of human relations, principles of human growth, development and learning are reviewed. Relationships and practical applications are drawn between psychological principles and administrative roles in such areas as improving the educational program, personnel management, school-community relations, and school management.

EDU 228ABC Supervised Field Experience: Educational Administration (3,2,3)

Experiences in school administration in a school setting. Students' programs of field experience are designed on an individual basis.

Additional courses required for the masters degree: EDU 200 and EDU 296. For additional information and requirements for the Administrative Services Credential and Masters Degree Programs, see listing in this section.

English

The English major explores the way people communicate and how they reflect on their existence. It gives sustained training in critical thinking and writing, creative self-expression, and the perceptive reading of literature. Working from a foundation in theory and criticism of literature, students select courses in writing and in American, British, and Continental literature, and may design their own independent study and directed reading courses in areas of special interest.

Because English majors get extensive experience in analyzing, solving problems, researching, organizing, studying human behavior, and above all writing and speaking with clarity and self-confidence, they have the background for a wide variety of careers. These include law, business management, journalism, public relations, teaching, public administration, and many areas of writing. Internships in the field of the student's career interest are highly recommended.

Students are encouraged to combine their English major with a second major or minor, in order to combine the liberal arts emphasis with a professional preparation. English and Business offer a double major (see below). Students interested in law are encouraged to select a second major in American Studies, Philosophy, or Political Science, and to complete the Pre-Law Program. Desirable minor programs include Business (see below), Computer Programming, and the sequence of core courses in Public Administration (POL 185, 186, and 187).

The B.A. Degree with a Major in English

Preparation:

ENG 1AB	Freshman English	(3,3)
HIS 1AB	Western Civilization	(3,3)
One course in Speech		(1-3)

Strongly Recommended:

PHI 5	Introduction to Logic	(3)
-------	-----------------------	-----

Requirements:

Thirty units in English, at least twenty-four of which are upper division, including:

ENG 106	Creative Writing	(2-3)
ENG 73	Shakespeare	(3)
OR		
ENG 173	Shakespeare Seminar	(3)
ENG 181	Theory and Criticism	(3)
ENG 195	English Seminar	(3)
ENG 161/162/163	One genre course	(3)
One course in American literature		(3)
One course in English literature before 1700		(3)
One course in English literature after 1700		(3)
Two electives chosen from English offerings		(9)

Majors must maintain at least C grades in all English courses.

Total units in English: 36

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirement.

The B.A. Degree with Majors in English and Business Administration

English

Preparation:

ENG 1AB	Freshman English	(3,3)
HIS 1AB	Western Civilization	(3,3)
SPR 18	Career Planning Seminar	(1)
One course in Speech		(3)

Strongly Recommended:

PHI 5	Introduction to Logic	(3)
-------	-----------------------	-----

Requirements:

Twenty-four units in English, at least eighteen of which are upper division, including:

ENG 181	Theory and Criticism	(3)
ENG 190	Internship	(3)
ENG 195	English Seminar	(3)

Recommended:

ENG 147	English Literature: 1700-1900	(3)
One course in American literature		(3)

Business Administration

Preparation:

BUS 5	Business Law	(3)
BUS 15	Accounting I	(4)
BUS 16	Accounting II	(4)
ECO 1	Microeconomics	(3)
ECO 2	Macroeconomics	(3)
MTH 9	Introduction to Computer Processes	(3)
MTH 28	Mathematical Analysis for the Business Student	(3)
MTH 38	Elements of Probability and Statistics	(3)
PSY 1	General Psychology	(3)

Requirements:

Twenty-one upper division units for Business, including:

BUS 130	Business Finance	(3)
BUS 160	Marketing	(3)
BUS 161	Advertising	(3)
BUS 184	Organizational Behavior	(3)

BUS 185	Business Management	(3)
BUS 192	Business Policy and Ethics	(3)

Total units in English and Business: 62

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirement.

The Minor in English

A minimum of 21 units, 9 of which are upper division, including:

ENG 1AB	Freshman English	(3,3)
---------	------------------	-------

Strongly recommended:

ENG 181	Theory and Criticism	(3)
---------	----------------------	-----

Students interested in an English minor work out their total programs with a departmental advisor. Because of the variety of careers to which an English program may lead, the choice of courses is flexible.

The Minor in Business Recommended for English Majors

A minimum of 21 units, including:

BUS 15	Accounting I	(4)
BUS 185	Business Management	(3)
OR		
BUS 16	Accounting II	(4)
BUS 157	Personnel	(3)
OR		
BUS 161	Advertising	(3)
BUS 160	Marketing	(3)
ECO 2	Macroeconomics	(3)
ENG 190	Internship	(3)
MTH 9	Introduction to Computer Processes	(3)

ENG 1AB Freshman English (3,3)

Principles and practice of writing, with attention to critical thinking and analytical reading. Includes discussion skills, library usage, research techniques, and some experience in literary criticism. *Completion with a grade of C or better fulfills Communication Skills requirement in writing. GS-IA.*

ENG 3X Basic Writing (3)

A study of basic elements of writing including sentence structure, paragraph development, and mechanics. Does not fulfill the Communication Skills requirement in writing, nor does credit apply to the baccalaureate degree. Student must obtain a C or better to qualify for ENG 10AB.

ENG 5H Freshman Honors English: Western Literature I (3)

A study of Western Literature from the Ancient World through the Renaissance with an emphasis on written analysis. Fulfills Communication Skills requirement in writing. *Open only to students admitted to the Honors Program. GS-IA*

ENG 6H Freshman Honors English: Western Literature II (3)

A study of Western Literature from the Neo-Classical through the Modern Period with an emphasis on written analysis. Fulfills Communication Skills requirement in writing. *Open only to students admitted to the Honors Program. GS-IA*

ENG 7X Basic Composition (2)
 Principles and practice of basic writing skills with special emphasis on sentence control and paragraph development. Supplementary work in Learning Assistance Center required. Admission by placement. This course does not fulfill the Communication Skills requirement in writing, nor does credit apply to the baccalaureate degree.

ENG 10AB Written and Oral Communication (3,3)

A two-term course in the principles and practice of writing and speaking standard English. Includes informal, expository, and analytical writing, library skills, individual and group speaking experiences. Required of A.A. students in business and pre-school specializations. Fulfills bachelor's degree Communication Skills requirement in writing (ENG 1AB). *Prerequisite: Grade of C or better in ENG 3 or a satisfactory grade on English Placement test.* GS-IA.

ENG 11 Communication Skills for Medical Profession (3)

Principles and practice of individual and group communication primarily in health-related situations, with an emphasis on interpersonal oral communication. *Prerequisite: Grade of C or better in ENG 10A, or an equivalent course.*

ENG 15 Literature and Society (3)

Examination of society's accomplishments and vexations in selected literary works that portray human striving in family, nation, and technological world. May be repeated for credit. GS-IIIB

ENG 16 Literature and the Human Experience (3)

Studies in the stages of human development as portrayed in classic works of Western literature with particular focus on the growth of the self and on the individual's relationship to others and to God. Themes include adolescence, the female experience, love, the family, moral choice, faith, death and dying. May be repeated for credit. GS-IIIB.

ENG 17 Literary Focus (3)

In-depth study of works selected by author, theme, or genre. May be repeated for credit. GS-IIIB.

ENG 18 Studies in World Literature (3)

Study of major works in world literature, representing a variety of periods, themes, and genres. GS-IIIB.

ENG 21 Classical Epic and Drama (3)

Reading of the *Iliad*, *Odyssey*, *Aeneid*, and several Greek tragedies. Study of their origins, development, meaning to the ancient world and to the contemporary reader. GS-IIIB.

ENG 22 The Bible as Literature (3)

Aspects of the Bible as art shaped by human artifice. Concerned with characters and their development in freedom; with literary elements such as theme, structure, voice, images, movement. GS-IIIB

***ENG 24 Introduction to Film (3)**

Survey of the elements of film, film history, and criteria for critically evaluating theatrical and television films.

‡ENG 25 Mythmaking: the Quest for Meaning (3)

An exploration of mythmaking in literature as a reflection and interpretation of human experience. Major mythic themes are traced and compared in the arts, as well as in literature. GS-IIIB

‡ENG 26 The American Experience (3)

An introduction to significant American myths and ideas through a study of selected American writing. GS-IIIB

ENG 34 Pre-School Literature (3)

A survey of children's literature for lower division students interested in working with pre-school and primary grade children; weekly experiences in storytelling.

ENG 54 Studies in American Literature (3)

A study of poetry, fiction, and non-fiction representative of periods or trends in American literature. GS-IIIB

ENG 71 Dante (3)

A study of *The Divine Comedy* in its historical and cultural context. GS-IIIB

‡ENG 73 Shakespeare (3)

A study of selected Shakespearean plays and poetry. GS-IIIB

ENG 91 Directed Study (1-3)
Study in a field of special interest, under the direction of a department member. May be repeated for credit.

ENG 92 Special Studies (3)
Exploration of special interest areas in the study of language and literature. May be repeated for credit. GS-IIIB

ENG 94X Communication Skills Laboratory (1-3)
Individual instruction in communication skills — reading, writing, listening, speaking. Not transferrable towards bachelor's degree at Chalon. May be repeated for credit with a maximum of 6 units towards A.A. degree.

***ENG 96 Workshop (1-3)**
May be repeated for credit.

ENG 100/200 English Linguistics (3)
A diachronic and synchronic approach to the linguistic analysis of English; special focus on problems in the history and structure of the English language relevant to teachers in bilingual and cross-cultural programs. Prerequisite: Demonstration of competency in traditional English grammar.

ENG 101 History of the English Language (3)
Study of the history and development of the English language with special emphasis on the phenomena operative in language change.

ENG 102/202 Structure of Modern English (3)
Introduction to varieties of contemporary linguistic theories and their application to modern American English; study of transformational grammar.

#ENG 105 Advanced Composition (3)
Designed to meet one's personal and professional writing needs and to increase writing confidence and competency by exploring the English language, discovering one's style, and reviewing basic skills.

ENG 106 Creative Writing (1-6)
Exercise in creating short stories and poems from experience and observation. May be repeated for credit up to a total of six units;

at least two units required of English majors. Prerequisite: Consent of instructor.

ENG 134 Children's Literature (3)
Wide reading of children's books; study of critics in the field, and of artist illustrators.

†ENG 143 English Literature: Beowulf to 1500 (3-6)
Major works of the medieval period studied in their historical and cultural contexts. With permission of instructor, student may enroll for credit up to 6 units.

†ENG 144 English Literature: 1500 to 1700 (3-6)
Major works of the Renaissance and Restoration studied in their historical and cultural contexts. With permission of instructor, student may enroll for credit up to 6 units.

†ENG 145 American Literature: Beginnings to 1914 (3-6)
Major works of colonial, early federal, and nineteenth-century America studied in the light of their historical contexts. With permission of instructor, student may enroll for credit up to 6 units. GS-IIIB

†ENG 146 American Literature: 1914 to Present (3-6)
Study of major works of modern America; consideration of how the literature reflects the condition of society after the outbreak of World War I. With permission of instructor, student may enroll for credit up to 6 units. GS-IIIB

†ENG 147 English Literature: 1700 to 1900 (3-6)
Major works of the 18th Century, Romantic and Victorian periods studied in their historical and cultural contexts. With permission of instructor, student may enroll for credit up to 6 units. GS-IIIB

†ENG 148 Twentieth Century English and European Literature (3-6)
Major contemporary works studied in their historical and cultural contexts. With permission of instructor, student may enroll for credit up to 6 units. GS-IIIB

ENG 154 Selected American Writers (3)
In-depth critical reading of a few American writers, selected to give insight into the literature and ideas of a significant period

or movement in American culture. May be repeated for credit. GS-IIIB

†ENG 161 Study of the Novel (3)
Chronological reading and study of representative novels from the 18th to the 20th centuries. Emphasis on critical enjoyment and awareness of the novel's changing form. GS-IIIB

†ENG 162 Study of Poetry (3)
Study of the development of poetry from its beginnings to the twentieth century with emphasis on critical enjoyment. GS-IIIB

ENG 163 Study of Drama (3)
Analysis of representative plays from major periods of theater history with emphasis on works of classical, European, English, and American playwrights; theories of interpretation are applied. GS-IIIB

ENG 171 Seminar in The Divine Comedy (3)
A close reading and explication of the *Comedy* as a supreme work of art. GS-IIIB

ENG 172 Chaucer (3)
Readings in the poetry of Chaucer, principally the *Canterbury Tales* and *Troilus and Criseyde*, with reference to the minor works.

†ENG 173 Shakespeare (3)
Appreciation of Shakespeare's range and art as a playwright through study of works from different periods of his development; combination of in-depth and background study. GS-IIIB

†ENG 181 Theory and Criticism (3)
Advanced study in methods of examining and discussing literature. Practice in literary analysis. Consideration of selected major critical theories and documents.

ENG 190 Internship (1-6)
Students are placed and supervised in business or administrative postions that make use of the skills developed in the major study. Usually taken in final term of residence. *Prerequisites vary and are determined in consultation with the coordinator.*

ENG 191/291 Directed Study (1-3)
Study in a field of special interest, under the direction of a department member. May be repeated for credit.

ENG 192/292 Special Studies (3)
Exploration of special interest areas in the study of language and literature. May be repeated for credit. GS-IIIB

ENG 195 English Seminar (3)
Designed to provide upper-division English majors with an opportunity for in-depth investigation into literature and ideas; culminates in a written project. English minors and other upper-division students admitted with permission of instructor.

English as a Second Language
Intensive basic English to assist non-native English speakers develop the communication skills essential for functioning in a college environment.

ESL 7X Beginning English as a Second Language (0)
Review of basic English structures; emphasis on correct pronunciation; reading and listening skills. *Credit does not apply to the baccalaureate degree.*

ESL 8X Intermediate English as a Second Language (2-3)
Review of sentence structure; practice in oral communication skills; development of vocabulary and spelling skills. *Credit does not apply to the baccalaureate degree.*

ESL 9X Advanced English as a Second Language (2-3)
Practice in public speech and listening skills; development of reading skills including interpretation, and practice in paragraph and essay writing. *Credit does not apply to the baccalaureate degree.*

French

Departmental Affiliation: Foreign Language and Literature

The Department of Foreign Languages and Literature offers majors and minors in French and Spanish (for Spanish course description, see alphabetical listing). The major in French is a comprehensive program leading to a proficiency in the four basic language skills: speaking, reading, writing, and understanding. Incorporated into the program are the culture and civilization of France. Students may plan their programs with an emphasis on literary studies, language or international business. Admission to the major is determined by the faculty of the department when the student applies. Three units are given for each Advanced Placement Course in French taken in high school.

The B.A. with the Major in French

Preparation:

Completion of Intermediate Level proficiency	
FRE 32 The Culture and Civilization of France	(3)

Requirements:

25 units in upper division courses to include	
FRE 101 French Writing Lab	(3)
FRE 108 French Diction and	
Public Speaking	(3)
FRE 112A French Literature from the Middle	
Ages through the French Revolution	(3)
FRE 112B French Literature from the French	
Revolution to World War II	(3)
FRE 133 Contemporary French Culture	(3)
FRE 134 Twentieth Century Literary Trends	(3)
FRE 191 Senior Thesis	(1)
Four additional upper division courses	(12)
Plus general studies requirements and electives totaling 129 semester units.	

The Minor in French

A. Language, Literature Emphasis

Requirements:

A minimum of 21 units to include:

FRE 32	The Culture and Civilization of France	(3)
FRE 101	French Writing Lab	(3)
FRE 108	French Diction for Professionals	(3)
FRE 112A	French Literature from the Middle Ages through the French Revolution	(3)
FRE 112B	French Literature from the French Revolution to World War II	(3)

B. International Business Emphasis

Requirements:

A minimum of 21 units, including:

FRE 102	French for Business	(3)
FRE 103	Interpretation and Translation	(3)
FRE 133	Contemporary French Life and Thought	(3)

FRE 1 Elementary French (3)
Develops fundamental skills: speaking, reading, understanding, writing. Use of language laboratory. Classes feature oral practice in French. GS-IV.

FRE 102 French for Business (3)
Intensive commercial French, combining and developing simultaneously the teaching of the structures of the French language with that of business terminology essential in business operations.

FRE 2 Basic French (3)
Emphasis is solely on speaking and understanding the spoken language. Cultural readings serve as a springboard for the acquisition of these skills. GS-IV.

FRE 108 French Diction for Professionals (3)
Besides vocabulary building and emphasis on correct intonation and pronunciation, many and varied opportunities to develop ease and accuracy in public speaking.

FRE 3 Intermediate French (3)
Continues the development of all four language skills, emphasizing vocabulary building, perfecting pronunciation, increasing fluency. Language laboratory use. GS-IV

FRE 112AB French Literature (3,3)
An introduction to poetry, prose, and drama, tracing the development of each genre from the Middle Ages to World War II. Special attention given to literary theory and criticism of works studied.

A: From the Middle Ages through the French Revolution.

B: From the French Revolution to World War II.

FRE 32 History and Civilization of France (3)
A background course for the study of French literature. Historical, social, and cultural development of France. GS-IV

FRE 101 French Writing Lab (3)
Exercises in rhetoric, stylistic analysis, and creative writing.

FRE 113 Translation and Interpretation (3)
Communication skills are developed and opportunities provided for using these skills

in actual situations where interpretation and translation are essential.

FRE 123 Literary Expression of Medieval and Renaissance Thought (3)

Themes, ideas, and forms of medieval and renaissance literature as an expression of the life, thought and attitudes of the times.

FRE 125 Masterpieces of the 17th Century (3)

Study of the literary trends with analysis of the major prose, major poetic and dramatic writings.

FRE 127 The Age of Enlightenment (3)

A study of the artistic and intellectual trends of the eighteenth century as revealed by the major poets, dramatists, and prose writers of the period.

FRE 129 The Literary Genres of the Nineteenth Century (3)

An analytical study of the intellectual currents of the nineteenth century as revealed by the major poets, novelists, and dramatists of the period.

FRE 133 Contemporary French Culture (3)

An analysis of contemporary life and thought, focusing on the current economic and political scene, the Common Market,

legal institutions, as well as contemporary artistic and literary trends, the French value system, the family, and leisure time. GS-IV.

FRE 134 Twentieth Century Literary Trends (3)

Intensive study of the trends of contemporary poetry, theater, and novel with analysis and interpretation of selected works.

FRE 190AB Internships (3,3)

Internship program in areas related to French and international business.

FRE 191 Senior Thesis (1)

French majors must complete a senior thesis in literature under the direction of a department member. They enroll in FRE 191, *Senior Thesis*, during the term in which they complete the work. Upon acceptance of the paper by the department, the student receives one unit of credit and no grade.

FRE 194 Study/Travel (1-6)

Pre-travel lectures and readings, as well as guided tours in the country, serve as basis for a study/travel program, with each participant developing a project highlighting the travel experiences.

FRE 199AB Independent Studies (1-3,1-3)

Directed readings and research. For qualified students with the approval of the department.

Gerontology

Department Affiliation: Sociology

The major in gerontology emphasizes the exploration of behavioral development over the entire life span. Special focus is placed on the biological, sociological and psychological aspects of aging in American society.

The B.A. Degree with a Major in Gerontology

Preparation:

BIO 150	Biology of Aging	(3)
PHI 21	Moral Values and Ethical Decisions	(3)
PSY 1	General Psychology	(3)
SOC 5	Sociological Perspectives	(3)

Requirements:

HSP 195	Gerontology Internship	(3)
PHI 168B	Bioethics	(3)
PSY 128	Psychology of Aging	(3)
RST 178	Death and Dying	(3)
SOC 104	The Family	(3)
SOC 161	Dynamics of Majority-Minority Relations	(3)
SOC 189	Sociology of Aging	(3)

Plus any two courses from the recommended list below.

Recommendations:

MTH 38	Elements of Probability and Statistics	(3)
PSY 125	Introduction to Counseling	(3)
PSY 132	Personality	(3)
PSY 133	Psychology of Disability and Adjustment	(3)
PSY 135	Group Dynamics	(3)
PSY 145	Social Psychology	(3)
PSY 168	Abnormal Psychology	(3)
RST 178	Death and Dying	(3)
SOC 190	Social Change	(3)
SOC 192	Social Policy and Aging	(3)

Total units in Gerontology: 39

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirement.

The Minor in Gerontology

A minimum of seven courses in gerontology, including:

SOC 5	Sociological Perspectives	(3)
SOC 104	The Family	(3)
SOC 189	Sociology of Aging	(3)

All courses are described in the listings of the respective departments.

History

The student who majors in history examines and analyzes the heritage of the recorded past in an effort to better understand and evaluate events and developments of the present. Emphasis is placed on American, European, and non-Western civilizations.

Other options are offered in the closely-allied area majors offered in Social Science with emphasis in hispanic studies, history, political science, public administration, and sociology.

It is possible to have history and American Studies as a double major. See American Studies. Such a combination is highly desirable and very useful, combining as it does with the general major a specialized study of the character and developing trends of American society.

The B.A. Degree with a Major in History

Preparation:

HIS 1AB	Western Civilization	(3,3)
POL 10	Political Concepts	(3)

Recommendations:

HIS 25	Cultural and Historical Geography	(3)
--------	-----------------------------------	-----

Requirements:

Nine upper division courses including:

HIS 101	Historical Methods and Historiography	(3)
---------	---------------------------------------	-----

Total units in History: 36

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirement.

The Minor in History

HIS 1AB	Western Civilization	(3,3)
HIS 101	Historical Methods and Historiography	(3)

HIS 1AB Western Civilization (3,3)

An historical study of the major elements in man's heritage designed to introduce the student to the ideas, attitudes, and institutions basic to western civilization.
GS-III C

HIS 5 European Leaders and Ideas in Ferment and Flux (3)

A study of the major people and forces which shaped European culture and institutions from the mid-19th century to the present. **GS-IIIC**

HIS 17 Trends in American History and Institutions (3)

The constitutional problems of the American Revolution, the founding of the American Republic, the later crises brought on by sectionalism and slavery, the socio-economic implications of these crises, the evolution of the presidency since 1900, the changing relationships of the federal government to the economy, and the growth of executive power.

*** HIS 25 Cultural and Historical Geography (3)**

A survey of the basic cultural elements of geography, of their correlation with the physical elements, and of the geographic factors basic to the study of history and the social sciences. GS-III C

HIS 26 World Political History (3)
See POL 2. GS-III C**HIS 27 U.S. History and Institutions for Foreign Students (3)**

The constitutional problems of the American Revolution, the founding of the American Republic, the later crises brought on by sectionalism and slavery, the socio-economic implications of these crises, the evolution of the presidency since 1900, the changing relationships of the federal government to the economy, and the growth of executive power. Limited to foreign students. CPE

HIS 70 Revolutionary, Constitutional, and Jacksonian Traditions (3)

Features three periods which have contributed to the thought and values in the American character. Focus on individualism, centralization, property, and liberty.

HIS 71 Industrialization, Progressivism, and the New Deal (3)

Concentration on the role of government in the economy during the 1870-1940 period. Focuses on *laissez faire* in the Age of Business, the question of regulation during the Progressive Era, and government management of the economy during the 1930's.

HIS 75 Contemporary America (3)

American life since 1945; national and international problems, the place of the United States in world affairs, and the changing mores of American society. GS-IIIC

***HIS 93ABCD Studies in Selected Historical Problems/Topics (3,3,3,3)**

The course will reflect special areas of research by various faculty members and visiting lecturers. The particular areas of study will be announced in the semester schedules. GS-IIIC

HIS 101 Historical Methods and Historiography (3)

An examination of modern research and writing methods emphasizing needed skills in preparing research papers. Evaluation of the most significant historians and historical works. Required for history majors.

HIS 113 Economic History of Europe (3)

See ECO 113.

HIS 114 History of Social Thought (3)

See SOC 165.

HIS 115 History of Political Theory (3)

See POL 117. GS-IIIC

†HIS 116 Classical Civilization (3)

The development of ancient Greece from the Bronze Age through the Hellenistic Ages. The rise of Rome, its rule of the Mediterranean, and its role as transmitter of the Greek heritage. GS-III C

†HIS 118 Popes, Councils, Dogma, Dissent (3)

An examination of the major issues and controversies in the Catholic Church through the centuries with special emphasis on the early Church, high Middle Ages, Reformation, as well as Vatican I and Vatican II. (Formerly listed as HIS 12.) May be taken for lower division credit. GS-III C

HIS 121 The Early Medieval World (3)

Heirs of the Roman Empire, Byzantium, Western Europe, and Islam, Carolingian Europe and new invasions; feudalism; territorial, economic, and religious frontiers.

HIS 122 Europe: Knights, Monks, Monarchs, and Merchants (3)

The high Middle Ages; Church and State; rise of the feudal monarchies; the dynamics of medieval culture as reflected in literature, art, education, law, science, and philosophy. May be taken for lower division credit.

HIS 124 History of the Middle East (3)

An examination of the development of major Islamic civilizations to the emergence of the contemporary nation states. Emphasis

on the origins of the Turkish-Christian and Arab-Jewish conflicts.

HIS 141 Europe: The Age of Transition (3)

An examination of the transition from medieval to early modern European society with emphasis on theological, humanistic, and cultural achievements.

HIS 142 Europe: Politics and Theology in the Age of Reformation (3)

An examination of the currents and influences of religious disunity, the Reformation, dynastic wars, and the counter-Reformation. May be taken for Religious Studies credit. May be taken for lower division credit.

HIS 143 Europe: The Old Regime and the Enlightenment, 1660-1789 (3)

The European search for security and the effort to reconcile the Old Regime with the New Science of the Enlightenment. An examination of the attempts to maintain the political balance and growth of forces leading to the modern world. GS-IIIC

HIS 146 Europe: The Age of Revolution and Nationalism, 1789-1871 (3)

A study of class conflicts, culture and nationalism in the period from the beginning of the French revolution to the unification of Italy and Germany and the Commune of Paris. The intellectual and artistic achievements of figures such as Goya, Beethoven, Stendhal, Darwin, Marx, and Wagner will be treated in relation to the political, social, and cultural trends of this period.

HIS 147 Europe: The Age of Imperialism and Totalitarianism, 1871-1945 (3)

The history of Europe in the German era from the establishment of the Second Reich to the collapse of the Third. A study of society and culture in nations preparing for and conducting total war. The intellectual and artistic achievement of figures such as Nietzsche, Freud, Mann, Nijinsky, Orwell, and Picasso will be treated in relation to the political and intellectual currents of the period. GS-IIIC

†HIS 150 An Introduction to Asian History (3)

An overview of the geographical relationships, social organizations, historical development, thought patterns, political evolution, and the development of the modern state. GS-IIIC

HIS 151 Advanced Studies in the History of Modern Japan (3)

An examination of the rapid transition of the feudal Japan of the Shogun to the modern technological state. This course will probe the events that brought changes in government, family, religion, education, industry, and foreign relations from 1600 to 1952. (See POL 152A.)

HIS 152 Advanced Studies in the History of Modern China (3)

An emphasis on the development of Modern China through a biographical approach. Personalities such as the Empress Dowager, Sun Yat-sen, Mao Tse Tung and others will provide insights into the evolution of the Chinese State. (See POL 152B.) GS-IIIC

†HIS 162AB/262AB History and Civilization of Latin America (3,3)

A. Latin American Civilization.

A survey of pre-Columbian and Latin American social and cultural history, with stress on the values and institutions which have created modern society in the Latin American world.

B. Latin American Nations.

A study of selected major nations of topical interest and of the role of the revolution, military dictatorship, and reform as vehicles of modernization. May be repeated with the consent of the instructor.

†HIS 165AB/265AB History of the Spanish-Speaking Peoples of the United States (3,3)

A. Latin American Culture.

A survey of the indigenous civilizations, the influence of Spain and of the modern impact of the United States, with stress on the social and cultural changes in Mexico which have caused migration northward. Reference to the history of other nations which have representation in Southern California.

B. The Spanish-Speaking Peoples in the United States.

A study of the Spanish-speaking peoples in the United States today. The history, contemporary status, and emerging future of the Mexican Americans, with attention to the Puerto Ricans, Cubans, and other communities of importance to Southern California.

HIS 170 The Expanding Atlantic Community: The Colonial Era (3)

The study of the founding and of the political, social, and economic history of the thirteen colonies and their neighbors, with attention to European backgrounds.

HIS 171 U.S.: Revolutionaries and Constitutionalists (3)

The American Revolution, Confederation, and union under the Constitution; the social, economic, and cultural development of the United States to 1800.

HIS 173 U.S. Civil War and Reconstruction Era (3)

Concentration on the causes underlying the outbreak of the conflict between the North and South; the formation of the Confederate States; the war years; reconstruction and its effect on American civilization.

HIS 178 Diplomatic History of the United States (3)

A survey of the factors entering into the formation and the carrying out of American

foreign policy, with emphasis on twentieth century developments and post World War II problems.

†HIS 179 Constitutional History of the United States (3)

The evolution of the fundamental characteristics and trends in American Constitutional development with emphasis on contemporary problems. Consent of instructor necessary for non-majors and non-minors. See POL 108.

HIS 180 Current Constitutional History (3)

Emphasis on the Bill of Rights as applied to both federal and state jurisdictions. Also includes examination of both substantive and procedural due process. See POL 109. GS-IIIC

HIS 188 California History (3)

The social, economic, cultural, and institutional development of California through the Spanish, Mexican, and American periods. See POL 179.GS-IIIG

HIS 197ABC Readings in Historical Literature (1-3)

Individual programs of reading on significant historical topics or fields. Designed to acquaint the student with pertinent books of the past and present. Limited to majors in history.

Human Services Program

The Human Services Program is designed to reflect opportunities for career development particularly suited to today's needs. It combines professional skills with a philosophy of concern. Based in a liberal arts setting, the program provides a broad view of human needs and teaches students how to respond with compassion. Courses enable graduates to work successfully in growing, vitally-needed and people-related professions offering interaction with others and excellent chances for advancement. Within the Human Services Program the following options, listed alphabetically in this catalog, are available:

- A.A. degree in Physical Therapist Assistant
- B.A. degree in Gerontology
- B.S. degree in Physical Therapy

HSP 94 Concepts and Issues in Gerontology (3)

An examination of the current issues and trends operative in society today with an emphasis on their effects on the quality of life of the aging American.

HSP 110 Health Services Internship (3)

Work experiences in health-care facility in coordination with student's health administration interests. Students increase their applied knowledge and understanding of management of health-care institutions by analyzing and evaluating their experiences at seminar sessions with fellow students and the coordinator of health services faculty.

HSP 111 Management of Health Services (3)

Study of special problems which a manager encounters in the administration of health services programs. Business methods of

hospital administration, management of physical therapy, respiratory therapy, and nursing departments, administration of nursing-care facilities. *Prerequisite: This course is open only to Health Services Administration, Nursing, and Business majors unless written consent of the department chairperson is obtained.*

HSP 195 Gerontology Internship (3)

Supervised experience in one or more community agencies serving older adults. Course includes meetings with advisor to integrate experience with theory.

HSP 196 Thanatology Seminar (3)

A multi-discipline approach to death and dying. Some foci will be literary themes and philosophical and religious questions which deal with personal and cultural attitudes toward death and the biological aspects of the dying process.

Liberal Arts

(A. A. Degree)

The Associate in Arts degree with a specialization in Liberal Arts is designed for the student who wishes to explore various disciplines and have a wide variety of experiences. At the completion of the Associate in Arts program, the student may pursue a major leading to a baccalaureate degree in her chosen field and/or she may enter a career which utilizes the benefits from her interdisciplinary program. For transfer to the bachelors program on the Chalon campus, the student should consult her advisor regarding General Studies requirements. Requirements for admission into the Liberal Arts program are the same as those for admission into the Associate Degree program.

The Liberal Arts Program includes:

General Studies Requirements for A.A. Degree:

Religious Studies	(3)
Humanities (Art, Music, Literature, Cultural History)	(3)
English 10AB	(3,3)
Outreach	(1)
Group Experience	(1)

Requirements for the Liberal Arts Program:

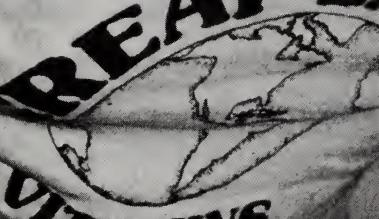

*Art or Music	(3)
*Literature	(3)
Religious Studies	(3)
Second Language (Computer or Language other than English)	(6)
Mathematics	(3)
Science	(3)
Psychology	(3)
Sociology	(3)
History / Political Science	(3)
Philosophy	(3)

A 3-unit history class in a non-Western focus and a 3-unit course in Contemporary U.S. History or Political Science are recommended.

*One course may satisfy Humanities requirements in the College General Studies Curriculum.

Total units in the Liberal Arts Program: 60

BEAT EARTH

VITAMINS

GET THE GREAT

Mathematics

Departmental Affiliation: Physical Science and Math

While offering students an opportunity to study mathematics as part of a liberal education, the mathematics major can also serve as preparation for work in mathematically-based fields such as the computer sciences or statistics, for secondary teaching, or for graduate study.

The B.A. Degree with a Major in Mathematics

Computer Science Emphasis

Preparation:

MTH 3AB	Mathematical Analysis I	(4,4)
MTH 4AB	Mathematical Analysis II	(3,3)
MTH 9	Introduction to Computer Processes	(3)
MTH 20	Programming	(3)

Students who can demonstrate their proficiency in any of the above courses may enroll in the next course in the sequence. Students who need further preparation in algebra and elementary functions should take MTH 1, College Algebra, before MTH 3A.

Requirements:

MTH 102	Advanced Calculus	(3)
MTH 103	Linear Algebra	(3)
MTH 105	Complex Analysis	(3)
MTH 111	Abstract Algebra	(3)
MTH 113	Probability and Statistics	(3)
MTH 128AB	Numerical Analysis	(3,3)
MTH 135	Structure of Programming Languages	(3)

Total units in Mathematics: 44

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirement.

The Minor in Computer Programming

Preparation:

MTH 3AB	Mathematical Analysis I	(4,4)
MTH 4A	Mathematical Analysis II	(3)
MTH 9	Introduction to Computer Processes	(3)
MTH 20	Programming	(3)

Requirements:

Two upper division courses chosen in consultation with the student's adviser from the following:

MTH 113	Probability and Statistics	(3)
MTH 128AB	Numerical Analysis	(3,3)
MTH 135	Structure of Programming Languages	(3)

The Minor in Mathematics

A minimum of seven courses including the following:

MTH 3AB	Mathematical Analysis I	(4,4)
MTH 4A	Mathematical Analysis II	(3)
MTH 111	Abstract Algebra	(3)

Three additional upper division courses chosen in consultation with the department. (9)

Introduction to Computer Programming

Students who want an introduction to the computer should take some or all of the following courses:

MTH 9	Introduction to Computer Processes (no prerequisite)	(3)
MTH 20	Programming (prerequisite: MTH 9)	(3)
MTH 135	Structure of Programming Languages (prerequisite: MTH 4A, MTH 120)	(3)

MTH 1 College Algebra and Trigonometry (3)

Set language and notation, real and complex numbers, fundamental operations, inequalities; polynomial, exponential, and trigonometric functions, and their graphs; De Moivre's theorem, permutations, combinations, binomial theorem and mathematical induction. Note: This course is a prerequisite to CHE 1A and/or MTH 3A on the Chemistry and the Mathematics Placement Examinations. GS-II,IIIIE

MTH 3AB Mathematics Analysis I (4,4)

Differential and integral calculus of elementary functions with associated analytic geometry; techniques and applications. Prerequisite: Three to four years of high school mathematics including trigonometry and satisfactory score on Mathematics Placement Examination or grade of C or better in MTH 1.GS-II,IIIIE

MTH 2X Fundamentals of Algebra (3)

Fundamentals of algebra: real numbers and their properties, exponents and radicals, fundamental operations, polynomials, factoring, rational expressions, linear and quadratic equations and inequalities, systems of equations. Admission by placement examination. Credit does not apply to the baccalaureate degree.

MTH 4AB Mathematical Analysis II (3,3)

Improper integrals, polar and spherical coordinates with applications, series, multivariable calculus, elementary differential equations. Prerequisite: MTH 3B.

MTH 9 Introduction to Computer Processes (3)

Description of the computer, its function and use in society; programming using the BASIC language including loops, subscripted variables, functions, and string manipulation. GS-II,IIIIE

MTH 9H Introduction to Computer Processes: Honors Section (3)

An introduction to computer processes: description of the computer and its logical structure and functioning; the data processing cycle using the UNIX operating system for word processing and for the execution of FORTRAN language programs. *Open only to students admitted to the Honors Program.* GS-II, IIIE

MTH 10 Mathematical Ideas (3)

Topics in mathematics chosen to illustrate the mathematical way of thinking and to acquaint liberal arts students with mathematics as an art and science. This course is intended primarily for non-mathematically oriented students; those having a strong background in mathematics need the consent of the instructor before enrolling.

GS-II, IIIE

MTH 20 Programming (3)

Advanced programming in BASIC including matrix operations, file manipulation, subroutines, and numerical techniques to solve equations. Applications in science, mathematics, and business. *Prerequisite: MTH 9 and MTH 3A or concurrent enrollment in MTH 3A or consent of the instructor.* GS-II, IIIE

MTH 28 Mathematical Analysis for the Business Student (3)

Topics in Algebra including solutions of systems of equations and inequalities; exponential and logarithmic functions; linear programming and mathematics of finance. Emphasis is placed on the application of mathematics to problems in business.

MTH 38 Elements of Probability and Statistics (3)

Elementary probability theory, properties of distributions, sampling, estimation, hypothesis testing, correlation. Not open for upper division credit to mathematics majors. GS-II, IIIE

MTH 50 Modern Mathematics (3)

Sets, numeration systems, properties of integers, rational and real numbers, elementary number theory. This course is intended primarily for elementary teachers. Can be taken for professional credit. GS II, IIIE

MTH 51 Modern Geometry (3)

Intuitive geometry of lines, planes, and space; congruence, similarity, measurement, geometric constructions; elements of spherical and coordinate geometry. Can be taken for professional credit.

MTH 54 Elementary Number Systems and Geometry (3)

Sets, numeration systems, properties of integers, rational and real numbers, elementary number theory, intuitive geometry of lines, planes, and space. This course is intended primarily for elementary teachers. *Can be taken for professional credit.* GS-II, IIIE

***MTH 99 Special Studies in Mathematics (1-3)**

Independent or group studies in mathematics. Course may be repeated for credit. *Prerequisite: Approval of the department and consent of the instructor.*

Any upper division Math course will require a minimum grade of C in prerequisite courses.

MTH 100 Topics in Geometry (3)

Euclidean geometry from a modern axiomatic viewpoint, introduction to non-euclidean geometry. This course is intended to meet the needs of prospective secondary teachers. *Prerequisite: MTH 3B.*

MTH 101 Topics in Geometry (3)

Geometric transformations, motions, similarities, affine, projective and topological transformations; groups, invariants, systems of geometry obtained from transformations, introduction to projective geometry. *Prerequisite: MTH 3B.*

MTH 102 Advanced Calculus (3)

Set theory, real numbers and their topology, limits, continuity, differentiation and integration theory. *Prerequisite: MTH 4B.*

MTH 103 Linear Algebra (3)

Vectors and vector spaces, linear transformations and matrices, determinants, eigenvalues and eigenvectors. *Prerequisite: MTH 3B.*

MTH 105 Complex Analysis (3)

Complex numbers and functions, analytic functions, integration, conformal mapping. *Prerequisite: MTH 4B.*

MTH 111 Abstract Algebra (3)
Numbers and number systems, groups, rings; fields; homomorphism and isomorphism theorems. *Prerequisite: MTH 4B or consent of instructor.*

MTH 113 Probability and Statistics (3)

Probability as a mathematical system, random variables and their distributions, limit theorems, statistical applications, hypotheses testing. *Prerequisite: MTH 4B or consent of instructor.*

MTH 119 Differential Equations (3)

Linear equations, series solutions, Laplace transforms, numerical methods, existence and uniqueness of solutions. *Prerequisite: MTH 4B.*

MTH 128AB Numerical Analysis (3,3)

Solutions of equations, interpolation, numerical differentiation and integration, numerical solutions of ordinary differential equations and systems of linear differential

equations, least squares approximations and orthogonal polynomials, eigenvalues and eigenvectors of matrices, non-linear systems of equations and numerical treatment of partial differential equations. Term project. *Prerequisites: MTH 4B, MTH 20.*

MTH 135 Structure of Programming Languages (3)

Basic concepts of syntax and semantics. Comparison of syntax and semantics of selected programming languages. Language design. Programming projects in various languages. *Prerequisites: MTH 4A, MTH 20.*

MTH 190 Internship in Computer Sciences (3)

An intensive work study program for qualified upper division students. The student is responsible for setting up the internship in conjunction with the appropriate faculty and the office of Career Planning and Placement. This must be approved by the department chairman.

Music

The music major is a program combining individual instruction, solo and ensemble performance, with classroom study, discussions and lectures, all carefully designed to provide a wide range of musical learning and experience.

Two degrees are offered. The B.A. degree offers preparation in music for students desiring a broad knowledge of music for teaching, research, performance, personal enjoyment, or cultural development. The total curriculum includes two-thirds of the studies in the liberal arts, and one-third in music.

The B.M. degree is a thorough basic preparation for students intending a career in music as performing artists, conductors, composers, scholars, teachers or church musicians. The total curriculum includes one-third of the studies in the liberal arts, and two-thirds in music.

In addition, the Music Department offers a Music Ministry Certificate program for persons wishing to pursue music leadership roles in parishes. Essentially a two year program, it serves as the basis for baccalaureate degree, should the student wish to complete such a degree.

The music minor is available to interested students by completing at least 21 units as indicated. Students interested in music as an elective may participate in various offerings of the Music Department including performance classes, individual instruction, or in the study of music as an art.

Requirements for Admission as a Music Major or Minor:

1. Audition showing potential in the field of performance.
2. Theory examination for placement purposes.
3. Interview with designated department personnel.
4. Recommendations which indicate potential for music.

The B.A. Degree with a Major in Music

Performance Emphasis

Prerequisites:

See requirements for admission as a music major or minor.

Core Courses:

MUS 1AB	Musicianship I	(3,1)
MUS 1CD	Musicianship I	(3,1)

MUS 8	Piano Class	(1)
	Required of all but keyboard-majors. Every student must pass the piano proficiency examination before graduation. Only three units of piano class may be taken for credit.	
MUS 15	Applied Music — every semester	
MUS 24AB	Surveys of the History and Literature of Music	(3,3)
MUS 133A	Music Analysis	(2)
MUS 139 or	Instrumental Conducting	
MUS 140	Choral Techniques	(2)

Requirements:

MUS 115	Applied Music — every semester. Half-length recital	
MUS 151	Pedagogy	(2)
	For the special needs of the individual, the department may substitute other courses for these music requirements. See also additional requirements for the B.A. and B.M. degrees.	

Total units in music: 36

Plus general studies requirements and electives totaling 129 units, including foreign language requirement.

The B.A. Degree with a Major in Music**Music Education Emphasis****Prerequisites:**

See requirements for admission for a music major or minor.

Core Courses:

MUS 1AB	Musicianship I	(3,1)
MUS 1CD	Musicianship I	(3,1)
MUS 8	Piano Class	(1)
	Required of all but keyboard majors. Every student must pass the piano proficiency examination before graduation. Only three units of piano class may be taken for credit.	
MUS 15	Applied Music — At least one unit every semester	
MUS 24AB	Surveys of the History and Literature of Music	(3,3)
MUS 133A	Music Analysis	(2)
MUS 139 or	Instrumental Conducting	
MUS 140	Choral Techniques	(2)

Requirements:

MUS 7	Voice Class	(1)
MUS 26	Brass Instruments	(1)
MUS 27	Woodwind Instruments	(1)
MUS 28	Percussion Instruments	(1)
MUS 29	String Instruments	(1)
MUS 115	Applied Music — At least one unit every semester	
MUS 147A	Seminar in Music Education	(3)

Recommended Supplementary Courses: Minimum 3 units

MUS 146M	Special Projects in Music	(1-3)
----------	---------------------------	-------

For special needs of the individual, the department may substitute other courses for these music requirements.

See also additional requirements for the B.A. and B.M. degree.

Total units in music: 39

Plus general studies requirements and electives totaling 129 units, including foreign language requirement.

Students planning to apply for a California credential, please see page 114.

The B.A. Degree with a Major in Music**Music Theory Emphasis****Prerequisites:**

See requirements for admission as a music major or minor.

Core Courses:

MUS 1AB	Musicianship I	(3,1)
MUS 1CD	Musicianship I	(3,1)
MUS 8	Piano Class	(1)
	Required of all but keyboard majors. Every student must pass the piano proficiency examination before graduation. Only three units of piano class may be taken for credit.	
MUS 15	Applied Music — At least one unit every semester	
MUS 24AB	Surveys of the History and Literature of Music	(3,3)
MUS 133A	Music Analysis	(2)
MUS 139 or	Instrumental Conducting	
MUS 140	Choral Techniques	(2)

Requirements:

MUS 2AB	Musicianship II	(3,1)
MUS 115	Applied Music — At least one unit every semester	
MUS 134	Orchestration	(2)
MUS 136	Technique of Arranging	(2)

For the special needs of the individual, the department may substitute other courses for these music requirements. See also additional requirements for the B.A. and B.M. degrees.

Total units in music: approximately 36

Plus general studies requirements and electives totaling 129 units, including foreign language requirement.

The Bachelor of Music Degree**Church Music Emphasis****Prerequisites:**

See requirements for admission as a music major or minor.

Core Courses:

MUS 1AB	Musicianship I	(3,1)
MUS 1CD	Musicianship I	(3,1)
MUS 2AB	Musicianship II	(3,1)
MUS 2CD	Musicianship II	(3,1)
MUS 5	Music Literature Repertoire (2 semesters)	(.5,.5)
MUS 8	Piano Class Required of all but keyboard majors. Every student must pass the piano proficiency examination before graduation. Only three units of piano class may be taken for credit.	(1)
MUS 15	Applied Music — each term	
MUS 24AB	Surveys of the History and Literature of Music	(3,3)
MUS 105	Music Literature Repertoire (2 semesters)	(.5,.5)
MUS 132	Counterpoint	(2)
MUS 133AB	Music Analysis	(2,2)
MUS 134	Orchestration	(2)
MUS 139	Instrumental Conducting	(2)
MUS 140	Choral Techniques	(2)
MUS 141, 142, 143	History and Literature of Music. Any two courses	(3,3)

Requirements:

MUS 10	Music and Worship	(3)
MUS 115	Applied Music — each term	
MUS 112	Music Ministry	(3)
MUS 136	Technique of Arranging	(2)
MUS 146D	Special Project in Music	(3)
At least two semesters of a second instrument or voice.		(1,1)

Strongly recommended:

MUS 147A	Seminar in Music Education	(2)
----------	----------------------------	-----

For the special needs of the individual, the department may substitute other courses to fulfill music requirements. See also additional requirements for the B.A. and B.M. degrees.

Total units in music: 81

Plus general studies requirements and electives totaling 129 semester units.

The Bachelor of Music Degree**Music Education Emphasis****Prerequisites:**

See requirements for admission as a music major or minor.

Core Courses:

MUS 1AB	Musicianship I	(3,1)
MUS 1CD	Musicianship I	(3,1)
MUS 2AB	Musicianship II	(3,1)
MUS 2CD	Musicianship II	(3,1)
MUS 5	Music Literature Repertoire (2 semesters)	(.5,.5)
MUS 8	Piano Class	(1)
	Required of all but keyboard majors. Every student must pass the piano proficiency examination before graduation. Only three units of piano class may be taken for credit.	
MUS 15	Applied Music — each term	
MUS 24AB	Surveys of the History and Literature of Music	(3,3)
MUS 105	Music Literature Repertoire (2 semesters)	(.5,.5)
MUS 132	Counterpoint	(2)
MUS 133AB	Music Analysis	(2,2)
MUS 134	Orchestration	(2)
MUS 139	Instrumental Conducting	(2)

MUS 140	Choral Techniques	(2)
MUS 141, 142, 143	History and Literature of Music. Any two courses	(3,3)

Requirements:

MUS 7	Voice Class**	(1)
MUS 26	Brass Instruments	(1)
MUS 27	Woodwind Instruments	(1)
MUS 28	Percussion Instruments	(1)
MUS 29	String Instruments	(1)
MUS 114	Music in Latin America	(3)
MUS 115	Applied Music : each term	
MUS 136	Technique of Arranging	(2)
MUS 146M	Special Projects in Music	(1)
MUS 146P	Special Projects in Music	(1)
MUS 147A	Seminar in Music Education	(2)
MUS 147B	Seminar in Music Education	
OR		
MUS 147C	Seminar in Music Education	(3)

**If voice is not principal instrument. Every student must pass a proficiency test in voice if this is not his or her principal instrument.

Strongly recommended:

MUS 10	Music and Worship	(3)
--------	-------------------	-----

For the special needs of the individual, the department may substitute other courses to fulfill music requirements. See also additional requirements for the B.A. and B.M. degrees.

Total units in music: 82

Plus general studies requirements and electives totaling 129 semester units. Students planning to apply for a California credential, please see page 114.

The Bachelor of Music Degree**Performance Emphasis****Prerequisites:**

See requirements for admission as a music major or minor

Core Courses:

MUS 1AB	Musicianship I	(3,1)
MUS 1CD	Musicianship I	(3,1)
MUS 2AB	Musicianship II	(3,1)
MUS 2CD	Musicianship II	(3,1)
MUS 5	Music Literature Repertoire (2 semesters)	(.5,.5)
MUS 8	Piano Class	(1)

Required of all but keyboard majors.
Every student must pass the piano proficiency examination before graduation.
Only three units of piano class may be taken for credit.

MUS 15	Applied Music — each term	
MUS 24AB	Surveys of the History and Literature of Music	(3,3)
MUS 105	Music Literature Repertoire (2 semesters)	(.5,.5)
MUS 132	Counterpoint	(2)
MUS 133AB	Music Analysis	(2,2)
MUS 134	Orchestration	(2)
MUS 139	Instrumental Conducting	(2)
MUS 140	Choral Techniques	(2)
MUS 141, 142, 143	History and Literature of Music. Any two courses	(3,3)

Requirements:

MUS 115	Applied Music — each term	
MUS 122	Ensemble/Coaching	(1)
MUS 146A	Special Projects in Music or	
MUS 146B	Special Projects in Music	(3)
MUS 151	Pedagogy	(2)

Voice students study two languages. One course in diction is recommended.

Half-length junior recital

Full-length senior recital

For the special needs of the individual, the department may substitute other courses to fulfill music requirements. See also additional requirements for the B.A. and B.M. degrees.

Total units in Music: 81

Plus general studies requirements and electives totaling 129 semester units.

The Bachelor of Music Degree

Theory and Composition Emphasis

Prerequisites:

See requirements for admission as a music major or minor

Core Courses:

MUS 1AB	Musicianship I	(3,1)
MUS 1CD	Musicianship I	(3,1)
MUS 2AB	Musicianship II	(3,1)

MUS 2CD	Musicianship II	(3,1)
MUS 5	Music Literature (2 semesters)	(.5,.5)
MUS 8	Piano Class	(1)
	Required of all but keyboard majors.	
	Every student must pass the piano proficiency examination before graduation.	
	Only three units of piano class may be taken for credit.	
MUS 15	Applied Music — each term	
MUS 24AB	Surveys of the History and Literature of Music	(3,3)
MUS 105	Music Literature Repertoire (2 semesters)	(.5,.5)
MUS 132	Counterpoint	(2)
MUS 133AB	Music Analysis	(2,2)
MUS 134	Orchestration	(2)
MUS 139	Instrumental Conducting	(2)
MUS 140	Choral Techniques	(2)
MUS 141, 142	History and Literature of Music. Any two courses	(3,3)

Requirements:

MUS 26	Brass Instruments	(1)
MUS 27	Woodwind Instruments	(1)
MUS 28	Percussion Instruments	(1)
MUS 29	String Instruments	(1)
MUS 115	Applied Music — each term	
MUS 135	Composition each term plus recital	(2,2,2,2)
MUS 136	Technique of Arranging	(2)
MUS 146N	Special Projects in Music	(3)

For the special needs of the individual, the department may substitute other courses to fulfill music requirements. See also additional requirements for the B.A. and B.M. degrees.

Total units in music: 81

Plus general studies requirements and electives totaling 129 semester units.

Additional requirements for the B.A. and B.M. degrees:

1. Evidence of academic and musical maturity prior to admission to junior standing.
 2. Performance in student recitals, and jury examinations in major instrument.
- For the B.M. Degree: participation in an ensemble every semester.

The Music Ministry Certificate Program

MUS 1AB	Musicianship I	(3,1)
MUS 1CD	Musicianship I	(3,1)
MUS 2AB	Musicianship II	(3,1)
MUS 2CD	Musicianship II	(3,1)
MUS 10	Music and Worship	(3)

MUS 13	Applied Music — (Secondary Instrument) — two semesters	
MUS 15	Applied Music — (Primary Instrument) — four semesters	
MUS 24AB	Surveys of Music History and Literature	(3,3)
MUS 112	Music Ministry	(3)
MUS 140A	Choral Techniques Ensemble : four semesters	(2)
	Electives in Church Music	(2-8)

Strongly recommended:

MUS 147A	Seminar in Music Education	(2)
----------	----------------------------	-----

The Minor in Music**Prerequisites:**

See requirements for admission as a music major or minor

Requirements:

A minimum of 21 units including:

MUS 1AB	Musicianship I	(3,1)
MUS 1CD	Musicianship II	(3,1)
MUS 6	The Fine Arts: Music	
or		
MUS 24A or B	Surveys of the History and Literature of Music	(3)

MUS 1AB;CD Musicianship I

(3,1;3,1)

(Harmony — 3; Solfege — 1) Lecture and laboratory, five hours each week for two semesters. A functional study of the theoretical aspects of music, including scales, modes, intervals, two- and three-part counterpoint, and elements of harmony up to the chord of the seventh. Development of aural, visual, singing, writing and playing skills in notation, scales, modes, rhythm, and melodic and harmonic intervals.

MUS 2AB;CD Musicianship II

(3,1;3,1)

(Harmony — 3; Solfege — 1) Lecture and laboratory, five hours each week for two semesters. Continuation of Musicianship I, including ninth, eleventh, and thirteenth chords, chromatic harmony and modulation. Contemporary techniques in harmony, rhythm, melody, counterpoint and form, including the 12-tone technique, chance and

electronic music. Development of aural, visual, singing, writing, and playing skills in compound intervals, chromatic and atonal melodies, chromatic harmonies, modulation, and more complex meters and rhythms to include twentieth century techniques.

MUS 4 Guitar Class

(1)

Class instruction in the basic technique and performance of the guitar, development of music reading skills and appropriate repertoire. Students must provide their own instruments.

MUS 5 Music Literature**Repertoire**

(5)

Study of the masterpieces of music through performances, concert attendance, and lectures. Required of all first year music majors.

MUS 6 The Fine Arts: Music (3)
 Beginning with a brief introduction to the world and language of the fine arts, this course explores the art of music in order to heighten awareness, understanding and appreciation of this art. Emphasis on the stylistic development of music as it reflects the times and cultures from antiquity to the present. Designed for non-music majors.
GS-IIIA

MUS 7 Voice Class (1)
 Study of fundamental techniques of breath control, tone production, diction, and interpretation. Development of appropriate repertoire. Open to both music (other than voice major) and non-music majors. May be repeated for credit.

MUS 8 Piano Class (1)
 Class instruction in the development of fundamental keyboard skills. Study of piano literature of varying styles on a beginning and intermediate level.

MUS 9 Organ Class (1)
 Class instruction in fundamental techniques, registration and performance. *Prerequisite: Sufficient piano technique to play Bach Two-Part Inventions and easier Mozart and Beethoven Sonatas. May be repeated for credit.*

†MUS 10 Music and Worship (3)
 A survey of the history of ritual, and the role music has played in the major liturgies throughout the centuries, with emphasis on the present.

***MUS 13 Applied Music (1-3)**
 Private instruction — instrumental or vocal. For non-music majors. May be repeated for credit.

***MUS 15 Applied Music (1-3)**
 Private instruction — instrumental or vocal. For music majors. May be repeated for credit.

***MUS 18 Jazz Ensemble (1)**
 Study and performance of jazz literature of various styles. May be repeated for credit.

***MUS 19 Mount Chorus (1)**
 Study and performance of masterpieces of choral literature from all periods for women. Open to all college students, members of the community, and to qualified high

school students with senior standing. May be repeated for credit.

***MUS 21 Mount Singers (1)**
 Study and performance of masterpieces of choral literature from all periods. Open to men and women college students, members of the community, and to qualified high school students with senior standing by audition. May be repeated for credit.

***MUS 23 Chamber Music (1)**
 Study and performance of chamber music for various instrumental and/or vocal combinations. May be repeated for credit. *Prerequisites: Consent of the instructor.*

MUS 24AB Surveys of the History and Literature of Music (3,3)
 Development of compositional forms and styles viewed from the historical perspective. A. Antiquity to the year 1750. B. 1750 to the present.

†MUS 26 Brass Instruments: Introductory Techniques (1)

Elementary instruction and techniques, care of instruments, and survey of methods.

‡MUS 27 Woodwind Instruments: Introductory Techniques (1)

Elementary instruction and techniques, care of instruments, and survey of methods.

‡MUS 28 Percussion Instruments: Introductory Techniques (1)

Elementary instruction and techniques, care of instruments, and survey of methods.

‡MUS 29 String Instruments: Introductory Techniques (1)

Elementary instruction and techniques, care of instruments, and survey of methods.

‡MUS 31 Music and Movement for the Young Child (3)

An introduction to the conceptual structure of music and the initial preparation for the instruction of children eight years and younger. Emphasis is placed on rhythm, melody, style, movement, use of instruments, and the relation of music to the different stages of child development.

MUS 94 Study/Travel (1-6)**MUS 105 Music Literature Repertoire (.5)**

Study of the masterpieces of music through performance, concert attendance, and occasional lectures on special subjects and topics of current interest. Required for two semesters of all upper division B.M. majors.

†MUS 112 Music Ministry (3)

An examination of the role and responsibility of the music minister within the parish structure. Study of legislation governing the use of music in the church as well as administrative practices conducive to a successful music program.

MUS 114 Music in Latin American Society (3)

Study of the folk, popular, and art music tradition of Latin America as a unique manifestation of the rich culture of this region. Open to non-majors. *Prerequisite: MUS 6 or consent of the Instructor. GS-IIIA*

MUS 122 Ensemble/Coaching (1)

Study and performance of significant keyboard and vocal ensembles. May be repeated for credit. *Prerequisite: Consent of instructor.*

MUS 125 Music Masterpieces (3)

Study of selected masterpieces of music in historical context. For the non-music major. *Prerequisite: MUS 6 or consent of instructor. GS-IIIA*

†MUS 130 Creative Music Experience (3)

An introduction to the conceptual structure of music. Emphasis is placed on rhythm, melody, creativity, style, and harmony. This course serves as basic preparation for the elementary and intermediate school instructor. It includes instruction on melodic and percussion instruments, observation and participation, and programmed instruction in fundamentals. *Prerequisite: MUS 6 or adequate background.*

†MUS 132 Counterpoint (2)

Writing and analysis of pieces in eighteenth-century style for two and three voices.

MUS 133AB Music Analysis (2,2)

A. A study of the forms found in Classical period music: motive, phrase, period, song

form, rondo, theme and variation, and sonata.

B. A study of the forms found in the music of the Renaissance, Baroque, Romantic, and Contemporary periods.

†MUS 134 Orchestration (2)

Designed to provide facility in writing for various instrumental combinations. Techniques, analysis and use of the orchestra by the composers of the 18th, 19th, and 20th centuries. Includes ranges, tonal possibilities, technical limitations.

MUS 135 Composition (2)

Analysis and composition of music in various styles, forms, and instrumental and/or vocal combinations. May be repeated for credit.

†MUS 136 Technique of Arranging (2)

Study of arranging techniques for various choral and instrumental ensembles, including accompaniments, descants, special effects, choral style voicing, contrapuntal, and mixed voicing. *Prerequisites: MUS 1ABCD, 132, 133A.*

MUS 137 Diction for Singers (2-3)

The fundamentals of phonetics and sound production in Italian, French, and German as applied to singing.

†MUS 139 Instrumental Conducting (2)

Study of baton technique, score reading, and interpretation of orchestral literature.

†MUS 140 Choral Techniques (2)

Study of baton technique, score reading, and interpretation of choral literature of various styles.

MUS 141 Historical Period Studies (3)

Chronological development of musical styles and forms in a selected period of music history. Survey of significant composers, performance practices, and the history of theoretical and notational concepts. Open to non-majors with consent of the instructor. *GS-IIIA*

MUS 142 Genre Studies (3)

Historical survey of a single genre selected from sacred (the motet, the oratorio, the Mass) or secular (the symphony, chamber

music, opera, keyboard literature, the concerto) music. Open to non-majors with consent of the instructor. GS-IIIA

MUS 143 Composer Studies (3)

Survey of the life and works of a single composer, viewed within a historical and stylistic context. Consideration of musical personality, of special contributions, and of the relationship between biography and creativity. Open to non-majors with consent of the instructor. GS-IIIA

MUS 146 Special Projects in Music (1-3)

- A. Vocal Literature
- B. Instrumental Literature
- C. Music History and Literature
- D. Church Music
- E. Theory and Composition
- F. Music Education
- G. Musicianship
- H. Chamber Music
- I. Choral Music
- J. Music Therapy
- K. Conducting
- L. Special Subject
- M. Music in Non-Western Cultures
- N. Electronic Media
- O. Music of Mexico
- P. Music of American Indian

MUS 147ABC Seminar in Music Education (2,3,3)

Overview of the organization of music in the schools. Scheduling, length, and content of music offerings. Consideration of general music classes, chorus, glee clubs, orchestras, bands, ensembles, theory, music literature, and humanities. Observation and some supervised teaching.

- A. Emphasis on the total school music program.

B. Emphasis on the Elementary School music program.

C. Emphasis on the Secondary School music program.

MUS 148 Church Music Literature (1-3)

Survey of repertory for choir, organ, cantor, folk music groups; study of psalmody, Mass settings, acclamations, hymns throughout history, with emphasis on the present.

MUS 150 Accompanying (1)

Study of the art of accompanying instrumentalists and vocalists as soloists and in small and large ensembles. May be repeated for credit.

MUS 151ABC Pedagogy: Principles and Methods (2,2,2)

Analysis and comparison of various procedures for beginning and intermediate instruction. Approaches to the art of teaching. Review of materials. Guided teaching incorporated.

- A. Keyboard
- B. Vocal
- C. Instrumental

MUS 152 Service Playing (1-2)

Study of the principles of effective hymn playing, and accompaniment of choir, cantor, congregation. Further study of improvisation and transposition.

MUS 164 Music and Life (3)

Music, as it contributes to the quality of life and continued personal growth of the aging adult. *Prerequisite: MUS 6.*

MUS 190 Workshop (1-3)

May be repeated for credit.

Nursing

The college offers a career mobility option in nursing whereby the student may select an Associate in Arts or a Baccalaureate degree with a major in nursing.

Philosophy

Mount St. Mary's College is an academic community committed to continuing exploration of our relationship to God, to other persons, and to nature. This exploration takes the form of programs devoted to excellence in the liberal arts and career preparation with a special focus on educating women for participation and leadership in our society and our time. The Catholic tradition of the college offers a value orientation for the student's personal and professional life, giving the motivation for a Christian commitment that views professional life as service.

Nursing is a service to humanity. It is a profession committed to the promotion and restoration of health, the prevention of illness of individuals, families, groups, and communities. It is the science whose main concern involves the life processes that positively affect the health status and integrity of persons, families, and groups. These life processes involve physiological, psychological, sociological, and spiritual life components. A focus on the interaction of these components delineates nursing science.

The Department of Nursing functions within the philosophy of the college and has developed a curriculum on the Roy Adaptation Model of Nursing. The Adaptation Model recognizes that a person is a bio-psycho-social-spiritual being in constant interaction with a dynamic and complex world. Humans possess both innate and acquired mechanisms which, in health, enable coping with the complex internal and external environment. In times of stress, these coping mechanisms may be disrupted. The ability to adapt to the internal and external environment at this time affects the person's position on the health-illness continuum. The promotion of adaptation in the direction of health depends upon an educational program which prepares the student to understand the person as a total being, to recognize and respect human values, and to utilize a scientific process within the framework of the adaptation model.

Nursing interventions are directed toward promoting the person's adaptation. The process involves:

- 1) assessing the person's position on the health-illness continuum, the forces influencing that position, and the effectiveness of coping mechanisms;
- 2) intervening by promoting the person's adaptation by modifying the stimuli or by increasing response and coping potential;
- 3) evaluating the person's position of the health-illness continuum to reaffirm and/or modify interventions.

Each student enters the nursing program with a unique background and potential for growth. The extent to which this distinct potential is achieved is determined by behavioral changes observed and evaluated in the context of the expected outcomes of the learning process.

The faculty believe the program offers different levels of competencies for students to achieve their distinct potential by offering options to select entry and exit levels in order to promote career mobility.

Objectives: Associate in Arts

At the completion of the Level II nursing courses, the student will be able to function as a registered nurse. The student will

- 1) utilize the Roy Adaptation Model to:
 - a) recognize, assess, and define a person's adaptive level, coping effectiveness, and consequent position on the health-illness continuum;
 - b) observe, assess, and validate the factors influencing the person's adaptive level and coping effectiveness;
 - c) define patient/client goals based upon a clear analysis and synthesis of relevant theoretical and observational data;
 - d) define and perform those nursing interventions which will effect the patient/client goals;
 - e) evaluate the consequences of nursing intervention in terms of the person's behavioral change and the achievement of both patient/client and nursing goals, and then modify these nursing actions if desired adaptive outcomes are not achieved;
- 2) utilize knowledge of health/illness (normal/disruption) as it pertains to patient/client care;
- 3) demonstrate competency in common nursing procedures;
- 4) practice basic communication skills;
- 5) apply principles of the teaching/learning process;
- 6) function effectively as a member of a health care team;
- 7) utilize basic leadership skills in practice based on team leadership and primary nursing;
- 8) utilize existing research to improve patient care;
- 9) make judgements based on moral and ethical principles;
- 10) continue to enhance personal and professional growth.

Students seeking the Associate in Arts degree option should seek advisement regarding General Studies requirements.

Objectives: Baccalaureate

At the completion of Level III, the student will have met the objectives at Level II and the following:

- 1) utilize advanced leadership skills based on principles of management, change process, and group process;
- 2) utilize management skills related to groups in health care settings;
- 3) recognize, assess, and define quantitative and qualitative differences in the adaptation process;
- 4) function in Community Health agencies;
- 5) apply research findings to guide practice in health care management;
- 6) participate in the process of change utilizing moral and ethical judgments.

Upon the completion of the junior year, the student is eligible to take the California State Board examination for registered nurse (R.N.) licensure. Upon completion of

the senior year, the graduate is qualified for the Public Health Nursing Certificate issued by the California Department.

Majors in Nursing

In addition to meeting the general admission requirements, acceptance into the Department of Nursing is determined by the admission committee of the department. Admission is based upon a consideration of the student's academic achievement and health. There is a formal review of the student's achievement high school record and grade point average, College Entrance Examination scores, previous college experience (if any). In order to be eligible for review, applicants must have achieved a minimum of 2.5 (C+) grade point average in high school and in any previous college experience. Students who intend to major in nursing are advised to take high school chemistry.

LVNs from accredited post-secondary programs who have completed the general studies requirements of the two years may challenge first level nursing courses and move directly into the third year. A non-degree program is available for LVNs who meet the college entrance requirements. After completing 30 units, the student is eligible to take the California State Board examination for the registered nurse (R.N.) licensure but is not a graduate from MSMC. The course NUR 40 is taken prior to beginning the third year courses.

Registered nurses enrolled in the baccalaureate program meet the same requirements as those for the basic nursing students. Provision is made for R.N. students to receive credit for nursing courses. One course, NUR 100, Introduction to Professional Nursing, is ordinarily taken in the summer preceding the senior year.

The faculty of the Department of Nursing has the right and the responsibility for judging and evaluating the quality of the student's achievement, both in the mastery of theoretical content and in clinical competence. Mid-term warning, probation, or disqualification are used when deemed necessary. Disqualification from the nursing program will occur when a student receives a D or F in a nursing course or a course required by the department, i.e., Anatomy and Physiology, Microbiology, Nutrition, Sociology, and Psychology. If a student's level of clinical practice is unsatisfactory or unsafe, the student may be disqualified before the end of the semester. Reinstate-ment may be granted by special action of the admission committee of the Nursing Department.

Credit for the mathematics requirement General Studies III E is earned by successful completion (85%) of a departmental examination in mathematics and must be completed before admission to nursing courses.

Departmental policy statements regarding grading, mathematical competence, incompletes, probation, absences, disqualification, and readmission to the program are provided to the student at the beginning of the nursing major.

During the clinical portion of the program, students must be full-time and must carry malpractice insurance obtained through the Student Nurse Association of California.

Nursing classes are held at multiple sites and transportation for these classes is essential.

Information on all policies and procedures can be obtained from the nursing department admission officer.

Certain health requirements must be met prior to clinical experience.

Nursing Department Health Policies for Students

Nursing focuses on prevention and promotion of health. Students admitted to and progressing through Mount St. Mary's College Nursing Program are strongly encouraged to engage in health practices which model those they are teaching to patients. Some examples would include the following practices: adequate rest and relaxation, daily exercise, weight appropriate to height, nutritious and balanced eating patterns, and defined ways to manage stress.

Prior to enrollment in the first nursing course, students will be informed of the nursing department health policies.

Every student admitted to the nursing courses must have completed the following health data; clinical agencies will not accept a student who has not met all of the following health requirements:

- 1) past medical history on which the student attests to, by witnessed signature, that her/his physical and emotional health are such as to allow for full participation in both clinical and theoretical components of the nursing curriculum;
- 2) physical examination must be completed by a licensed physician, certified nurse practitioner, or physicians assistant. This completed physical examination is to be sent to the nursing department before May 15 for Fall semester enrollment and by December 15 for Spring semester enrollment;
- 3) visual screening;
- 4) urinalysis;
- 5) Complete Blood Count;
- 6) PPD or Mantoux for Tuberculosis screening (NOT A TINE); OR
- 7) chest x-ray (if PPD/Mantoux is positive then the student must have a chest x-ray);
- 8) positive Rubella Titer (1:8) or Rubella vaccination;
- 9) current immunizations, that is, within 5-10 years;
- 10) current immunizations (must write in month and year)
 - a) polio,
 - b) tetanus,
 - c) diphtheria,
 - d) pertussis,
 - e) measles,
 - f) mumps.
- 11) Clinical agencies may have requirements other than those above. If so, students will be instructed to obtain the necessary tests. (e.g., stool cultures for ova and parasites are required for students in Pediatrics/OB at Cedars-Sinai Hospital).
- 12) If a student's physician would not be able to comply with these health requirements, the physician must submit a written statement to this effect.

Each student must repeat the process of obtaining the above health data annually. The health requirements must be completed by May 15 for enrollment in Fall semester and by December 15 for enrollment in Spring.

Students who develop a health problem should notify their instructor or advisor for guidance, counseling, or referral if necessary.

It is important to know as soon as possible when a student becomes pregnant in order to make certain modifications in clinical assignments and scheduling.

The nursing department has the right to determine those health issues that may interfere with the students's progress in the clinical area.

Nursing Department Curriculum

Freshman Year

*CHE 3	Chemistry	(3)
*BIO 51AB	Anatomy and Physiology	(3)
*PSY 1	General Psychology	(3)
*SOC 5	Sociological Perspectives	(3)
*ENG 1AB	Freshman English	(6)
*PSY 2	Psychology of Communication	(2)
*PHI 21	Moral Values	(2)
*PHI 21	Moral Values	(3)

Total units: 31

Sophomore Year

*NUR 50, 54,60,64	Nursing Lecture	(5-5)
*NUR 51, 53,61,63	Nursing Practicum	(5.5-5.5)
BIO 3	Microbiology	(4)
RST	Religious Studies	(3)
*BIO 112	Nutrition	(3)
PHI/RST	Philosophy or Religious Studies	(3)
	General Studies Elective IIIA	(3)

Total units: 35

Junior Year

*NUR 160,162, 164,166	Nursing Lecture	(5-5)
*NUR 161,163,165,167, 171,173	Nursing Practicum	(5.5-5.5)
*NUR 34	Nursing Issues	(2)
*PHI 168B or *RST 149	Bioethics	
*PSY 168	Ethics of Life and Death	(3)
	Abnormal Psychology	(3)
	General Studies Elective IIIB	(3)
	General Studies Elective IIIC	(3)

Total units: 35

All would be eligible to receive an A.A. degree and to take State Board examination at this level.

Senior Year

*NUR 180	Community Health	(3)
*NUR 181	Community Health Practice	(5.5)
*NUR 182	Leadership/Management	(3)

*NUR 183	Leadership/Management Practicum	(6)
*NUR 138	Research	(1)
PHI/RST	Elective or Research Project Philosophy or Religious Studies	(3) (3)
	General Studies Elective IIIG	(3)

Total units: 29.5

Total units for Bachelor of Science Degree: 130.5

*Courses required by Nursing Department

Prerequisites to beginning nursing courses: Anatomy and Physiology, General Psychology, Developmental Psychology, English, Sociology, and Communication.

NUR 5 Introduction to Roy Adaptation Model (2)

An introduction to the Roy Adaptation Model of Nursing which views the person as a bio-psycho-social spiritual being who copes with stressors during health and illness. Emphasis in this course is on assessment of the adaptation of persons who are well and on identifying the role of the nurse in society. *Prerequisite: PSY 2. B.S. Program.*

NUR 34 Nursing Issues (2)

The focus is on the profession of nursing. Content includes: History of Nursing, Nursing Organizations, Nurse Practice Act, Legal Aspects, Legislation, Health Care Delivery Systems, Application of Nursing Research.

NUR 40 Introduction to Roy Adaptation Model

A course designed for LVN's who meet admission requirements of the department and wish to challenge the first year nursing classes. Course content deals with the Roy Adaptation Model and its application in the clinical setting. Selected experiences in clinical practice are required. Course work is utilized as challenge examinations for receiving credit for NUR 50, 51, 53, 54, 60, 61, 63, 64. This course precedes the sophomore year. Ordinarily offered during summer session. *A.A. Program.*

NUR 50 Adaptation Nursing Theory: Adult (2)

Lecture. Introduces the Roy Adaptation Model of Nursing with emphasis on the physiological mode and normal adult behaviors.

NUR 51 Nursing Practicum: Adult (5.5)

Nursing Skills and Nursing Process with application of concepts related to physiologic mode of adaptation. Focused on patients in hospital setting. *Taken concurrently with NUR 50 and NUR 54.*

NUR 53 Competency Based Skills Lab: Adult

Skills Appropriate to the nursing care of adult hospitalized patients are demonstrated and practiced in Skills Lab. Students will participate and be tested on selected skills. *Taken concurrently with NUR 50 and NUR 54.*

NUR 54 Pathophysiology: Adult (3)

Lecture. Common medical problems are studied as disruptions in the body's structure, function, and regulatory mechanism. Focuses on adult pathophysiology, behavior, diagnosis, various interventions, prevention, and teaching. *Taken concurrently with NUR 50 and NUR 51.*

NUR 60 Adaptation Nursing Theory: Adult (2)

Lecture. Continues the study of the Roy Model with an emphasis on the psycho-social mode of adaptation. *Prerequisites: successful completion of the NUR 50 series and Developmental Psychology.*

NUR 61 Nursing Practicum: Adult (5.5)

Continuation of the Nursing Skills and Process with application of concepts related to both physiologic and psycho-social modes of adaptation. *Taken concurrently with NUR 60 and NUR 64.*

NUR 63 Competency Based Skills Lab: Adult

Continuation of demonstration and practice of skills appropriate to adult hospitalized patients. *Taken concurrently with NUR 60 and NUR 64.*

NUR 64 Pathophysiology: Adult (3)
 Lecture. Continuation of the study of the common medical problems affecting adults. *Taken concurrently with NUR 60 and NUR 61.*

NUR 98 Independent Studies (1-3)
 Independent investigation of significant problems in nursing. *Prerequisite: consent of instructor.*

NUR 99 Special Studies in Nursing (1-3)

Selected problems; offered as a course or seminar on current issues in nursing. *Prerequisite: consent of instructor.*

NUR 100 Introduction to Professional Nursing

A course offered to registered nurses (graduates of accredited hospital diploma or associate degree programs) enrolled in the basic program leading to a baccalaureate degree; an introduction to the concepts underlying the philosophy of nursing, the process of assessment and intervention, and the Roy Adaptation Model as applied to nursing practice. Selected experiences in clinical practice are required. Course work is utilized as challenge examination for receiving credit for NUR 160, 161, 162, 163, 164, 165, 166, 171, 173. This course precedes the senior clinical nursing courses. Ordinarily offered during summer session.

NUR 138 Research in Nursing (1)
 Principles of scientific methods are presented. Emphasis on research process to include designs appropriate for nursing. *Senior standing.*

Prerequisites for courses in the NUR 160 Series: successful completion of the NUR 50, 51, 60, 61, 64, Microbiology, and Nutrition. The NUR 160 courses involve the continued use of the Roy Adaptation Model as a basis for prevention, remedial, rehabilitation, and teaching.

NUR 160 Adaptation Nursing: Childbearing Family (2.5)

Lecture. The focus is the bio-psychosocial impact of health-illness problems related to Childbearing Families. *Taken concurrently with NUR 161.*

NUR 161 Practicum: Childbearing Family (2.5)

Provides clinical experience in prenatal, delivery, and postnatal care, study of the parenting roles, and the health needs of the emerging family groups. *Taken concurrently with NUR 160.*

NUR 162 Adaptation Nursing: Children (2.5)

Lecture. The focus is the bio-psychosocial impact of health-illness problems related to children. *Taken concurrently with NUR 163.*

NUR 163 Practicum: Children (2.5)

Provides clinical experience in the health-illness problems encountered in the care of children and their families. Growth and development from infancy through adolescence in terms of the Adaptation Theory of Nursing. *Taken concurrently with NUR 162.*

NUR 164 Adaptation Nursing: Advanced

Medical/Surgical (2.5)

Lecture. The focus is the bio-psychosocial impact of health-illness problems related to complex episodic medical or surgical disruptions in the adult. Leadership and patient care management included. *Taken concurrently with NUR 165.*

NUR 165 Practicum: Advanced Medical/Surgical (2.5)

Provides clinical experience in the health-illness problems of adult patients with more complex medical or surgical disruptions. *Taken concurrently with NUR 164.*

NUR 166 Adaptation Nursing: Mental Health (2.5)

Lecture. The focus is the bio-psychosocial impact of health-illness problems related to mental health of individuals and groups. *Taken concurrently with NUR 167.*

NUR 167 Practicum: Mental Health (2.5)

Provides clinical experience in the application of the principles and concepts related to psycho-social problems in psychiatric settings. *Taken concurrently with NUR 166.*

NUR 171 Competency Based Skills Lab (.5)

Appropriate to clinical practicum. *Taken with NUR 161 and NUR 163.*

NUR 173 Competency Based Skills Lab (.5)

Appropriate to clinical practicum *Taken with NUR 165 and NUR 167.*

NUR 180 Community Health Nursing (3)

This course presents an introduction to the basic concepts of epidemiology and preventive health. The theory and management of acute communicable disease, substance abuse, gerontology, coping with chronic disease, and long term care and the dying person are discussed and related to agency assessment and resource identification in the community. The history of public health and the interrelationship of Family Theory and Culture to Community Health and evaluation of resources are also presented. *Prerequisite: senior standing.*

NUR 181 Practicum in Community Health Nursing (5.5)

Various clinical agencies are used for the student to apply the principles in NUR 180. *Taken concurrently with NUR 180.*

NUR 182 Leadership/Management in Nursing (3)

Principles of leadership and management will be explored as they apply to various nursing structures. Topics discussed will include assertion, motivation, group organization and communication, change, teaching/learning, budgeting, quality control, and audit criteria. *Taken concurrently with NUR 183. Prerequisite: senior standing.*

NUR 183 Practicum in Management (6)

Various clinical agencies are used where the student will apply the principles in NUR 182. Each student will be assigned a selected clinical preceptor from the agency. *Taken concurrently with NUR 182.*

NUR 198 Independent Studies (1-3)

NUR 301 Continuing Education (1-3)

NUR 302 Inservice Education (1-3)

NUR 303 Workshop in Nursing (1-3)

Philosophy

Philosophy endeavors to discover and evaluate insights into the meaning of persons, knowledge, human thought, nature, values, and one's relationship to oneself, to others, and to the transcendent.

This major serves as an excellent preparation for graduate study or a career in college teaching, law, religious studies, social sciences, or research. Philosophy provides a good foundation for computer work and careers in business or counseling.

The Philosophy department encourages and helps students to arrange double majors, especially with the English, Business, and Religious Studies departments; other double majors with philosophy can be arranged.

The B.A. Degree with a Major in Philosophy

Preparation:

PHI 5	Introduction to Logic	(3)
PHI 15	Challenges in Philosophy	(3)
PHI 21	Moral Values and Ethical Decisions	(3)

Requirements:

At least nine upper division courses including:

I. Two courses in the history of philosophy:

PHI 124 Socrates, Plato, and Aristotle	(3)
PHI 125 Aquinas	(3)
PHI 126 Descartes to Kant	(3)

II. At least one course from each of the following groups:

A. PHI 155 Symbolic Logic	(3)
PHI 158 Scientific Method	(3)
B. PHI 130 Existentialism and Phenomenology	(3)
PHI 134 American Philosophy	(3)
C. PHI 160 Philosophy of Religion	(3)
PHI 170 Social and Political Philosophy	(3)
PHI 172 Marxism	(3)
D. PHI 168A Contemporary Moral Problems	(3)
PHI 168B Bioethics	(3)
E. PHI 150 Metaphysics	(3)
PHI 152 Theory of Knowledge	(3)

III. Two elective courses in Philosophy

Total units in Philosophy: 36

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirement.

The Minor in Philosophy

A minimum of seven courses in philosophy approved by the department of philosophy.

PHI 5 Introduction to Logic (3)

An introduction to the structures of deductive and inductive arguments, including the study of the logic of language, informal fallacies, definition, truth, validity, and practice in the critical evaluation of arguments occurring in everyday life. **GS-II,VB3**

PHI 15 Challenges in Philosophy (3)

An introduction to the basic problems and methods of philosophic inquiry; philosophy as the means for addressing fundamental questions about the meaning of human existence. **GS-VB1**

PHI 21 Moral Values and Ethical Decisions (3)

An examination of persons as free and responsible agents, the decision-making process concerning moral problems, and various philosophical theories of morality and their implications. **GS-VB2**

***PHI 24 Socrates, Plato, and Aristotle (3)**

An introduction to the origins of philosophical traditions in the West through study of the lives and major works of Socrates, Plato, and Aristotle. (*Philosophy majors only are to take this course for upper division credit as PHI 124. They will be assigned an additional critical assignment appropriate to a more advanced level of study. This may be in either written or oral form.) **GS-VB1**

PHI 92 Introduction to Business Ethics (3)

A philosophical study of the ethical, social, and legal issues in the conduct of business. Emphasis placed on such topics as the work ethic, corporate responsibility, consumerism, the profit motive, and products liability. The case study method of analysis is used. **GS-VB2**

PHI 95 Special Problems (1-3)

May be repeated for credit. **GS-VB1**

PHI 125 Aquinas (3)

An introduction to the philosophical aspects and the tradition of Aquinas' thought with emphasis on questions of the relation

of faith and reason, the existence of God, human nature, and moral theory. *Prerequisite: one lower division course.* **GS-VB1**

PHI 126 Descartes to Kant (3)

The development of modern views on the relationship of reality and knowledge; the tension of reason and experience in classical modern rationalists and empiricists and the synthesis of Kant. *Prerequisite: one lower division course.* **GS-VB1**

† PHI 130 Existentialism and Phenomenology (3)

A study of existential thinking as both a revolt against philosophical systems which minimize or ignore the importance of the individual and a trend or attitude which focuses on individual existence, one's authentic experience of herself and her situation. A study of phenomenology as both a method of inquiry and a contemporary philosophical movement. *Prerequisite: one lower division course.* **GS-VB1**

‡PHI 134 American Philosophy (3)

A study of the major philosophical ideas that have influenced the development of American intellectual life, civilization, and culture: Transcendentalism, Idealism, and the Pragmatic movement. *Prerequisite: one lower division course.* **GS-VB1**

PHI 150 Metaphysics (3)

A study of philosophical theories of being. Among a cluster of metaphysical concepts to be considered are substance, matter, mind, causation, space and time, and the transcendent. *Prerequisite: one lower division course.* **GS-VB1**

PHI 152 Theory of Knowledge (3)

An examination of the nature and possibility of human knowledge; objectivity, perception, truth, self-knowledge and the knowledge of other minds, the conditions of justified belief. *Prerequisite: one lower division course.* **GS-VB1**

PHI 155 Symbolic Logic (3)

An introduction to a formal system of deductive reasoning, a formal language and rules of derivation for a propositional

calculus and some study of quantification, including a study of the truth-functional nature of a symbolic system, its relationship to ordinary language, and the rules of derivation. *Prerequisite: PHI 5.GS-VB3*

#PHI 158 The Scientific Method (3)
An historical introduction to the philosophy of science from Aristotle to modern times. Topics will include: Aristotle's inductive / deductive method; Copernican vs. Ptolemaic models of the universe; the Newtonian synthesis; Mach's sensationalism; twentieth century positivism. *Prerequisite: one lower division course. GS-VB1*

PHI 160 Philosophy of Religion (3)
An examination of faith, belief, and atheism; the grounds for belief and disbelief in God's existence; religious experience and religious language. *Prerequisite: one lower division course in philosophy and one in religious studies. See RST 198. GS-VA4, VB*

#PHI 168A Contemporary Moral Problems (3)
A problem-oriented study of current moral issues with emphasis on conflicts between personal values and public policy in decision making. *Prerequisite: PHI 21 or an ethical theory course approved by the department. GS-VB2*

PHI 168B Bioethics (3)
A study of the ethical, social, and legal issues in contemporary developments in biology, medicine, and psychology with emphasis on the analysis of case studies in the light of bioethical principles. *Prerequisite: PHI 21 or an ethical theory course approved by the philosophy department. GS-VB2*

#PHI 170 Social and Political Philosophy (3)
An examination of the nature of persons and of society, the nature and justification of government, political rights and political obligation, justice and equality, and the relationship between personal morality and social and political goals. *Prerequisite: one lower division course. GS-VB1*

#PHI 172 Marxism (3)
An examination and comparison of some of the central works of Marx, Engels, Lenin, Mao, and other writers in the Marxist tradition with a focus on the criticisms of capitalism, the revolution to establish communism, and the nature of communist society; consideration will be given to applying these views to some contemporary issues. *Prerequisite: one lower division course. GS-VB1*

#PHI 174 Aesthetics (3)
A philosophical study of art in its various forms and/or theories concerning the nature of art, aesthetic experience, and art criticism. *Prerequisite: one lower division course. GS-VB1*

#PHI 176 Philosophy in Literature (3)
A study of some important themes and philosophical ideas expressed in great works of literature; emphasis upon dominant world views and ethical reactions in representative writings. *Prerequisite: one lower division course. GS-VB1*

PHI 178 Philosophy of Woman (3)
A critical study of traditional and contemporary conceptions of what it is to be a woman. Particular emphasis on the philosophical basis used to discriminate between men and women and to justify the feminist movement as well as the basis for understanding what women might uniquely contribute to society. *Prerequisite: one lower division course. GS-VB1*

PHI 180 Workshop (1-3)
May be repeated for credit.

PHI 195 Directed Reading (1-3)
May be repeated for credit.

PHI 198 Special Problems (1-3)
May be repeated for credit.

PHI 199 Senior Seminar (1-3)
May be repeated for credit.

Physical Education

See Special Programs.

Physical Science

Departmental Affiliation: Physical Science and Math

PHS 1 Scientific Concepts (3)

A course in the basic principles of chemistry and physics with particular emphasis on the application of these principles to contemporary concerns. **GS-II, IIID**

PHS 2 General Physical Science (3)

This course for the non-science major surveys the four main fields of physical science: physics, chemistry, astronomy, and geology. It explores how things work and how we find out. Elementary mathematical concepts are introduced as required. Recommended for students planning to become teachers. **GS-II,IIID**

PHS 4 Elementary Environmental Studies (3)

An introduction to the study of man's physical resources and environment leading to a consideration of the problems of conservation and pollution. *Prerequisite: PHS 1.*
GS-II,IIID

PHS 5 Selected Topics in Physical Science (3)

Prerequisite: PHS 1 or consent of department. **GS-II,IIID**

Physical Therapy

Departmental Affiliation: Biological Sciences

The A.A. Degree Physical Therapist Assistant Program

The Associate in Arts degree program for the Physical Therapist Assistant consists of two academic years and a six week clinical period during the summer between the first and second years. Additional clinical periods are integrated throughout the second year of study.

The educational program is focused on the knowledge and application of biological and physical principles/concepts, the development of physical therapy skills, the discovery of oneself and one's relationship to man and his environment. The core of Human Services courses adds to the third dimension of the total educational program whereby the student will be prepared to begin to understand and to respond to the psychological, emotional, social needs and pressures of patients and their families.

The program is fully accredited by the American Physical Therapy Association. Upon successful completion of the program, the graduate will be eligible to apply for and complete the licensing examination in California and other states.

Requirements for Admission to the Program

In addition to meeting the general admission requirements, acceptance into the Physical Therapist Assistant program may be determined by the departmental admission committee composed of the chairperson, director, and faculty of the Department of Biological Sciences and the Programs in Physical Therapy. Admission is based upon a consideration of the student's high school record and grade point average, College Entrance Examination scores, previous college work (if any), letters of recommendation, interview and evidence of some observational experiences within a physical therapy department.

In order to be eligible for review, applicants must have achieved a minimum of 2.5 (C+) grade point average in high school. The high school transcript must show that the candidate has completed one year in biology with laboratory, and a year of high school algebra. Students who have had previous college experience must also have achieved a 2.5 cumulative grade point average in college work.

The faculty of the Department of Biological Sciences and the Programs in Physical Therapy have the right and responsibility for judging and evaluating the quality of the student's achievement. Grades of C or above must be received in all physical therapy courses and anatomy and physiology. If a student's performance in the clinical setting is unsatisfactory and/or unsafe, the student may be disqualified from the program at the close of the clinical period. In the event of unsatisfactory performance, the student's record is reviewed by the faculty before any final action is taken.

Before matriculating in the program and at the beginning of the second semester, the student must submit a written report of a chest X-ray, updated immunizations (including rubella), and a physical examination.

During the clinical phase of the program, students are required to carry health insurance and malpractice insurance which is obtained through Maginnis and Associates.

The A.A. Degree with a Specialization in Physical Therapist Assistant

Preparation:

ENG 10AB	Communication Skills	(3,3)
	Humanities elective	(3)
SPR 80	Group Experience	(1)
BIO 41AB	Anatomy and Physiology	(4,4)
PHS 1	Scientific Concepts	(3)
HSP 94	Concepts and Issues in Gerontology	(3)
PHI 21	Moral Values and Ethical Decisions	(3)
PSY 1	General Psychology	(3)
RST 78	Death and Dying: Religious Aspects	(3)

Requirements:

PTH 42A	Introduction to Physical Therapy and the Role of the Physical Therapist Assistant	(1)
PTH 42B	Orientation to the Physical Therapy Profession	(1)
PTH 43	Physical Therapy Procedures I	(3)
PTH 44A	Physical Therapy Procedures II	(3)
PTH 44B	Clinical Clerkship	(4)
PTH 45	Physical Therapy Procedures III	(4)
PTH 46A	Physical Therapy Procedures/ Clin. Applic. I	(4)
PTH 46B	Physical Therapy Procedures/ Clin. Applic. II	(1)
PTH 46C	Physical Therapy Procedures/ Clin. Applic. III	(3)
PTH 47A	Clinical Internship I	(4)
PTH 47B	Clinical Internship II	(4)
PTH 49	Pathology of Disease	(2)

Total units in Physical Therapist Assistant Program: 67.

Total units in Human Services Core: 34.

PTH 42A Introduction to Physical Therapy and the Role of the Physical Therapist Assistant (2)

Medical and physical therapy terminology including the basic medical roots, prefixes,

suffixes, combining forms, and abbreviations. Introduction to physical therapy practice and the role of the physical therapist assistant in providing direct patient care. Includes material to enable students to explore their feelings toward the sick and disabled and to gain some insight into the

patient's feelings. Fifty hours of volunteer work in physical therapy setting required during semester unless prior experience can be demonstrated.

PTH 42B Orientation to the Physical Therapy Profession (1)

The role of the physical therapist assistant in relationship to the law and the American Physical Therapy Association; professional ethics.

PTH 43 Physical Therapy Procedures I (3)

Basic principles and techniques of therapeutic massage, intermittent compression, hydrotherapy-physiological effects, indications, and contraindications. Hydrotherapy procedures include hot packs, cold packs, ice massage, whirlpool, hubbard tank, contrast bath, and pool therapy. Also includes a unit on dressings and sterile techniques for burns and open wounds. *Prerequisites: BIO 41A and concurrent enrollment in BIO 41B.*

PTH 44A Physical Therapy Procedures II (3)

Basic therapeutic exercise — principles and procedures. Includes proper patient positioning; passive, active-assistive, active and resistive exercises; patient transfer activities; wheelchair management; and gait training. Basic goniometry, kinesiology principles, posture eval and exercises. Material is correlated with musculoskeletal anatomy. *Prerequisites: BIO 41A and concurrent enrollment in BIO 41B.*

PTH 44B Clinical Clerkship (4)

A six week clinical experience under the guidance and supervision of qualified physical therapists during the summer between the first and second year of study. Learning experiences are focused on the knowledge and skills achieved during the first year. *Prerequisite: Successful completion of all first year courses.*

PTH 45 Physical Therapy Procedures III (4)

The use of heat, light, sound, and electrical currents for their physiological and therapeutic effects. Includes infra-red, ultraviolet, microwave, shortwave diathermy, ultrasound, high and low voltage currents.

Procedures are correlated with clinical pathology of musculoskeletal and neuromuscular conditions. *Prerequisite: Successful completion of all first year courses.*

PTH 46A Physical Therapy Procedures Clinical Application I (4)

Therapeutic exercise with emphasis on application to orthopedic and neurological conditions. Includes the use of equipment in performance of exercise, specific exercise regimens for orthopedic and neurological conditions, and an introduction to facilitation/inhibition techniques. Also includes external bandaging. *Prerequisite: Successful completion of all first year courses.*

PTH 46B Physical Therapy Procedures Clinical Application II (1)

Development of observational skills, tests and measurements, with emphasis on goniometry and gross manual muscle testing used for assessment of patients' progress. Also includes CPR emergency procedures. *Prerequisite: Successful completion of all previous PTA coursework.*

PTH 46C Physical Therapy Procedures Clinical Application III (3)

Therapeutic exercise and other techniques with emphasis on application to cardiopulmonary and selected medical conditions. Includes treatment procedures for the cardiac and respiratory patient. Course will extend over the first three weeks of the semester. *Prerequisite: Successful completion of all previous PTA coursework.*

PTH 47A Clinical Internship 1 (4)

A six week clinical experience under the guidance and supervision of qualified physical therapists during the Spring semester of the second year of study. Learning experiences will provide the student with an opportunity to identify and assume her role on the health care team, and to apply the holistic approach to patient care. *Prerequisite: Successful completion of all previous courses.*

PTH 47B Clinical Internship II (4)

Continuation of PTh 47A. *Prerequisite: Successful completion of all previous courses.*

PTH 49 Clinical Pathology (2)	<i>BIO 41A and concurrent enrollment in BIO 41B.</i>
--------------------------------------	--

The B.S. Degree Physical Therapy Program

The baccalaureate degree program based on the Chalon Campus offers professional education in Physical Therapy with an emphasis on the holistic approach to patient care. A core of Human Services courses (Humanities, Philosophy, Religious Studies, Social and Behavioral Sciences, and Gerontology) is an integral part of the total educational experience.

The professional phase of the program begins, essentially, at the junior level. The curriculum is divided into the following areas: Basic Medical/Health Sciences, Clinical Medicine, Physical Therapy Principles and Practices, Physical Therapy Clinical Arts-Tests and Measurements, Education, Administration and Research, and Clinical Internship. Throughout the professional phase of the program, students continue to pursue study in the humanities and Human Services core.

Early and ongoing exposure to patient care and clinical application is an essential component of the total program. The Physical Therapy Program affiliates with a wide range of clinical sites in California and other states. The Daniel Freeman Hospital serves as the primary clinical teaching center. A clinical practicum is provided during the Interterm between the Fall and Spring semesters of the Junior Year, followed by a six-week clinical clerkship during the summer school after completion of the junior year. A second clinical clerkship which focuses on the care of the geriatric patient is scheduled during the Interterm between the Fall and Spring semesters of the senior year. Final clinical internships (twelve weeks) are offered during summer school after the students have completed all senior year coursework.

The program in Physical Therapy is fully accredited by the American Physical Therapy Association's Committee on Academic Accreditation. Upon successful completion of all requirements, the degree of Bachelor of Science in Physical Therapy is awarded. The graduate of the program will be eligible to apply for and complete the licensing examination in California and other states.

Requirements for Admission to the Program

Students interested in the Baccalaureate Degree Program in Physical Therapy at the Chalon Campus are encouraged to apply in the fall semester of their senior year in high school. Students who are admitted as freshman will be given priority for the limited number of positions in the class at the junior level, provided that they have successfully completed all prerequisites and have met the minimal standards, as determined by the departmental Admission Committee composed of the Chairperson, Director and faculty of the Department of Biological Sciences and the Programs in Physical Therapy. One year of high school biology with a lab, chemistry, physics, algebra, trigonometry, and geometry are highly recommended. Final selection of students for the physical therapy major will be made near the close of the sophomore year.

A student who wishes to transfer to Mount St. Mary's College and to be considered for the Physical Therapy Program is urged to transfer at the beginning of the sophomore year. Due to the unique nature of the program and its requirements, students

who transfer after completing two or more years elsewhere will, in all likelihood, have to spend more than two years at Mount St. Mary's College in order to complete all degree requirements. A transfer student must be accepted into the college first and will be considered for the physical therapy major during the spring semester prior to beginning the junior year.

Admission to the program in Physical Therapy at the junior level is determined by the departmental Admission Committee described above. A cumulative grade point average of at least 2.7 is required, with grades of at least C in all science coursework and in PTH 60 taken during sophomore year. In addition, evidence of some observational experiences within a physical therapy service is required. Student's application deadline is February 15. Qualified candidates are interviewed by the departmental Admissions Committee. They complete select questionnaires in April, the final selection process being completed in May.

The faculty of the Department of Biological Sciences and the Programs in Physical Therapy have the right and responsibility for judging and evaluating the quality of the student's achievement. Grades of C or above must be received in all physical therapy courses and science courses in order to continue in the program. If a student's performance in the clinical setting is unsatisfactory and/or unsafe, the student may be disqualified from the program at the close of the clinical period. In the event of unsatisfactory performance, the student's record is reviewed by the faculty before any final action is taken.

Before enrollment at the junior level and at the beginning of the senior year, the student must submit a written report of a chest X-ray, updated immunizations (including rubella), and a physical examination.

During the clinical phase of the program, students are required to carry health insurance and malpractice insurance.

The B.S. Degree with a Major in Physical Therapy

Preparation:

BIO 1AB	Biological Dynamics	(4,4)
BIO 149	Molecular Physiology	(4)
BIO 151B	Medical Physiology	(4)
CHE 1AB	General Chemistry with Lab	(4,4)
PHY 1AB	Intro. Physics/Intermed. Physics	(3,4)
MTH 38	Elements of Probability and Statistics	(3)
PTH 60	Introduction to Physical Therapy	(3)

Requirements:

Human Services Core		
BIO 150	Biology of Aging	(3)
PHI 168B	Bioethics	(3)
PSY 1	General Psychology	(3)
PSY 12	Developmental Psychology	(3)
PSY 133	Psychology of Disability and Adjustment	(3)
RST 178	Death and Dying	(3)
SOC 5	Sociological Perspectives	(3)

SOC 189	Sociology of Aging	(3)
Plus the additional courses needed to complete the general education requirements.		
Physical Therapy Major		
BIO 158	Gross Anatomy	(4)
BIO 160	Neuroanatomy/Neurophysiology	(3)
PTH 154A	Pathology and Medical Science & Arts I	(3)
PTH 154B	Medical Science and Arts II	(2)
PTH 155	Physical Therapy Princ. and Clinical Arts I	(3)
PTH 156	Physical Therapy Princ. and Clinical Arts II	(3)
PTH 157	Physical Therapy Princ. and Clinical Arts III	(4)
PTH 158	Applied Physiology	(3)
PTH 159	Motor and Perceptual Development	(2)
PTH 162	Administration and Supervision in P.T.	(2)
PTH 163A	Education Seminar in Physical Therapy	(2)
PTH 163B	Clinical Specialization	(2)
PTH 164	Physical Therapy Princ. and Clinical Arts IV	(4)
PTH 165	Prosthetics/Orthotics and Patholocomotion	(2)
PTH 166	Kinesiology and Biomechanics	(3)
PTH 167	Neurophysiological Bases for Motor Control	(5)
PTH 168	Interpersonal/Interprofessional Relations	(1)
PTH 169ABCD	Clinical Internship I, II, III, IV	(4,2,4,4)
PTH 170	Community Resources for Health Care	(1)
PTH 197	Research Methodology	(2)
PTH 198	Research	(1)
PTH 199	Independent Study	(1-2)

PTH 60 Introduction to Physical Therapy and Professional Orientation (2)

Medical and physical therapy terminology including the basic medical roots, prefixes, suffixes, combining forms, and abbreviations. Orientation to health care delivery systems, to patient's rights and expectations, and to the physical therapy profession. Includes a survey of history and present status of physical therapy and its relation to other medical services, educational patterns and accreditation, and the

Code of Ethics for physical therapists, the legal aspects of physical therapy practice, and the role of the American Physical Therapy Association. Includes material to enable the student to explore her feelings toward the sick and disabled and to gain some insight into the patient's feelings.

PTH 154A Pathology and Medical Science and Arts I (3)

Study of pathology on the cellular level according to disease entities; orthopedic management of diseases of the musculoskeletal

system with emphasis on conditions commonly treated by physical therapists. Lecture. *Prerequisite: Physical Therapy junior status.*

PTH 154B Medical Science and Arts II (2)

Pathology, diagnosis, prognosis, and management of selected neurological diseases and medical/surgical conditions. *Prerequisites: BIO 158 and concurrent enrollment in BIO 160.*

PTH 155 Physical Therapy Principles and Clinical Arts I (3)

Team approach to the study of kinesiology, basic therapeutic exercise, posture evaluation, manual muscle testing, and goniometry coordinated with learning experience in BIO 158 Gross Anatomy. Classroom work is followed by practicum in an appropriate clinical setting during Interterm session. Lecture and laboratory. *Prerequisite: Physical Therapy junior status.*

PTH 155A Clinical Practicum (0)

Observation and practical experience in an appropriate clinical setting under the guidance and supervision of qualified physical therapists during the Interterm of junior year. Total of 40 hours in the clinic. *Prerequisites: PTH 155 Clinical Arts I and PTH 156 Clinical Arts II.*

PTH 156 Physical Therapy Principles and Clinical Arts II (3)

Study of therapeutic massage and hydrotherapy with emphasis on the physiological, psychological, and therapeutic effects. Includes a unit on basic nursing procedures and management of burns and open wounds. Classroom work is followed by a practicum in an appropriate clinical setting during Interterm session. Lecture and Laboratory. *Prerequisite: Physical Therapy junior status.*

PTH 156A Clinical Practicum (0) (see PTH 155A)

PTH 157 Physical Therapy Principles and Clinical Arts III (4)

Study of the use of heat, light, sound, and electrical currents in the management of pain and tissue nutrition, correlated with

physics and physiology. Principles and art of electrical testing of nerves and muscles with analysis, interpretation, and evaluation; includes galvanic-faradic, chronaxie, strength-duration curves, tetanus-twitch, motor nerve condition velocity tests, and electromyography. Lecture and laboratory. *Prerequisites: BIO 158 and Physical Therapy junior status.*

PTH 158 Applied Physiology (3)

Muscle-nerve physiology and physiology of exercise as these relate to cardiac rehabilitation, to sports medicine, and to the geriatric patient. Also includes a critical analysis of the physiological effects of various physical therapy procedures. Lecture. *Prerequisite: Physical Therapy senior status.*

PTH 159 Motor and Perceptual Development (2)

Development of perceptual functions and motor skills (gross and fine) with emphasis on normal characteristics and principles of relevance to physical therapy. Includes units on reflex and developmental testing and sensory motor integration. *Prerequisite: PSY 12*

PTH 162 Administration and Supervision in P.T. (2)

Principles of organization and administration of the physical therapy service and its relationship to the organizational/administrative structure of the institution. Includes communication skills, job analysis and description, management of resources (budget, space, equipment), coordination of physical therapy services, personnel policies and motivation, quality control, and supervisory skills. Lecture. *Prerequisite: Physical Therapy senior status.*

PTH 163A Education Seminar in Physical Therapy (2)

Teaching in a clinical setting focused on preparation for the development of in-service training programs, continuing education programs, and clinical education programs for physical therapy and physical therapist assistant students. Includes principles of teaching, the learning process, development of behavioral objectives, task analysis, use of instructional media, and evaluation methods. Lecture. *Prerequisite: Physical Therapy senior status.*

PTH 163B Clinical Specialization (2)

Course providing focus on select areas of specialized clinical practice, including analysis of pediatrics, orthopedics, (sports medicine, mobilization), pain management, cardiopulmonary, geriatrics specialties. *Prerequisite: Physical Therapy senior status.*

PTH 164 Physical Therapy Principles and Clinical Arts IV (4)

Principles, procedures, and rationale for the treatment of cardiopulmonary patients and the management of specific neurological and orthopedic conditions. Includes units on specific therapeutic exercise programs, use of exercise equipment, scoliosis, and activities of daily living (patient transfers, gait training, and wheelchair management). Lecture and laboratory. *Prerequisite: Physical Therapy junior status.*

PTH 165 Patholocomotion (2)

Evaluation and training of select locomotor problems, with emphasis on neurologic conditions (upper motor neuron and lower motor neuron disorders) and orthopedic conditions (including post-amputation). Includes an introduction to the principles and uses of prosthetics and orthotics, their components, the study and analysis of normal vs. abnormal gait. Lecture and laboratory. *Prerequisite: Physical Therapy senior status.*

PTH 166 Kinesiology and Biomechanics (3)

Kinesiological/biomechanical analysis and evaluation of normal and abnormal patterns of movement with emphasis on human locomotion. Involves integration and application of principles of engineering mechanics fundamental to the understanding of movement. Introduction to the use of electromyography and cinematography in the study of movement. Application to clinical problems and potential research studies. Lecture and laboratory. *Prerequisite: Physical Therapy senior status.*

PTH 167 Neurophysiological Bases of Motor Control (5)

Facilitation-inhibition principles and techniques based on neurophysiological foundations and mechanisms fundamental to the understanding of motor control. Material is

correlated with normal human development, and offers an integrative approach to the evaluation of sensorimotor deficits, planning and implementing treatment programs. Lecture and laboratory. *Prerequisite: Physical Therapy senior status.*

PTH 168 Interpersonal and Interprofessional Relationships (1)

Role of the physical therapist as a member of the health care team, relationship to the patient, the family, and other health professionals. Emphasis on group dynamics, communications skills, and the interdisciplinary approach to patient care. Lecture and presentations by active health-care teams. *Prerequisite: Physical Therapy junior status. GS-IB*

PTH 169A Clinical Clerkship I (4)

Six weeks clinical experience under the guidance and supervision of qualified physical therapists during the summer between the junior and senior years. Learning experiences are correlated with the behavioral objectives of the junior year courses. *Prerequisite: Successful completion of all junior year courses.*

PTH 169B Clinical Clerkship II (2)

Two weeks clinical experience in a geriatric unit under the guidance and supervision of qualified physical therapists during the Interterm of the senior year. *Prerequisite: Physical Therapy senior status.*

PTH 169C/D Clinical Internships I, II (4,4)

Two six week periods of clinical experience under the guidance and supervision of qualified physical therapists during the summer after completing the senior year. *Prerequisite: Successful completion of all senior year courses.*

PTH 170 Community Resources for Health Care (1)

Basic philosophy and concepts of community health to include the non-traditional health care setting. Administrative structures, policies, resources, patient referrals, discharges, and follow-up will be studied in selected public and private community health-care agencies. Also includes a unit on the identification of architectural barriers to the handicapped and suggested solutions

to this problem. Lecture and field experience. *Prerequisite: Physical Therapy senior status.*

PTH 197 Research Methodology (2)

Introduction to the philosophy and principles of scientific methods of inquiry used in research and problem solving. Includes identification of problems, construction of hypotheses, research design, methodology, data collection and analysis, discussion of findings and conclusions. Discuss research designs appropriate for the medical field. *Prerequisite: Physical Therapy senior status or permission of instructor.*

PTH 198 Research (1-2)

Continuation of PTH 197, investigation of a research problem including a survey of literature and a research proposal. Option to carry out research project. Course may be continued through the summer after completion of the senior year. *Prerequisite: PTH 197 Research Methodology.*

PTH 199 Independent Study (1-2)

The initiation or continuation of a project. Work should culminate in a research paper or report.

Physics

Departmental Affiliation: Physical Science and Math

PHY 1A Introductory Physics (4)

Lecture, three hours; discussion, one hour. A study of motion including force, conservation laws, vibratory motion, and wave motion; an introduction to light, field theory, electricity, magnetism, and quantum mechanics. *Prerequisite: Facility with algebraic manipulations.*

PHY 1B Intermediate Physics (4)

Lecture, three hours; laboratory, three hours. A study of the properties of matter; thermodynamics, electrical circuits, optics, topics in astronomy, and relativity. *Prerequisite: PHY 1A.*

PHY 11A Mechanics (4)

Lecture, three hours; discussion, one hour. A calculus-based physics course covering the statics and dynamics of particles, gravitation, potentials and fields, and fluid mechanics. *Prerequisite: A calculus course, concurrent enrollment in MTH 3A, or consent of instructor.*

PHY 11B Electricity, Magnetism, and Optics (4)

Lecture, three hours; laboratory, three hours. A calculus-based physics course covering electric and magnetic fields, circuit theory, and optics. *Prerequisite: PHY 11A or consent of instructor.*

Political Science

Departmental Affiliation: History and Political Science

The student who is majoring in political science investigates political theory, institutions, international relations, comparative politics, public administration and public law as they relate to historical developments and to the political world as it is now. A maximum choice is allowed so that the major can be designed according to the dominant interests of the student.

The B.A. Degree with a Major in Political Science

Preparation:

POL 10	Political Concepts	(3)
--------	--------------------	-----

Requirements:

Nine upper division courses in political science	(27)
--	------

Total units in political science: 36

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirement.

The Minor in Political Science

A minimum of six courses in political science including POL 10 and four upper division courses approved by the department chairperson.

POL 1 American Government and Institutions (3)

An introduction to the principles and problems of government, with particular emphasis on the formation and development of the national and state administrative, legislative, and judicial systems and processes. **GS-IIIG**

†POL 2 Comparative Government (3)

An investigation of the concepts and techniques which enable the student to compare divergent political systems, focusing upon both traditional and innovative concepts such as power, ideology, decision making, elitism, and the structural-functional approach. Particular attention is devoted to political systems. **GS-IIIF**

POL 10 Political Concepts (3)

The aim of this course is to acquaint students with the scope and techniques of political science by relating major concepts in political theory to current problems and issues. Major political theorists such as Plato, Aristotle, Locke, Hobbes, Hegel, and Marx are the focal points of analysis. In this way the contribution of political science to the understanding and clarification of political phenomena can be exemplified. **GS-II, IIIF**

‡POL 108 American Constitutional Law (3)

See HIS 179. Consent of instructor necessary for non-majors and non-minors. **CPE. GS-IIIG**

POL 109 Individual Rights (3)

Emphasis on the Bill of Rights as applied to both federal and state jurisdictions. Also includes examination of both substantive and procedural due process. See HIS 180. CPE. GS-IIIG

POL 112 Contemporary Political Theory (3)

A study of the major contributors to political theory from Marx to the present day, including such theorists as Dewey, Russell, Weber, Mosca, Pareto, Nehru, Maciver, Becker, Laski, Cole, et al. The normative approach will be deemphasized in favor of the descriptive and analytical approach.

POL 113 American Political Theory (3)

A critical examination of the contributors to the formation and sustenance of the consensual framework within which American government, politics, and society operate, with special attention to the great constitutional crises of the past 150 years.

POL 116 Democracy and Democratic Theory (3)

A critical examination of the major theorists of democracy in the twentieth century with emphasis upon both the justifications and preconditions of democratic government and society; in particular, insights derived from psychology and sociology are utilized. Consent of instructor necessary for non-majors and non-minors.

POL 117 History of Political Theory (3)

The history of man's attempt to explain the relationship of man to governmental institutions with particular emphasis upon the values to be implemented by society. The time period spans the development of Greek political theory to the middle of the nineteenth century. GS-IIIC

POL 119 Concepts in Political Theory (3)

Selected concepts to be dealt with in depth. Specific concepts noted in term schedule.

POL 125 Foreign Relations of the United States (3)

See HIS 178.

POL 131 International Relations (3)

A general survey of the institutions, considerations, and ideologies involved in the formation and execution of foreign policy within a world context. Special attention is placed upon international agencies, including the United Nations. May be taken for lower division credit. GS-IIIG

POL 134 International Organization (0-5)

An examination of the origins, structure, and practices of international agencies with special attention to the United Nations. GS-IB,IIIG

POL 135 Selected Problems in International Organization (3)

Particular emphasis is placed on the role of international organizations and the maintenance of world peace. May be taken for lower division credit. GS-IB,IIIG

POL 138 International Law (3)

The study of the development of international law through the primary sources. Special emphasis will be placed on the development of international law under the aegis of international organizations.

POL 152 Advanced Studies in the History of Modern Japan (3)

An examination of the rapid transition of the feudal Japan of the Shogun to the modern technological state. This course will probe the events that brought changes in government, family, religion, education, industry, and foreign relations from 1600 to 1952. (See HIS 151.)

POL 152B Advanced Studies in the History of Modern China (3)

An emphasis on the development of Modern China through a biographical approach. Personalities such as the Empress Dowager, Sun Yat-sen, Mao Tse Tung, and others will provide insights into the evolution of the Chinese State. (See HIS 152.)

POL 170 American Party Politics (3)

The development, organization, and character of the American party system.

POL 171 Presidents and Personality (3)
An attempt to illuminate and characterize the contributions of American presidents to American politics by an examination of the writings of psycho-historians and others emphasizing psycho-logical insights. GS-III G

POL 175AB Selected Topics in the American Political Structure (3,3)

Specific area will be announced in the term schedules. Consent of instructor necessary for non-majors and non-minors.

POL 179 California Politics (3)
See HIS 188.GS-IIIG

POL 180 State and Local Government (3)

A study of state political systems, including their administrative and local sub-systems; intergovernmental relationships; policy outputs. Fulfils CPE requirement. Consent of instructor necessary for non-majors and non-minors.

POL 185 Public Personnel Administration (3)

The process of formulating and administering public personnel policies; concepts and principles utilized in selected governmental personnel systems. Special emphasis on collective bargaining in public employment.

†POL 186 Introduction to Public Administration (3)

The executive function in government; principles of administrative organization,

personnel management, financial administration, administrative law, and problems and trends in government as a career. GS-II

POL 187 Organizational Theory and Governmental Management (3)

Organizational structure, human factors in organization, dynamics of organizational change, internal adaptability to external environment; problems, limitations, and trends in governmental organization and management.

POL 190 Internship (3)

Students in political science serve as interns working in the Los Angeles offices of public officeholders.

POL 191 Internship in Government Service (3)

Students in the public administration program serve as interns working in government offices in the Los Angeles area.

†POL 192 Plays and Politics (3)

A study of selected plays from antiquity to contemporary times in which the insights of the playwright and the conclusions of the political scientist are interrelated. A multidimensional and interdisciplinary approach is utilized. May be taken for lower division credit. GS-IIIG

POL 193ABCD Selected Problems and Projects in Political Science (3)

Subject announced in term schedule. May be taken for lower division credit.

Pre-Law Program

An undergraduate major in the social sciences or humanities is the preferred preparation for legal study. The major program should be supplemented with other courses designed to develop the analytical and expository skills requisite for the study of law. The pre-law advisement program identifies potential law students early in their undergraduate education and assists them in planning courses of study suited to the rigorous demands of the legal profession.

Required Supplementary Courses:

MTH 9	Introduction to Computer Processes	(3)
PHI 5	Logic	(3)
PHI 155	Symbolic Logic	(3)
BUS 15	Accounting I: Financial	(3)

Strongly Recommended:

BUS 5	Business Law	(3)
FRE 103	French for the Legal Profession	(3)
PHI 152	Theory of Knowledge	(3)
PHI 168A	Contemporary Moral Problems	(3)
POL 108	American Constitutional Law	(3)
SPA 103	Spanish for the Legal Profession	(3)
SPE 13	Oral Argument	(3)

Students complete requirements in their majors, foreign language, supplementary pre-law, general studies requirements, and electives totaling 129 semester units.

The Preschool Teaching Program

See listing in Education, now titled A.A. Degree in Early Childhood Education.

Premedical/Predental Programs

Students in the Department of Biological Sciences may elect to take their study emphasis in the Premedical or Predental Programs. These programs offer a strong science preparation for successful entrance into Schools of Medicine or Dentistry. At the same time, such a program emphasis prepares students for study in a wide variety of health-related graduate school programs or for assistanceships in biomedical research laboratories.

The B.S. Degree with a Major in Biological Sciences

Preparation:

BIO 1AB	Biological Dynamics	(4,4)
CHE 1AB	General Chemistry	(4,4)
CHE 6AB	Organic Chemistry	(4,4)
CHE 107	Biochemistry	(4)
MTH 3AB	Mathematical Analysis I	(4,4)
PHY 1AB	Physics	(4,4)

Requirements:

Nine to ten upper division courses including:

BIO 120	Embryology	(4)
BIO 130	Genetics	(3)
BIO 150	Biology of Aging	(3)
BIO 151A	Cellular Physiology	(4)
BIO 151B	Medical Physiology	(4)
BIO 180	Endocrinology	(4)
BIO 195	Senior Seminar in New Biology	(3)
BIO 197	Research Readings	(1)
BIO 198	Biological Research	(1-3)

Recommendations:

BIO 3	Microbiology	(4)
BIO 158	Gross Anatomy	(3)
MTH 9	Introduction to Computer Processes	(3)
MTH 38	Elements of Probability and Statistics	(3)

Total units in Biological Sciences: 37

Course descriptions can be found in the catalog under Biological Sciences.

Plus general studies requirements and electives totaling 129 semester units.

Psychology

The major in psychology is concerned with the study of human behavior from both a scientific and a humanistic point of view. Scientific study of behavior and field work complement one another in giving depth of understanding to personality, learning, motivation, and perception as interacting human processes. The major prepares students for graduate work and/or for many situations in daily living and work that demand precision in thinking and understanding.

The B.A. Degree with a Major in Psychology

Preparation:

PSY 1	General Psychology	(3)
PSY 40	Statistics	(3)

Requirements:

Nine upper division courses including:

PSY 106	Experimental Psychology	(3)
PSY 132	Personality	(3)
PSY 134	Learning	(3)
PSY 145	Social Psychology	(3)
PSY 152	Physiological Psychology	(3)
PSY 192	Clinical Practicum	(3)

Majors must obtain a grade of C or higher in all psychology courses.

Total units in psychology: 33

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirement.

The Minor in Psychology

A minimum of 18 units approved by the department. At least four upper division courses.

PSY 1 General Psychology (3)
An introduction to psychology as a scientific study of behavior. Focus on issues in learning, motivation, perception, personality development, and psychopathology. GS-IIIF

PSY 2 Psychology of Communication (2-3)
A study of the use of communication as a two-way process of giving-receiving data, interpreting verbal/nonverbal behavior in a variety of interpersonal and group situations. GS-IB, IIIF

PSY 12 Developmental Psychology (3)
Theories of personality development and a review of current research; study of physical, mental, social, and emotional growth throughout the entire human life span; focus on factors that facilitate growth. GS-IIIF

PSY 13 Early Child Development (3)
Study of the early years in human development. Focus on prenatal life and early childhood years as influential factors on the

child's learning ability. Study of infant care and family life as these forces affect psycho-physiological, emotional, social, motor, and mental development. Observation of children and experience in designing learning activities for young children in pre-school and elementary classrooms.

PSY 14 Adult Development (1)

A survey of the major psychological theories and milestones related to adult development. Includes discussion, reading and appropriate observation of the developmental stages of adolescence, young adulthood, middle age and the process of advancing age. In combination with a previously completed course in child development, this course meets the life span human development requirement of the MSMC Department of Nursing.

PSY 33 Adjustment and Mental Health (3)

A survey of the concepts of personal and community mental health including: the psychological principles contributing to mental health, the interaction of personality and environment, and an overview of human services agencies available in the community to individuals of all ages. GS-IIIF

PSY 34 Language and Concept Development of the Young Child (3)

An indepth study of language and concept development of the child from birth through eight years. Primary factors in cognitive development are stressed, including the basic elements of Piaget's developmental theory. The acquisition and development of language and its role in cognitive development are discussed. Methods and materials that enhance language and cognitive growth are presented, studied, and developed. Students observe and participate in a preschool setting. See EDU 34.

PSY 35B Creativity and the Young Child (3)

A study of those experiences which foster creativity and self-expression in the young child. Emphasis will be on art, music, play, and movement. Application of growth patterns, individualization, prescription, and evaluation will be included. Students are required to observe and participate in a preschool setting.

PSY 40 Statistics (3)

Collection and interpretation of statistical data, with emphasis on decision-making and limits of inference.

PSY 99 Special Problems (1-3)

Individual study of problems of interest.
Prerequisite: Consent of instructor.

PSY 106 Experimental Psychology (3)

Analysis and evaluation of published literature; design of experiments; use of experimental and statistical methods; survey of laboratory apparatus; use of case study and naturalistic observation. Emphasis on human experimental psychology.

PSY 109/209 Movement Psychology (3)

Exploration of human movement patterns in relation to personality. Therapeutic uses of movement, integrating recent findings from kinesiology, dance, and mime. Study of the relationship between human skeletal adjustments of psychosomatic correlates.

PSY 113 Child Development and the Learning Process (3)

A systematic study of the developmental characteristics of the child beginning with prenatal life. Emphasis is placed on how developmental factors influence the child's ability to learn, and how these factors affect the content and organization of curriculum. Principles are derived from interpretation of reliable data of experimental studies and surveys regarding physiological, emotional, social, mental, and moral growth and development. Observation and participation in appropriate settings provide opportunities to apply those principles learned in class.
Prerequisite: PSY 1.

PSY 123 Adolescent Development and the Learning Process (3)

A study of the developmental and behavioral characteristics of the adolescent. Emphasis on how individual characteristics and concerns influence the adolescent's ability and motivation to learn and how these factors affect the content and presentation of curricula. *Prerequisite: PSY 1.*

‡PSY 125 Introduction to Counseling (3)

A survey of the major methods of psychological counseling with emphasis on the underlying theoretical framework. Included will be consideration of both traditional and contemporary individual and group methods. Demonstrations and limited practical experiences will focus on paraprofessional applications.

PSY 128 Psychology of Aging (3)

An exploration of psychological factors of the process of aging. Focus will be on attitudes, values, motivations, and behavior as they are influenced by environmental and biological changes associated with aging. This course is conducted as a seminar and includes a field work component.

PSY 132 Personality (3)

Comprehensive study of the structure and dynamics of personality as viewed by various theorists. Implications of theoretical formulations.

PSY 133 Psychology of Disability and Adjustment (3)

An exploration of the effects of physical disabilities on mental health. Conditions fostering personality development and continued personal growth in the physically disabled will be investigated, with an emphasis on the special problems of disabilities among the aged. Course includes field work.

†PSY 134 Learning (3)

A comprehensive and critical examination of major psychological theories of learning and related research. Practical applications of learning principles are also discussed.

PSY 135 Group Dynamics (3)

A preliminary experiential and theoretical study of the nature, developmental stages, interpersonal communication patterns and role dynamics manifested in group situations. Students will have the opportunity to participate in a variety of structured and unstructured group exercises. GS-IB, IIIF

‡PSY 143 Environmental Psychology (3)

An examination of ways in which familiar physical environments such as homes, office buildings, parks, and schools affect feelings and behavior. Students actively participate

in various investigations of the psychological impact of physical environments within the community.

PSY 145 Social Psychology (3)

Theories of social psychologists; the influence of social structure on social character, the socialization process in forming the self and the person; institutional and cultural influences on role behavior; social control. See SOC 145.

†PSY 148/248 Personnel and Consumer Psychology (3)

Study of the psychological principles and techniques used in a business setting. Topics include the psychology of work, personnel selection, appraisal, job analysis, placement training, production efficiency, and consumer behavior.

†PSY 152 Physiological Psychology (3)

A study of the relationship of nervous, skeletal, muscular, glandular, and circulatory systems to behavior. Introduction to theories of perception, motivation, and emotion and their physiological concomitants. GS-IIIF

‡PSY 155 Psychological Testing (3)

An introductory investigation of the field of psychological testing including an examination of history, theory, and construction of tests as well as a survey of principal individual and group tests of intelligence, personality, interest, and ability currently used in clinical and research settings. Special attention will be placed on the development of skills for evaluating the reliability, validity, and ethics of psychological tests and their applications.

PSY 168 Abnormal Psychology (3)

Study of the concepts of mental health and mental illness. Introduction to the different psychopathological entities and psychotherapeutic techniques.

PSY 180/280 Existential Theory and Therapy (3)

An exploration of existential theory and its application in psychotherapy and counseling. Authors of both basic and applied writings will be included. The development of existential theory with changes in society and the field of psychology. GS-IIIF

#PSY 181/281 Drama and Therapy (3)

An exploration of the interaction of drama and psychological change and growth from the Oedipus myth to Moreno's Psychodrama and other contemporary expressions.

PSY 182/282 The Philosophy of Psychology (3)

An exploration of the theoretical basis of the major schools of psychological thought including psychoanalysis, behaviorism, existentialism, and humanistic approaches. Includes emphasis on the historical and sociocultural events which led to the development of these schools of thought.

PSY 183/283 Psychoanalysis (3)

A systematic study of the background and theory of psychoanalytical theory and its application in psychotherapy. Includes a study of the life and works of Sigmund Freud as well as the neo-Freudian analysts.

PSY 190 Workshop (1-3)

May be repeated for credit.

PSY 192 Clinical Practicum (3)

Experience-oriented course designed to enable the student to apply the principles of psychology in real life settings. Field work options include areas of school psychology, gerontology, mental retardation, emotional disturbances, learning disabilities, or probation work. Course includes weekly seminar oriented towards integrating experiences with theory.

PSY 199A Special Problems (1-3)

Individual study of problem of interest.
Prerequisite: Consent of instructor.

PSY 199B Special Problems (1-3)

Individual study of problem of interest.
Prerequisite: Consent of instructor.

PSY 202 Psychological Foundations of Growth, Development and Learning (3)

Contemporary psychological theory as applied to the processes of learning, personal growth, and education. Research and writing are offered to meet the individual needs of students doing graduate work in counseling, human services, and education. See EDU 202.

PSY 200 Research Methodology (3)

Methodology of research; includes techniques of research, theory of research, experimental designs, gathering data, and interpreting data.

PSY 209 (See PSY 109.) (3)

#PSY 224 Dynamics of Individual Behavior (3)

A study of the development and organization of the individual's personality structure as he perceives himself in his universe.

#PSY 225 Counseling Theory and Procedures (3)

An in-depth exploration into the theory and methodology of counseling for the pupil personnel worker with emphasis on the professional application of skills and theory. Students will participate in counseling practical experiences under the supervision of the instructor.

PSY 230 Measurements: Theory and Procedures (3)

An advanced course in the evaluation, use, and interpretation of individual and group tests of intelligence, personality, interest, and achievement.

PSY 235 Group Dynamics: Theory and Procedures (3)

An investigation of group processes for individuals who have already had experience working with groups. The emphasis will be on the concepts of group facilitation, productivity, evaluation and the application of group methods in teaching, counseling, and administrative work.

PSY 236 Family Therapy (1.5)

This course is designed to study that branch of child psychiatry and therapy known as "family therapy." Family therapy is a collection of counseling and therapeutic strategies which have developed over the past thirty years in answer to obvious deficiencies in traditional child psychiatric practice. This first of half of the course will cover leading theorists and practitioners in this field.

PSY 237 Human Sexuality (1.5)

This course will approach the topic of human sexuality as a comprehensive and integrated topic by distributing emphasis across different areas, and by viewing sexual behavior in an evolutionary, historical,

and cross-cultural perspective. The emphasis will be on its role in therapy.

PSY 248 Personnel and Consumer Psychology (3)

Study of the psychological principles and techniques used in a business setting. Topics include the psychology of work, personnel selection, appraisal, job analysis, placement training, production efficiency, and consumer behavior. See PSY 148.

PSY 261 Career and Educational Counseling (3)

A study of the techniques, resources, and processes involved in career counseling. Exploration of relevant research as well as survey of appropriate agencies in the community. See EDU 261.

PSY 262 The Organization of Counseling and Mental Health Services (3)

An exploration of the organization and administration of the variety of traditional and innovative community and school-based counseling services and programs. See EDU 262.

PSY 269 Field Experience in Counseling (3-6)

Practicum relating principles to a variety of situations.

PSY 270 Survey of Programs for Child with Exceptional Needs (3)

Provides an introduction to the problem of exceptionalities of all types; the history of special education in California; education, sociocultural, and psychological rationale for grouping children, while retaining the basic principles of normal growth and development underlying the deviations of the special exceptionalities. Types of special education programs are studied in relationship to the mainstream of regular education. See EDU 270.

PSY 271 Appraisal of Exceptional Children (3)

A study of the use of tools for assessing exceptionalities in children; statistical concepts in measuring abilities, principles of assessment, methods of administration and interpretation; assessment instruments, and the relationship of the results of assessments to the total evaluation of the child. See EDU 271.

PSY 272 Disturbances in Child Development (3)

Includes a study of the learning and behavioral development characteristics of the five major groups of exceptionality as they arise from: genetic and hereditary, neuro-physical traits, prenatal and neonatal development, nutritional factors, disturbances in sensory-motor, language, auditory and visual development, learning and problem-solving, social and emotional development, physical, locomotor, disease, physical injury, etc., and other specific effects of environmental and developmental processes. See EDU 172/272.

PSY 273 Development of Programs for Children with Specific Learning Abilities (3)

Provides the opportunity for the candidate to use the outcomes of assessment to plan specific programs of remediation or amelioration of basic psychological functioning, and enables him/her to participate in the actual implementation of these various plans through work with individual or small groups of children in the various categories of exceptionality. See EDU 273.

PSY 274 Counseling and Guidance of Exceptional Children (3)

Primarily a study of human relationships, which provide the basis for the effective working relationships, both interpersonal and interprofessional, involving the complex situation of persons interacting with one another at all levels of the organizational social structure. The student develops the ability to relate effectively with pupils, parents, co-workers, and resource personnel; becomes aware of legal and personal nature of this work; and learns to appreciate the sensitivity of the materials being used. This course also helps the student develop the ability to work harmoniously and effectively with all personnel, a necessary condition for the success of the staff toward a common goal of promoting the learning of children. See EDU 174/274.

‡PSY 280 Existential Theory and Therapy (3)
(See PSY 180.)

‡PSY 281 Drama and Therapy (3)
(See PSY 181.)

PSY 290 Workshop (1-3)
Experiential class focusing on particular area of interest.

PSY 299A Special Problems (1-3)
Individual study of problem of interest.
Prerequisite: Consent of instructor.

PSY 299B Special Problems (1-3)
Individual study of problem of interest.
Prerequisite: Consent of instructor.

Religious Studies

The Religious Studies Department offers courses of study leading to both the baccalaureate (B.A.) and masters degrees (M.A.). All undergraduate courses are divided according to the four areas of courses offered:

- I. Scripture
- II. Christian Thought
- III. Christian Ethics
- IV. Religion and Religions
- V. Special Offerings

The department considers the study of religion essential to both the liberal arts and the Catholic character of the college. In light of these goals, the department also offers both a minor and major in religious studies. The major in religious studies is designed to prepare a student for various ministries, a career in education, or graduate work in this field.

The B.A. Degree with a Major in Religious Studies

Preparation:

RST 15	Introduction to the New Testament	(3)
RST 41	Introduction to Christian Ethics	(3)
RST 61	Introduction to the World Religions	(3)

Requirements:

1. Christian Scriptures: (6)
 - 3 units in upper division elective
 - 3 units in RST 191S Seminar
2. Christian Thought: (6)
 - 3 units in upper division elective
 - 3 units from RST 123: The Church or RST 131: Jesus
3. Christian Ethics: (6)
 - 3 units in upper division elective
 - 3 units in RST 191E Seminar
4. Religion and the Religions: (3)
 - 3 units in upper division elective
5. Electives: (3)
 - 3 units: RST 21: Introduction to Catholicism recommended
6. Thesis (3)
 - 3 units in RST 199: Senior Thesis

Total units in Religious Studies: 36

Plus general studies requirements and electives totaling 129 semester units including foreign language requirement.

Majors must maintain a C or better in each of the courses taken in fulfillment of these requirements.

The Minor in Religious Studies

Requirements:

- | | |
|--|-----|
| 1. Christian Scripture | (3) |
| 2. Christian Thought | (3) |
| 3. Christian Ethics | (3) |
| 4. Religion and the Religions | (3) |
| Electives: 9 units | (9) |
| RST 61: Introduction to the World Religions recommended. | |

Total units in Religious Studies: 21

I. Scripture

RST 11 Introduction to the Old Testament (3)
A study of the methods of modern biblical scholarship building on a consideration of revelation and inspiration; a consideration of selected themes of the Hebrew Scriptures. GS-VA1

RST 15 Introduction to the New Testament (3)
An examination of the synoptic gospel accounts, Johannine literature, the Acts of the Apostles, and certain Pauline letters. GS-VA1

RST 90S Special Studies in Christian Scriptures (3)
A study of special topics or texts. Selected themes may vary with each offering. May be repeated for credit. GS-VA1

RST 190S Advanced Studies in Christian Scriptures (3)
Advanced study of special topics or texts. Selected themes may vary with each offering. May be repeated for credit. GS-VA1

RST 191S Seminar in Christian Scriptures (3)
Advanced study of selected theme or text or figure. Open to all RST majors and minors. Also open to others with permission of instructor or chairperson. GS-VA1

Prerequisites: Ordinarily all upper division courses in Scripture require one (1) lower division course in the same area as a prerequisite—unless a special prerequisite is listed for a course. A waiver of this prerequisite may be granted by both the instructor and the department chairperson.

II. Christian Thought

RST 21 Introduction to Catholicism (3)
Study of representative beliefs, rites, ethics, and community structures in the Catholic tradition of Christianity. Includes discussion of some contemporary concerns and issues, in light of Vatican Council II. GS-VA2

RST 25 Marriage Issues: Catholic Perspectives (3)
Discussion of a variety of contemporary areas of concern: the purpose of marriage, interfaith marriages, annulment, marital sexuality, marriage and career(s), divorce, and remarriage. Presentation emphasizes Catholic perspective for understanding these cultural and religious concerns. GS-VA2

RST 90T Special Studies in Christian Thought (3)

A study of special topics or figures. Selected themes may vary with each offering. May be repeated for credit. GS-VA2

RST 123 The Church (3)

An introduction to the foundation, structure, ministry and mission of the Church. GS-VA2

RST 131 Jesus (3)

A brief survey of the historical development of the Christian understandings of Jesus as the Christ: from biblical traditions to the present. Discussion of key aspects of current interpretations of Jesus: Christian, cultural, and non-Christian. *Prerequisite: RST 15. GSVA2*

RST 190T Advanced Studies in Christian Thought (3)

Advanced study of special topics, figures, or texts. Selected themes may vary with each offering. May be repeated for credit. GS-VA2

RST 191 Seminar in Christian Thought (3)

Advanced study of selected theme or figure. Open to all RST majors or minors. Also open to others with permission of instructor or chairperson. GS-VA2

Prerequisites: Ordinarily all upper division courses in Christian Thought require one (1) lower division course from any area of religious studies—unless a special prerequisite is listed for the course. A waiver of this prerequisite may be granted by approval of both the instructor and the department chairperson.

III. Christian Ethics**RST 41 Introduction to Christian Ethics (3)**

An introduction to the study of moral decision-making from the perspective of Christian faith; the sources and nature of moral obligation, personal and social responsibility, freedom and sinfulness. GS-VA3

RST 45 Contemporary Issues in Christian Ethics (3)

A consideration of the viewpoints of Christian ethicists on selected contemporary issues. Offered as needed. GS-VA3

RST 90E Special Studies in Christian Ethics (3)

A study of special topics or figures. Selected themes may vary with each offering. May be repeated for credit. GS-VA3

RST 149 Ethics of Life and Death (3)

An introduction to issues involved in questions concerning the phenomenon of human life and the process of dying: abortion, reproductive technologies, genetic engineering, euthanasia. GS-VA3

RST 190E Advanced Studies in Christian Ethics (3)

Advanced study of special topics or figures. Selected themes may vary with each offering. May be repeated for credit. GS-VA3

RST 191E Seminar in Christian Ethics (3)

Advanced study of selected theme or figure. Open to all RST majors and minors. Also open to others with permission of instructor or chairperson. GS-VA3

Prerequisites: Ordinarily all upper division courses in Christian Ethics require one (1) lower division course from any area of religious studies—unless a special prerequisite is listed for the course. PHI 21: Moral Values and Ethical Decisions is also accepted as a prerequisite for upper division course in Christian Ethics. A waiver of these prerequisites may be granted on approval of both the instructor and the department chairperson.

IV. Religion and the Religions

RST 61 Introduction to the World Religions (3)

Introductory survey of religious thought and life in the major Western and Eastern traditions. Study emphasizes the history of each major religion. It includes selected readings from the sacred texts of each religion. GS-VA4

†RST 70 Faith and Human Development (3)

A study of the phenomenon of religious belief and the importance of faith for one's further development as a person in relation to others and to God. GS-VA4

RST 90R Special Studies in Religion(s) (3)

A study of special topics, figures, or texts. Selected themes may vary with each offering. May be repeated for credit. GS-VA4

RST 178 Death and Dying (3)

Study of the ways Christianity and other world religions understand death and dying. Emphasis is on both religious understandings and ideals, and some religious practices during and after death's time. Includes a discussion of religious understandings of afterlife, and interpretations of the

way death and afterlife affect one's vision of life. *Prerequisite: one (1) lower division RST course. GS-VA4*

RST 190R Advanced Studies in Religion(s) (3)

Advanced study of special topics, figures, or texts. Selected themes may vary with each offering. May be repeated for credit.

GS-VA4

RST 191R Seminar in the World Religion(s) (3)

Advanced study of selected theme, figure, or texts in the world religions. Selected religions and themes may vary with each offering. Open to all RST majors and minors. Also open to others with permission of instructor or chairperson. GS-VA4

Prerequisites: Ordinarily all upper division courses in Religion and the Religions require one (1) course from any area of religious studies—unless a special prerequisite is listed for the course. A waiver of a prerequisite may be granted on approval of both the instructor and the department chairperson.

V. Special Offerings

RST 95 Internship in Religion (1-3)

By special pre-arrangement with chairperson; available by request in any semester.

RST 195 Travel and Study of Religion(s) (1-3)

By special pre-approval of chairperson.

RST 196 Independent Studies (1-3)

By special pre-approval of instructor and chairperson.

RST 199 Thesis — RST Majors only (3)

By pre-arrangement with chairperson and faculty advisor; available any semester during senior year.

The following courses also are eligible for Religious Studies credits:

ENG 22/RST 80 Bible as Literature (Doheny Campus) (3)

RST 80 Bible as Literature (Doheny Campus) (3)

PHI 160/RST 190R Philosophy of Religion (3)

SOC 195/RST 190R Sociology of Religion (3)

Graduate Program

The master of arts program in religious studies is designed to serve not only professionals in the field of religious education, but also those desirous of advancing to doctoral work in religious studies. The program reflects a commitment to the pursuit of Catholic scholarship within the broader range of ecumenical Christian thought in the fields of Scripture, systematics, and ethics. The faculty is composed of a core group and visiting professors who are chosen on the basis of their theological competence and reputation in the field of inquiry. The twenty-five-year old program, which originated at Immaculate Heart College, is well-represented by hundreds of alumni in a variety of religious studies professions.

The flexibility of the program allows for concentrations (12 elective units) in any of the major fields, religious education, or religious education of the Mexican-American (REMA). In 1982 a concentration was established which also provides certification for those in leadership positions in the field of religious education. Explorations are currently under way to create similar concentrations for those in youth ministry, spiritual formation, or clinical pastoral education.

The 30-unit M.A. program is basically a summer program; however, courses and credit/non-credit workshops are offered during the fall and spring semesters of the academic year.

The student who elects nine units each summer can finish the program in four years. By taking courses during the academic year, the student can complete the M.A. program in two and one-half years.

Occasionally, the graduate program offers credit/non-credit workshops based on courses listed in this catalog. These workshops, intended for the continuing education of those in catechetical/pastoral ministry, are designated by a W following the course number in the graduate program or continuing education publicity. Such workshops ordinarily offer one or two units of credit.

All courses are open to persons who wish to continue their theological education within an academic setting but who do not desire a degree. Permission of the program director is required.

Admission

Bachelors degree from an accredited institution.

Evaluation of academic background.

Interview with program adviser.

See other general requirements of the Graduate Division.

Degree Requirements

Six units in each area of Scripture, Christian Ethics, Systematics. Twelve additional units in Christian Ethics, Systematics, Religious Education, or REMA constitute a concentration. In some cases the student may pursue a more generalized program with the approval of the department chairperson. Up to six units of undergraduate upper division work beyond the bachelor's may be applied towards the M.A.

Transfer of Credits

The following policy governs the transfer of units with a grade of B or better from an accredited graduate school:

A maximum of six units can be transferred for a masters degree requiring 30 units; Such a transfer must be formally petitioned and may not be made until the student has been admitted for full graduate status. The acceptance of transfer credit is subject to the approval of the head of the department and the graduate dean. Ordinarily, credits earned seven or more years before the student applies may not be applied to a graduate program.

Degree Completion

The Religious Studies Masters degree program consists of thirty units. The student must take either 26 units of course work and complete a four-unit thesis or 29 units of course work plus a one unit research essay. The thesis or research essay is to be completed after the course work is finished.

Ordinarily the thesis topic will be within the selected area of concentration.

Consultation with the faculty regarding specific requirements on the writing of thesis or research essay is required.

A written comprehensive examination is required.

Courses

200-level courses offered during summer session may be for 1-3 units. 200-level courses are not open to undergraduates. Permission of the program adviser is required for admission to all courses.

Scripture

RST 200 Introduction to the Critical Study of the Bible (3)

A study of the biblical literature including historical background, literary forms, hermeneutics, textual transmission, revelation, and inspiration.

RST 201 The Pentateuch and Deuteronomistic History (3)

An introduction to the formation of the historical books of the Old Testament and to their historical, cultural, and theological background.

RST 203 Prophetic Literature of the Old Testament (3)

A study of the major prophetic literature in relation to the historical, cultural, and theological background.

RST 206 Wisdom Literature (3)

An examination of the Psalter and Wisdom Literature and exegesis of representative psalms and passages.

RST 208 Synoptic Gospels (3)

The theology and background of the synoptic gospels; special problems, purpose, and hermeneutics.

RST 210 Gospel and Letters of John (3)

Theology of John's Gospel: some Johannine questions; influences on the Johannine writings.

RST 212 Selected Letters of Paul (3)

Theology of Paul with special emphasis on such themes as eschatology, community, justification, the Church, Christ, apostleship.

Systematics

RST 220 Introduction to the Study of Theology (3)

An introductory study of the major approaches to the study of theology; method; areas of systematic thought; contemporary theologians and their contributions.

RST 222 The Problem of God, One and Triune (3)

RST 223 Contemporary Christology (3)

Includes an overview of patristic and conciliar Christologies; the language and theology of contemporary Christology with its related questions.

RST 224 The Experience of God (3)

An examination of the theology of the Spirit, religious experience, mysticism, and the supernatural.

RST 225 Grace: God's Presence in the World (3)

The person in relation to God; classic approaches to the theology of grace; current thought on human freedom and grace.

RST 226 Sacraments (3)

Catholic teaching on sacraments; the history and development of the theology of sacraments.

RST 226A Anointing (1)

RST 226B Baptism/Rite of Christian Initiation of Adults (1)

RST 226C Confirmation (1)

RST 226E Eucharist (1)

RST 226M Orders and Ministry (1)

RST 226R Reconciliation (1)

Christian Ethics

RST 241 Moral Teaching of the New Testament (3)

A study of the foundations of Christian morality as found in the New Testament.

RST 226U Matrimony (1)

RST 227 Christian Anthropology (3)

Current approaches to the understanding of the religious dimension; faith and revelation; methods of theological anthropology.

RST 228 Church (3)

A contemporary understanding of the Church; the documents of Vatican II; authority in the Church; current questions and their background.

RST 230ABC Survey of the History of the Church (3,3,3)

The beginning of the Church to the Middle Ages; the Renaissance to Reformation; Post-Reformation to the Modern Church.

RST 231 Religion in America (3)

A study of religion in America from the English settlement up to the present. Topics include the Catholic dimension, Transcendentalists, the Great Awakening, the Social Gospel, the Death of God Movement, Civil Religion.

RST 232 Ecumenism since Vatican II (3)

RST 233 Protestantism (3)
Overview of the faith and practice of the major Protestant churches; major Protestant thinkers.

RST 235 Religion and Literature (3)

RST 236 Christian Spirituality (3)
An examination of the stages of faith; methods of prayer; history of Christian spirituality; contemporary understanding of discernment.

RST 242 Fundamental Concepts in Christian Ethics (3)

RST 243 Christian Social Ethics (3)
Theological foundations of Christian social ethics as found in the Bible, the history of Christian ethics, and modern ethicists.

RST 244 Theology of Liberation (3)
An investigation of the theological literature concerned with liberation and a discussion of problematics involved in revolution.

RST 245 Religious Freedom (3)
The background and historical setting for the Church's position on religious freedom. Current practical questions involving law in a pluralistic society and Church-State relations.

RST 246 Ethics of Life and Death (3)

A consideration of those problems which reflect one's valuation of human life; contraception, abortion, genetic manipulation, euthanasia, etc.

Religious Education

RST 261 Foundations in Catechetics (3)
Fundamental resources, theory, and basic documents upon which American catechesis is established.

RST 262 Special Themes in the Teaching of Religion (3)

RST 263 Special Studies in the Teaching of Religion (3)

RST 264 Master Catechist II (3)

RST 265 Master Catechist Practicum (3)

RST 266 Values Education in the Teaching of Religion (3)

RST 270 Introduction to the Religious Education of the Mexican-American (3)

RST 271 Perspectives on Mexican-American Theology (3)

RST 273 Ministry to the Mexican-American (3)

RST 247 Human Sexuality and Marriage (3)

A study of the questions relating to human sexuality and marriage as seen from an ethico-biblical perspective with attention given to the insights from psychology and theology.

RST 248 Psychology of Religion (3)
Scope and methods of psychology in relation to religion. Psychological and religious factors in the stages of faith, conversion, prayer, ascetical and liturgical practices, vocation.

RST 250 History of Christian Ethics (3)

RST 274 Religious/Cultural Dimensions of Faith of the Mexican-American (3)

RST 275 The Virgin of Guadalupe (3)

RST 280 Pastoral Leadership (3)
Analysis and application of strategies and techniques needed for leadership positions in parish or school religious education.

RST 281 Pastoral Counseling Skills (1)

Methods for facilitating the one-to-one relationship between the religious educator and the counselee in those areas usually associated with faith instruction.

RST 282 Spirituality and Spiritual Direction (1)

Insights and methods for directing individuals in the ways of discernment.

RST 289 Practicum and Integration Seminar (3)

Application of catechetical theory and leadership techniques to the actual situation of religious instruction and supervision. Required for DRE certification.

Research

RST 290 Thesis	(4)	RST 297 Special Studies	(1-3)
RST 291 Research Essay	(1)	Exploration of special interest areas in Scripture, systematics, or ethics. May be repeated for credit.	
		RST 298 Comprehensives	(0)
		RST 299 Independent Studies	(1-4)

Certificate Program Director of Religious Education

This program was designed for persons who are already experienced in a supervisorial capacity in the field of religious education. Certification as Director of Religious Education is granted by Mount St. Mary's College upon successful completion of 12 units of selected graduate course work.

Entrance requirements are 1) theological background and field experience; 2) two recommendations; 3) a description of current responsibilities as director or coordinator; 4) a statement of philosophy and goals of religious education; and 5) college transcripts and catechist certificates.

Students already enrolled in the masters program can elect courses to satisfy both the M.A. requirements and the certificate program. It is not necessary to be in the M.A. program to complete the program and earn the certificate.

Required:

RST 280	Pastoral Leadership	(2-3)
RST 289	Practicum and Integration Seminar	(2-3)

Recommended:

RST 248	Psychology of Religion	(2-3)
RST 261	Foundations in Catechetics	(2-3)
RST 281	Counseling Skills	(1)
RST 282	Spirituality and Spiritual Direction	(1)
	All RST 260, 270, 280 courses	

Admission

Complete description of one's responsibilities as parish director or school coordinator of religious education.

B.A. or its equivalent.

Evaluation of academic background.

Two professional/academic recommendations.

Interview with program director.

Requirements

The student will be formally admitted after successful completion of 3 units of course work. It is expected that students maintain a B in all courses. The required practicum and integration seminar consists of supervised field work, the seminar, and final paper or journal.

ROTC

Aerospace

Through a cross-town agreement Mount St. Mary's College students may take part in the Loyola-Marymount University Air Force ROTC program.

AER 95AB	The United States Air Force	(1,1)	AER 197AB	American Defense Policy	(3,3)
	The study of the mission and organization of the United States Air Force.			<i>Prerequisites:</i> AER 095ABCD; AER 096ABCD. <i>Corequisite:</i> AER 197CD.	
AER 95CD	Leadership Laboratory I, II	(0)	AER 197CD	Leadership Laboratory V, VI	(0)
AER 96AB	Development of Air Power	(1,1)	AER 198CD	Leadership Laboratory VII, VIII	(0)
AER 96CD	Leadership Laboratory III, IV	(0)	AER 198E	Ground Instruction Preparation for flight.	(2)

Air Force ROTC (AFROTC)

Through arrangements with the University of California Los Angeles, two, three, and four-year Air Force ROTC (AFROTC) programs and scholarships are available to qualified men and women. Entry to the AFROTC program requires both aptitude and physical examinations. AFROTC scholarships cover costs of tuition, books, and a monthly subsistence allowance. Applications for four-year scholarships must be filed before December 15 of the year preceding entry. The monthly subsistence allowance is also paid to nonscholarship cadets enrolled in the last two years of the AFROTC program.

Students who are physically qualified and plan to enter Air Force pilot training receive 13 hours of flight instruction during the last year of the program.

Academic credit is granted for AFROTC courses in accordance with institutional transfer credit policies.

Successful completion of the AFROTC two, three, or four-year program leads to a commission as a second lieutenant in the U.S. Air Force. Interested students should call the Air Force ROTC office at UCLA at (213)825-1742.

Navy/Marine Corps Officer Training

Through arrangements with the Naval Science Department of the University of California Los Angeles, qualified students at Mount Saint Mary's College may enroll in

the UCLA NROTC. This program leads to a reserve commission as an Ensign in the U.S. Navy or a Second Lieutenant in the U.S. Marine Corps. Academic classes within the NROTC program are counted as elective units toward graduation. Qualified students additionally may apply for NROTC scholarships which provide tuition and fee payment at Mount St. Mary's College, plus a \$100 monthly subsistence allowance. Interested students should contact the following for additional information:

Naval Science Department
 University of California, Los Angeles
 405 Hilgard Avenue
 Los Angeles, CA 90024
 Phone (213) 825-9075

Courses offered as part of the NROTC program at UCLA (quarter units):

NAV 1A	Introduction to Naval Science	(1)
NAV 2A	Naval Ship Systems I	(4)
NAV 20A	Seapower and Maritime Affairs	(2)

Social Science

The Social Science major is an expanded area major with a choice of five emphases: Hispanic civilization, history, political science, public administration, and sociology.

The variations within the major make it possible for students to direct their studies into particular areas of interest. A core of studies is directed toward fiscal problems, employment, technology, societal roles, ecology, and the general strategy of government.

The B.A. Degree with a Major in Social Science

Hispanic Civilization Emphasis

Preparation:

HIS 1AB	Western Civilization	(3-3)
SPA 25AB	Advanced Spanish Grammar or its equivalent	(2-2)
	Six lower division units in history in the Culture and Civilization series	(6)

Requirements:

SPA 112AB	Introduction to the Study of Spanish Literature	(3-3)
-----------	--	-------

HIS 162AB History and Civilization of Latin America (3-3)

18 units from the following elective courses or approved substitutes:

SPA 42/142	History and Civilization of Spain	(3)
SPA 109	Stylistics and Composition	(3)
SPA 115	Applied Linguistics	(3)
SPA 118	Historical Grammar	(3)

SOC 161	Dynamics of Majority-Minority Relations	(3)
SOC 175	Urban Sociology	(3)

Total units in social science: 36

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirement.

All courses are described in the respective department listings.

Sociology

The major in sociology is basically a study of people as they live together in groups. Sociologists in the past have contributed important information and insights to discussions of urbanism, education, the racial situation, and legislation to prevent poverty and to eliminate crime. By inquiring into the structure and dynamics of modern society, the student develops a capacity for viewing our changing social world objectively, critically, and creatively.

The B.A. Degree with a Major in Sociology

Preparation:

ANT 2	Cultural Anthropology	(3)
MTH 38	Elements of Probability and Statistics	(3)
POL 1	Political Concepts	(3)

Requirements:

SOC 104	The Family	(3)
OR		
SOC 195	Sociology of Religion	(3)
SOC 117	Research Methods	(3)
SOC 161	Dynamics of Majority-Minority Relations	(3)
SOC 165	Development of Social Thought	(3)
SOC 166	Contemporary Sociological Theory	(3)
SOC 175	Urban Sociology	(3)
	Plus any two other upper division courses	(6)

Total units in Sociology: 36

Plus general studies requirements and electives totaling 129 semester units, including foreign language requirement.

The Minor in Sociology

A minimum of seven courses in sociology, including:

SOC 5	Sociological Perspectives	(3)
-------	---------------------------	-----

One course in sociological theory

One course in research methods

SOC 4 The Family (3)

The study of the family as a primary group and as an institution. Varieties of family patterns, pre-marital and marital behavior, child-parent relationships, and family disorganization and reorganization are considered. GS-IIIF

SOC 5 Sociological Perspectives (3)

A basic course presenting the vocabulary of sociology; its concepts; the varied aspects of social structure and function of the rural-urban shift; with special emphasis on problems of minorities and of population increase. This course is a prerequisite for all upper division sociology courses. GS-III F

†SOC 65 Development of Social Thought (3)

An examination of selected types of social thought from primitive speculation to early modern scientific inquiry. GS-IIIF

SOC 104/204 The Family (3)

The structure of the family as institution. Change as it affects the structure of the family, the functions it performs, and the definition of member roles. Involves a comparison of types of family systems.

†SOC 110/210 Deviant Behavior:**Juvenile Delinquency (3)**

An analysis of basic theoretical orientations to social and personal disorganization of the juvenile in twentieth century American society. Special emphasis on contemporary problems and movements of the youth scene.

†SOC 111/211 Deviant Behavior: Criminology (3)

An analysis of basic theoretical orientations to social and personal disorganization of the adult in twentieth century American society. An examination of the various types of individual and group deviance.

†SOC 112/212 Contemporary Social Issues (3)

An explication and analysis of the institutional disjunctions, the conflict between value systems, and the stresses between majority and minority groups in contemporary society. Special emphasis on America's largest minorities with Spanish-speaking minorities as cases in point.

#SOC 117 Research Methods (3)
Study of the techniques and methods used in sociological research with a critical analysis of research studies. GS-II, IIIF

#SOC 125/225 Comparative Social Structures (3)

An examination of the basic social structures of society. A study of the similarities and differences between societies, including a comparison of primitive and modern cultures. A special emphasis will be placed on the dominant American culture as contrasted with the subcultures in today's society, primarily, the Spanish-speaking subcultures.

#SOC 128 Introduction to Social Work (3)

A general approach to the framework of social work as a profession; understanding the function and purpose of social work. This course will utilize case studies and will include guest speakers from the fields of social case work, group work, community organization and social welfare administration.

SOC 129 History of Social Welfare (3)

This course focuses on the ideas, concepts and insights that have shaped the social welfare system and the profession of social work in the U. S.. While discussing such activities as alms, charity, poor relief, social reform and social work, this class will also create a foundation for planning future social action.

SOC 130 Social Work - Theory and Method (3)

This course will discuss the theoretical basis for the methods of social casework, social group work and community organization and will explore in depth the methodologies and skills used by the social worker in each of the methods described.

#SOC 137 Culture and Personality (3)

A study of relationships between culture and personality with a cross-cultural approach to determine what is universal and what is unique among peoples of the world. The processes of socialization, enculturation, cultural transmission of aging will be

examined along with language and personality, minority consciousness, national character and the technocratic personality in the industrial society.

SOC 145 Social Psychology (3)
See PSY 145.

SOC 150/151 Field Work - Practicum (1-6)

Field work will consist of the practical application of theory and skills to the social work setting. Participants will be placed in professional social service agencies and supervised by skilled practitioners in the casework, group work and community organization fields of service. Placements include opportunities for beginning social welfare work, group work with inner city children, observation and involvement in such programs as community centers and gang work.

SOC 161/261 Dynamics of Majority-Minority Relations (3)

A study of majority policies toward minorities and of alternative minority responses to prejudice and discrimination. Special emphasis given to American minorities (racial and cultural) and to the impact of differential treatment upon minorities-within-minorities: e.g. children vis-a-vis the school, adults and employment opportunities, and the aged in a youth-oriented society.

#SOC 166/266 Contemporary Sociological Theory (3)

A critical evaluation of major contemporary sociological theorists as representative of various schools of sociological inquiry and analysis. GS-IIIF

#SOC 175/275 Urban Sociology (3)

A study of the change from rural to urban societies and the problems of adaptation created by this change. Major emphasis on the history of urbanization, demographic changes, the anti-urban bias, and social problems related to urbanization. Analysis of such problem areas as education, race, housing, poverty, welfare, taxation, etc.

#SOC 179 Sociology of the Arts (3)

An introduction to the sociology of the arts in which relationships between social institutions and various forms of artistic expression are explored. This will involve an examination of the impact of the arts upon

society and of society upon the arts with special attention being given to cross-cultural studies.

‡SOC 180/280 Social Stratification (3)

An examination of systems of class and caste, with special attention to the United States; and exploration of such elements of stratification as status, occupation, income, and others; a thorough examination of the style of life of minorities, the poor, the elite, and the middle class.

†SOC 185/285 Political Sociology (3)

A course designed to provide the student with an understanding of the organization of power and an analysis of the social basis of power and political institutions. This understanding of politics is used to analyze political behavior, political bureaucracies, political movements, interest groups, and social change. A review of some cross-cultural research is included.

SOC 189 The Sociology of Aging (3)

An exploration of the sociological definitions of aging, the demography of the aged and role changes, particularly from work to retirement. Included also are studies of class and caste and the effects of social status upon the quality of life of the elderly with an emphasis on employment opportunities, financial resources and service programs.

‡SOC 190 Social Change (3)

An examination of the areas of social change in American society with an emphasis on understanding the past in order to project

expected changes in the future. Attention is paid to the influences of internal and external factors upon social structures as well as the effect those changes have upon various segments of our society over the life-cycle.

†SOC 192 Social Policy and Aging (3)

An overview of social policies and major legislation directly affecting older adults, including social welfare and social services, Social Security, pensions, and work and retirement programs.

SOC 195/295 Sociology of Religion (3)

Religious belief and religious behavior as they influence other dimensions of social behavior. Social conditions as they influence belief and action. GS-IIIF, VA4

SOC 197 Applied Sociology (1-4)

An opportunity to apply the principles of sociology to an area of special student interest. Directed study under the auspices of community agencies. *Prerequisites: three courses including Sociological Perspectives; Methods of Research; and one upper division sociology course. Permission of the instructor is required.*

SOC 198 Readings in Sociology (1-6)

Intensive and independent study in a field of special interest at the culmination of one's sociological work.

SOC 199 Special Studies (1-6)

A more advanced or specialized treatment of an area covered in the regular course list.

Spanish

Departmental Affiliation: Foreign Language and Literature

The Department of Foreign Language and Literature offers majors and minors in French and Spanish (for French course description, see alphabetical listing).

The major in Spanish is a comprehensive program leading to a proficiency in the four basic language skills: speaking, reading, writing, and understanding. Incorporated into the program are the culture and civilization of the Spanish-speaking world. Students may plan their programs with an emphasis on language, literature, international business, or legal affairs.

Admission to the major is determined by the faculty of the department when the student applies.

The B.A. with a Major in Spanish

Preparation:

SPA 4A	Intermediate Spanish: Introduction to Spanish Literature	(3)
SPA 4B	Intermediate Spanish: Introduction to Spanish Culture	(3)
SPA 25AB	Advanced Grammar	(3,3)

Requirements:

SPA 108	Phonetics and Conversation	(3)
SPA 109	Stylistics and Composition	(3)
SPA 112A	Spanish Literature: Medieval, Renaissance, Golden Age	(3)
SPA 112B	Spanish Literature: 19th and 20th Centuries	(3)
SPA 191	Senior Thesis	(1)
	A course in the Golden Age	(3)
	A course in the Contemporary Period	(3)
	A course in the literature or civilization of Latin America	(3)
	Two additional upper division courses in Spanish literature, language or civilization	(6)

Plus general studies requirements and electives totaling 129 semester units.

The Minor in Spanish

A. Language, Literature Emphasis

Requirements:

A minimum of 21 units chosen from

SPA 4A	Intermediate Spanish: Introduction to Spanish Literature	(3)
SPA 4B	Intermediate Spanish: Introduction to Spanish Culture	(3)
SPA 25AB	Advanced Grammar	(3,3)
SPA 42	History and Civilization of Spain	(3)
SPA 109	Stylistics and Composition	(3)
SPA 112A	Spanish Literature: Medieval, Renaissance, Golden Age	(3)
SPA 112B	Spanish Literature: 19th and 20th Centuries	(3)

B. International Business Emphasis

Requirements:

A minimum of 21 units, including:

SPA 110	Writing for International Business	(3)
SPA 114	Interpretation and Translation	(3)
SPA 145	Contemporary Hispanic Culture	(3)

SPA 1 Elementary Spanish (3)
Develops fundamental skills in speaking, reading, understanding, writing. Use of the language laboratory is required. Classes feature demonstration, active practice and exchange in Spanish. GS-IV

SPA 2 Basic Spanish (3)
Emphasis is on speaking and understanding the spoken language. Cultural readings serve as a springboard for the acquisition of these skills. *Prerequisite: SPA 1 or placement test.* GS-IV

SPA 3 Intermediate Spanish (3)
Continues the development of all four language skills, emphasizing vocabulary building, perfecting pronunciation, increasing fluency. Language laboratory use is required. Class conducted in Spanish. *Prerequisite: SPA 2 or placement test.* GS-IV

SPA 4A Introduction to Spanish Literature (3)
Selected pieces of literature are analyzed and discussed in Spanish. The four skills are further developed with special stress on speech and writing. GS-IV

SPA 4B Introduction to Spanish Culture (3)
Readings in Spanish culture are analyzed and discussed. Reading, writing, speaking and comprehension in Spanish are developed. GS-IV

SPA 9 Spanish for the Medical Worker (3)
Essential Spanish for a variety of medical situations. Patient and medical worker role-playing is stressed.

SPA 25AB Advanced Grammar (2-3, 2-3)
A thorough review of the structure of the language with concentration on the more

complex points of Spanish grammar; exercises in original composition and intensive study of idiomatic expressions. *Prerequisite:* SPA 4AB.

SPA 42 History and Civilization of Spain (3)

A background course for the study of Peninsular literature and affairs. Historical, social and cultural development of Spain.
GS-IV

SPA 108 Phonetics and Conversation (3)

Concentrates on the essentials of phonetics, vocabulary building, and conversation, with emphasis on correct intonation and pronunciation. *Prerequisite:* SPA 3.

SPA 109 Stylistics and Composition (3)

A study of the stylistic elements of each of the literary genre. Written and oral analysis of selected masterpieces. *Prerequisite:* SPA 25A.

SPA 110 Writing for International Business (3)

Writing experience in order to prepare for effective business communication in correspondence forms, reports, and presentations.

SPA 112A Spanish Literature: Medieval, Renaissance, and Golden Age (3)

An introduction to Spanish literature from its beginnings to 1700 in poetry, drama, and prose.

SPA 112B Spanish Literature: The 18th, 19th, and 20th Centuries (3)

Prose, poetry and drama of Spain are traced from 1700 to the present.

SPA 114 Interpretation / Translation (3)

Translation and interpretation of current materials in Spanish relative to professional careers.

SPA 115/215 Applied Linguistics (3)

The linguistic approach to the teaching of Spanish.

SPA 118/218 Historical Grammar (3)

Origins and development of the language to modern times.

SPA 123 Literary Expression of Medieval Thoughts (3)

Themes, ideas, and forms of medieval literature as an expression of life, thought and attitudes of the Middle Ages: poetry, prose, and drama. *Prerequisite:* SPA 112A.

SPA 124 Golden Age Literature (3)

The development of Renaissance and Baroque writing from Garcilaso through Calderon. Interpretation and analysis of selected poems, plays and novels. This course may also focus on a single author or work.

SPA 130 Nineteenth Century Spanish Literature (3)

Romanticism, Realism and Naturalism as manifested in the works of representative authors. Detailed study and analysis of selected works.

SPA 132 Studies in the Generation of 1898 (3)

The spirit of the Generation of '98 as reflected in the works of major representative authors. Intensive analysis of selected works.

SPA 135 Peninsular Literature of the Twentieth Century (3)

Major trends in peninsular poetry, theater, and prose fiction from 1898 to today. Intensive study of specific authors and critical analysis of selected works.

SPA 140 The "Modernista" Poets (3)

A study of the literary significance of "Modernismo" in Spanish-American poetry through an intensive study of its most representative poets. Characteristics of the movement, its culmination and decadence. Interpretation and analysis of selected poems.

SPA 141 Spanish-American Literature of the Twentieth Century (3)

Major trends in Spanish-American poetry, theater and prose fiction from the early Twentieth Century to the present; their social and literary significance. Interpretation and critical analysis of representative works.

**SPA 144 History and Civilization
of Spanish America (3)**

A background course for the study of Spanish-American literature. Historical, social and cultural development of Spanish America. GS-IV

**SPA 145 Contemporary Hispanic
Culture (3)**

Special emphasis on the ideas of today's mass media, the customs, political issues, literature, arts, popular culture, geography, and history of the Spanish-speaking people of the twentieth century. GS-IV

SPA 190AB Internships (3,3)

Internship program in areas related to Spanish.

SPA 191 Senior Thesis (1)

Spanish majors complete a senior thesis in literature under the direction of a department member, enrolling in SPA 191, *Senior Thesis*, during the term in which they complete the work. Upon acceptance of the paper by the department, the student receives one unit of credit and no grade.

SPA 194 Study/Travel (1-6)

Pre-travel lectures and readings, as well as guided tours in the country, serve as basis for a study/travel program, with each participant developing a project highlighting the travel experiences.

**SPA 99/199AB Independent
Studies (1-3, 1-3)**

Directed readings and research. For qualified students with the approval of the department.

Speech

Departmental Affiliation: English

**#SPE 10 Introduction to
Communication (2)**

Introduction to basic principles of communication theory in both small and large groups together with practice in discussion and speech delivery. GS-IB

SPE 11 Communication Practicum (1)

Application of communication principles to a specific discipline. SPE 10 desirable as prerequisite but not necessary. May be repeated for credit. GS-IB

**#SPE 12 Business and Professional
Communication (1)**

Examination of the communication that occurs in corporations and professional settings with practice in interviewing, in group dynamics, and in public presentations typical of the world of work. GS-IB

SPE 13 Oral Argumentation (3)

Principles of logic and rhetoric required for persuasion together with practice in forensics. GS-II

#SPE 14 Group Communication (3)

Theory of how people process information, treat ideas, exchange opinions, and achieve consensus as well as practice and analysis of group communication. GS-IB

**SPE 20 Non-Verbal
Communication (1)**

Examination of the role non-verbal communication plays in the communication process with special emphasis on the interaction between the verbal and non-verbal elements.

**#SPE 21 Communication
Apprehension (1)**

Identification of the causes of fear in communicating in large or small groups and application of methods of compensating for it. GS-IB

SPE 22 Voice and Diction (1)

Practice in mastering sound production and pronunciation. GS-IB

SPE 23 Parliamentary Procedure (1)

Mastery of the rules for conducting and participating in meetings together with practice in applying the rules.

***SPE 91 Directed Study (1-3)**

Study in a field of special interest in speech or drama, under the direction of a department member. May be repeated for credit.

***SPE 92 Special Studies (1-3)**

Exploration of special interests in speech communication or drama. May be repeated for credit.

***SPE 96 Workshop (1-3)**

May be repeated for credit.

Special Programs

Women's Leadership Program

The Women's Leadership Program is a non-degree program. It is a supplemental program open to all majors.

A.A. Women's Leadership Program Curriculum:

FIRST YEAR			
<i>Fall</i>	<i>Units</i>	<i>Spring</i>	<i>Units</i>
SPR 16A Leadership Seminar I	(1)	SPR 16B Leadership Seminar II	(1)

SECOND YEAR			
<i>Fall</i>	<i>Units</i>	<i>Spring</i>	<i>Units</i>
SPR 17A Leadership Seminar III	(1)	SPR 17B Leadership Seminar IV	(1)

B.A./B.S. Women's Leadership Program Curriculum:

FIRST YEAR			
<i>Fall</i>	<i>Units</i>	<i>Spring</i>	<i>Units</i>
SPR 16A Leadership Seminar I	(1)	SPR 16B Leadership Seminar II	(1)

THIRD OR FOURTH YEAR

<i>Spring</i>	<i>Units</i>
SPR 116C Advanced Leadership	(1)

RECOMMENDED COURSES:

SPR 18/118 Career Planning Seminar	(2)	INT 31 Focus	(2)
SPE 10 Public Speaking	(3)	Departmental Internship	(1-3)
or			
SPE 13 Oral Argumentation	(3)		
or			
POL 134 International Organization	(3)		
(Model United Nations)			

SPR 16A Leadership Seminar I (1)
 An introduction to the theory and issues of leadership, with particular emphasis on the application of these principles to women in higher education. *Satisfies Group Experience requirement for A.A. degree.*

SPR 16B Leadership Seminar II(1)
 An investigation of the concepts and techniques of leadership which enables the student to assess individual leadership skills. Particular attention is devoted to the study

of and participation in leadership skill-building workshops.

SPR 116C Advanced Leadership Seminar III (1)
 A seminar focusing upon problem solving through case studies with professionals in business, public service, law, and medicine. Particular attention is devoted to practical application of advanced leadership skills.
Prerequisite: SPR 16A, SPR 16B.

Interdisciplinary Courses

INT 31 Focus I (2)
 A seminar for women returning to higher education designed to focus personal goals and academic options, to provide supportive discussion of the problems of "re-entry" and to consider the risks and rewards of re-assessment and growth. The course seeks to heighten one's ability to see, power to act more resolutely, wisdom to accept both the consequences and the continuing questions.

INT 32 Focus II (2)
 A seminar for women returning to higher education designed to focus the problem of knowledge: the process, its extent and limits, its power and responsibilities, its application to problems in contemporary society. The question is approached from an interdisciplinary point of view with a panel of guest faculty present at each class meeting.

INT 94 Study/Travel: Seminar(1-6)

INT 95 Study/Travel: European History and Culture (1-6)

GS-III A

SPR 11 Seminar (1-3)
 May be repeated for credit.

SPR 12 Studies in Humanities (1-3)
 May be repeated for credit.

SPR 13 Studies in Contemporary Society (1-3)
 May be repeated for credit.

SPR 14 Independent Study (1-3)
 May be repeated for credit.

SPR 15 Workshop (1-3)
 May be repeated for credit.

SPR 15S American Sign Language (1)
 I. Students learn basic concepts of sign language and fingerspelling. They begin to understand deafness and its impact on communication. II. Students improve sign vocabulary, increase receptive and expressive skills, develop story-telling techniques, and learn sign language idioms.

Physical Education

PED 7 Aesthetics of Dance (1-3)
 Study of the technical aspects of moving, creation of dances (choreography), philosophy and history of the dance, and critical appraisal and evaluation of professional dance performers. May be repeated for credit.

PED 8 Dance Workshop (1-6)
 Application of techniques of dance with the opportunity for original performance.

PED 9 Physical Education (.5-1)
 May be repeated for credit.

Personal Development

SPR 25 Introduction to Peer Counseling (1)
A survey of the issues and skills needed by student paraprofessionals. Emphasis is placed on the experiential development of both leadership and counseling skills. Reference is made to the practical applications of skills for personal growth as well as campus peer counseling. *Open to all students and required of students applying for peer counseling positions.*

SPR 25A Resident Assistant Seminar (1)
A more advanced course which focuses on the complexities of responding in counseling situations. Special attention is paid to self-understanding, empathy training and problem-solving. *Permission of instructor is required.*

SPR 18/118 Career Planning Seminar (1-2)
Training in how to analyze one's needs, interests, skills and values; application to decisions about work, leisure time, choice of major and academic planning. Introduction to the most accurate sources of career information and traditional and non-traditional ways of finding a job, with special emphasis on resume writing and interviewing skills. Special topics such as integration of a career with family life may be discussed according to class needs.

SPR 19 Personal Awareness (1)
An application of Abraham Maslow's theory of a hierarchy of needs to the life of the student. It will explore what these needs are, how the resources of the college can help in meeting these needs, and how to be more successful and efficient in meeting these needs.

Other Courses

SPR 60A Social Action (1-3)
A multi-faceted community action program geared to help people in need. Approximately twenty-five hours of volunteer work under supervision in an approved agency or center and a weekly seminar required. May be repeated for credit.

SPR 20X Reading and Academic Study Techniques (1-3)

An analytical method to strengthen reading efficiency: includes theory and practice to strengthen habits of systematic listening, notetaking, and techniques for handling related study problems; reference books, literary works, textbooks, and current academic readings. *Credit for SPR 20X may not be counted toward the baccalaureate degree.*

SPR 21X Math Workshop (1)
A skills course in the fundamental processes of arithmetic. *Strongly recommended for nursing basic math test; recommended for business, education, and other majors who need additional preparation in basic math. Credit for SPR 21X does not apply to the baccalaureate degree.*

SPR 55X Reading Development (3)
Vocabulary development through study of prefixes, roots, suffixes; thorough spelling drill; review of basic sentence structure; reading and discussion of selected imaginative and expository pieces. *Required for A.A. students who are academically underprepared. Credit for SPR 55X does not apply to the baccalaureate degree.*

SPR 57X Basic Mathematics (3)
A skills course in fundamental processes of arithmetic designed to develop both accuracy and speed in addition, subtraction, multiplication, and division of whole numbers, fractions, and decimals. *Required for A.A. students who are academically underprepared. Credit for SPR 57X does not apply to the baccalaureate degree.*

SPR 60B Fieldwork (1-3)
Consists of fieldwork related to a particular course or program. It extends the instructional process and awareness beyond the campus in order to have career-related experience, to derive meaning from real-life situations, and to give community service.

SPR 98 Special Experience (1-3)

This course has variable title, content, and credit. It is designed to give students the opportunity to obtain credit for an experience obtained prior to or concurrently with their regular classes. The specific course title and description is prepared when the student enrolls in the course. A student may enroll in this course no more than three times.

SPR 99 Special Experience: Independent Study (1-3)

This course has variable title, content, and credit. It is intended to allow a student to engage in independent study under the direction of a faculty member. The specific course title and description is prepared when the student enrolls in the course. A student may enroll in this course no more than three times.

Extension Programs

Units in this area are for enrichment and will be accepted toward degree only on an individual basis.

Master of Arts in Applied Spiritual Theology

With an Emphasis in Catholic School Ministry

The Master of Arts in Applied Spiritual Theology is designed for the professional, personal, and faith development of persons who have been involved in and will continue to participate actively in ministry within the Catholic church. This degree is not designed for professionals in the field of teaching religious studies.

Admission

Because of the nature of this program, a person requesting admission should have a minimum of two years involvement in some aspect of Catholic education/ministry and possess the following personal qualities:

1. commitment to the continuing development of self;
2. good relational ability;
3. desire to help others toward Christian maturity;
4. Christian faith which evidences itself in practice;
5. understanding and acceptance of the basics of Catholic teaching and a contemporary perspective of the Catholic Church.

A person must hold a baccalaureate degree from an accredited college or university. The previous academic record must give evidence that the person is able to pursue graduate studies successfully. Ordinarily the GPA would be 2.75 or higher on a 4 point scale.

An applicant is required to complete a 12-hour, non-credit introductory survey of contemporary Catholic teaching before admission to the program. (This requirement may be waived at the discretion of the program director on the basis of the applicant's background and experience.)

Degree Requirements

The Master of Arts in Applied Spiritual Theology degree includes the following requirements:

1. thirty (30) semester units including one unit of directed study based on participation in four workshops/conferences sponsored by the MSMC Spiritual Life Program or, with the approval of the program coordinator, other relevant MSMC workshops;
2. 3.0 GPA;
3. written comprehensive examination based upon the core courses.

The nine required core courses for the degree account for twenty-three (23) of the thirty (30) required semester units. The additional units may be acquired in one of the following ways:

Plan A

1. three (3) units of course work through the Master of Religious Studies program, upon advisement;
2. three (3) units of practicum;

Practicum Options:

Option 1:

- a. thirty (30) hours of field experience
- b. written project presented at the conclusion of field experience
- c. oral presentation
 - evaluation of experience
 - explanation of proposed project

Option 2:

- a. thirty (30) hours of field experience
- b. written project presented for approval by mid-phase of field experience
- c. project implementation
- d. oral presentation
 - evaluation of experience
 - progress report on project

Plan B:

1. five (5) units of course work through the Master of Religious Studies program, upon advisement
2. one (1) unit research essay with oral presentation to a faculty committee

Core Curriculum

The core courses address four areas: spirituality, Catholic tradition / theology, scripture, and ministry.

SPT 200 Introductory Survey (0)

Twelve-hour updating on the Church's approach to scripture, ethics, and systematic theology.

SPT 202 History of Spirituality (3)

Historical and thematic survey of the major developments in the Christian tradition of spirituality, including critique and contemporary application.

SPT 223 Church: Contemporary Documents (3)

Study of documents from Vatican II, and post-Conciliar documents, emphasizing the nature of the Church and the social teachings of the Church.

SPT 231 Grace and the Christian Personality (3)

The theology of grace and the contributions of the behavioral and social sciences as they influence personality structure and growth.

SPT 236 Counseling and Christian Formation (3)

Two units: Theory emphasizing the Christian formation of young adults, and introduction to family counseling. One unit: Practicum, counseling young adults individually or in a group.

SPT 244 Faith and Moral Development (3)

Study of the development of faith and values, with attention given to some specific moral issues.

SPT 251 Traditions of Christian Prayer (2)

Investigation of the variety of "prayer ways" within the Christian tradition, using readings from the literature of spirituality.

SPT 257 Praying with Scripture (3)

Two units: Articulation of major scriptural themes and methods of praying with such themes. One unit: Practicum in leading others in scriptural prayer.

SPT 262 Theology of Liturgy: Eucharist and Reconciliation (2)

Theological background, and practical implementation of the sacraments of Eucharist and Reconciliation.

SPT 282 Spiritual Direction (1)

Methods for directing individuals in the ways of discernment. (The candidate receives spiritual direction for at least five consecutive months at some point during the program. Opportunity for this direction will be provided.)

SPT 289 Practicum (1-3)

Experiential class focusing on particular area of interest.

SPT 291 Research Essay (1)**SPT 297 Directed Study (1)**

Exploration of special interest areas based on participation in four workshops/conferences sponsored by the MSMC Spiritual Life Program.

SPT 298 Comprehensives (0)

Patricia Lei Alzobaie

Lecturer in English

B.A., California State University, Los Angeles; M.S., M.A., Ed.D. (Cand.), University of Southern California.

Sister Mary Frederick Arnold, CSJ

Associate Professor of Psychology

B.A., Mount St. Mary's College; M.A., Ph.D., Loyola University, Chicago.

Sister Sharon Baker, CSJ

B.S., Mount St. Mary's College.

Daphne Nicholson Bennett

Professor Emeritus of English and Speech

B.A., M.A. (Reg) Diploma in Dramatic, Art, University of London; M.A., Ph.D., University of London; M.A., Ph.D., University of Southern California; postdoctoral study, University of Oxford, Shakespeare Institute, University of Birmingham.

Mary Ann Bonino

Professor of Music

B.A., Mount St. Mary's College; M.A., Ph.D., University of Southern California.

Sister Margaret Clare Borchard,

CSJ

Academic Resource Personnel II

B.A., Mount St. Mary's College; M.Ed., University of California, Los Angeles.

Sister Annette Bower, CSJ

Professor of Biological Sciences

B.S., Mount St. Mary's College; M.S., Creighton University; Ph.D., University of Arizona, Tucson.

Nancy Brown

Instructor in Nursing

B.S.N., Boston University; M.N., University of California, Los Angeles.

Frank Custer Brownstead

Instructor in Music

A.B., B.M., College of Wooster; S.M.M., Union Theological Seminary.

Katherine T. Brueck

Assistant Professor of English

B.A., John Carroll University; M.A., Purdue University; Ph.D., University of Illinois.

Hallie F. Bundy

Professor of Biochemistry

B.A., Mount St. Mary's College; M.S., Ph.D., University of Southern California.

Nancy Jo Bush

Instructor in Nursing

M.N., University of California, Los Angeles.

Sister Rose Gertrude Calloway, CSJ

Professor Emeritus of Mathematics

B.A., Mount St. Mary's College; M.S., Ph.D., Catholic University of America.

Barbara Cancilla

Instructor in Physical Therapy

B.S., Quinnipiac College.

Catherine Casey

Assistant Professor of Nursing

R.N., Certified Midwife, England; B.S.N., California State University, Los Angeles; M.N., University of California, Los Angeles.

Joan M. Cho

Assistant Professor of Nursing
B.S.N., M.S.N., Indiana University.

Sister Rose Catherine Clifford, CSJ

Associate Professor Emeritus of History
B.A., Mount St. Mary's College; M.A.,
Ph.D., University of California, Los
Angeles.

Sister Mary Louise Collette, CSJ

Assistant Professor of Mathematics
B.A., Mount St. Mary's College; M.A.,
University of California, Los Angeles.

Erika M. Condon

Head Librarian
B.A., California State University, Sacramento;
M.A.L.S., University of Denver;
M.P.A., California State University, Sacramento (Cand.)

Sister Barbara Cotton, CSJ

Lecturer in History
B.A., M.A., Mount St. Mary's College.

Molly Coughlin

Instructor in Nursing
B.S.N., University of Massachusetts;
M.N., University of California, Los
Angeles.

Sharon Labrot Crasnow

Assistant Professor of Philosophy
B.A., Barnard College, Columbia University;
M.A. and Ph.D., University of Southern California.

Sister Pancratius Cremins, CSJ

Academic Resource Personnel I
B.A., Mount St. Mary's College.

Sister Imelda D'Agostino, CSJ

Assistant Professor of Education
B.A., Mount St. Mary's College; M.A.,
California State University, Northridge.

Irma D'Antonio,

Associate Professor in Nursing
B.S.N., University of Pittsburgh; M.S.N.,
Boston University; M.N., Ph.D., University
of Pittsburgh.

Janice Daurio

Lecturer in Philosophy
B.A., Hunter College, City University of
New York; M.A., Claremont Graduate
School.

James Delahanty

Professor of Political Science
B.S., M.A., Rutgers University; Ph.D.
(Cand.), University of California, Los Angeles;
J.D., Loyola-Marymount University.

Matthew S. Delaney

Professor of Mathematics
B.A., Immaculate Heart College; M.S.,
University of Notre Dame; Ph.D., Ohio
State University.

Sister Laurentia Digges, CSJ

Professor of English
B.A., Mount St. Mary's College; M.A.,
Ph.D., Catholic University of America.

Sister Rebecca Doan, CSJ

Professor of Nursing
B.S., Mount St. Mary's College; M.S.,
Catholic University of America; Ed.D.,
University of California, Los Angeles.

Marjorie Dobratz

Assistant Professor of Nursing
B.S.N., M.S.N., Marquette University

Matt Doran

Professor of Music
B.A., B.M., M.Mus., D.M.A., University of
Southern California.

Sheila Driscoll

Assistant Professor in Nursing
B.S.N., California State University, Los
Angeles; M.N., University of California,
Los Angeles.

**Sister Michele Therese Dumont,
CSJ**

Assistant Professor of Philosophy
B.A., Mount St. Mary's College; M.A.,
California State University; Long Beach;
Ph.D., Boston University.

Sister James Marien Dyer, CSJ

Instructor in History
B.A., Mount St. Mary's College; M.A.,
University of California, Los Angeles.

Sister Joseph Adele Edwards, CSJ
Assistant Professor of English
B.A., Mount St. Mary's College; M.A.,
University of Southern California.

Marie Egan, I.H.M.
Associate Professor in Religious Studies
B.A., M.A., Immaculate Heart College;
S.T.B., S.T.L., S.T.D., Catholic University
of America.

Sister Teresita Espinosa, CSJ
Professor of Music
B.M., Mount St. Mary's College; M.M.,
D.M.A., University of Southern California.

Valerie Ferrin
Instructor in Physical Therapy
B.S., Brigham Young University; M.S.,
Texas Women's University.

Hope K. Fitz
Assistant Professor of Philosophy
B.A., California State University of Los
Angeles; M.A. and Ph.D., Claremont Graduate
School.

Sister Mary Evelyn Flynn, CSJ
Assistant Professor of Education
B.A., M.A., Mount St. Mary's College;
M.S., University of Southern California.

Patricia R. Freed
Lecturer in Psychology
B.A., University of California, Los Angeles;
M.S., Mount Saint Mary's College.

Eugene G. Frick
Associate Professor of Religious Studies
B.A., University of Dayton; M.A., Ph.D.,
Marquette University.

Marianne Frostig
Professor of Special Education
B.A., New School of Social Research, New
York; M.A., Claremont College; Ph.D.,
University of Southern California.

Sister Aline Marie Gerber, CSJ
Professor of Romance Languages
B.A., University of Southern California;
M.A., University of California, Berkeley;
Ph.D., University of California, Los
Angeles.

Sister M. Hildegarde Gerber, CSJ
Academic Resource Personnel II
B.A., Pomona College; M.A., Ph.D.(Cand.),
University of California, Los Angeles.

Jake Gilson
Associate Professor of Art
B.A., Humboldt State University; M.F.A.,
Arizona State University.

Candyce Allyn Goodfellow
Lecturer in Psychology
B.A., California State University,
Northridge; M.A. and Ph.D., University of
California, Riverside.

Anthony J. Guarino
Instructor in Psychology
A.B., University of California, Berkeley;
M.S., University of Southern California.

Vivian Harper
Lecturer in Education and Psychology
B.A. and M.S., California State University,
Hayward; Ph.D. (Cand.), University of
Southern California.

J.W. Hawekotte
Lecturer in Accounting
B.S.C., Loyola University, Chicago; C.P.A.,
Illinois.

Doris Harris
Assistant Professor of Education
B.A., Mount St. Mary's College; M.S.,
University of Southern California.

Sandra Hendrickson
Assistant Professor in Nursing
B.S.N., University of Wisconsin; M.A.,
University of Minnesota.

Mary E. Hicks
Assistant Professor in Nursing
B.S., University of Pittsburgh; M.P.H.,
University of Michigan.

Kathleen Hinoki
Instructor in Nursing
B.S.N., M.S.N., California State University,
Los Angeles.

Ruth Hoffman
Professor of Sociology
B.A., B.S., M.A., Ph.D., University of
Nebraska.

Cynthia Johnson

Instructor in Nursing
M.S., Long Island University, New York.

Sister Anne Kavanagh, SS

Instructor in Mathematics
B.A., Immaculate Heart College; M.A., Boston College; M.Ed., Loyola University of Chicago.

Sister Kathleen Kelly, CSJ

Assistant Professor of History
B.A., M.A., Mount St. Mary's College; Ph.D., University of Southern California.

James Koobatian

Academic Resource Personnel II
B.A., California State University, Fresno; M.S.L.S., University of Southern California; M.A., California State University, Long Beach.

Joanne B. Krakow

Assistant Professor of Psychology
B.A., Smith College; M.S., Southern Connecticut State College; Ph.D., Boston University.

Karen Krejci

Instructor in Nursing
B.S.N., Marquette University; M.N., University of California, Los Angeles.

Mary Kristian

Associate Professor of Spanish
B.A., University of Texas; M.A., Northwestern University; graduate study, University of Wisconsin; L'Universite' de Geneve.

Jean Kuriki

Instructor in Nursing
B.S.N., University of Hawaii; M.N., University of California, Los Angeles.

Catherine Kwan

Associate Professor of Biological Sciences
B.S., National Taiwan University; M.A., State University of South Dakota; Ph.D., University of Maryland.

Sister Miriam Joseph Larkin, CSJ

Lecturer in Music
B.M., Mount St. Mary's College; M.M., University of Southern California; graduate study, Oxford University; Pius X School of Liturgical Music, Fontainebleau, France.

Sister M. Gerald Leahy, CSJ

Professor of Biological Sciences
B.A., University of Southern California; M.S., Catholic University of America; Ph.D., University of Notre Dame; post-doctoral study, Harvard University.

Lillian Leavitt

Instructor in Nursing
A.A., Cerritos College; B.S., M.S.N., California State University, Los Angeles.

David Leese

Associate Professor of English and Business
B.A., Amherst; J.D., Northwestern University; Member, California Bar; M.A., Ph.D., Brandeis University.

John J. Lingel

Lecturer in Education
B.A., Lawrence University; M.S., University of Southern California; Ed.D., University of California, Los Angeles.

Jane E. Lingua

Assistant Professor in Biological Sciences
B.S., University of Southern California; M.S., California State University at Los Angeles; Ph.D., University of Southern California.

Barbara Loitz

Instructor in Physical Therapy
B.S., M.S., University of California, Los Angeles.

Verle D. Lubberden

Assistant Professor of Education
B.S., M.S., University of Southern California.

Sister Margaret Lynch, CSJ

Academic Resource Personnel I
B.A., Mount St. Mary's College; M.A., University of Southern California; European Study, Vergilian Academy, Rome.

Sister Rose De Lima Lynch, CSJ

Professor Emeritus of Education
B.A., M.A., University of Southern California; Ph.D., University of California, Berkeley; graduate study, Regina Mundi, Rome.

Sister Elizabeth Anne Malone, CSJ
Assistant Professor of Business
B.A., Mount St. Mary's College; M.A.,
University of California, Los Angeles.

Kathleen Manella
Lecturer in Physical Therapy
B.S., University of Illinois.

Jane McAteer
Assistant Professor in Nursing
B.S.N., Georgetown University; M.N., University of California, Los Angeles.

Terence N. McConville
Lecturer in Education
B.A., University of California, Los Angeles; M.Ed., California Lutheran College; J.D., University of San Fernando College of Law.

Sister Doris Marie McDonald, S.N.D.
Lecturer in History
B.A., Mount St. Mary's College; M.A., Loyola-Marymount University.

Mary Rae Melgun
Instructor in Nursing
B.S., M.N., University of California, Los Angeles.

Al Merschen
Assistant Professor of Business
B.A., Maryville College; M.A., Webster University.

Sister Eloise Therese Mescall, CSJ
Professor of Romance Languages
B.A., M.A., Ph.D., University of California, Los Angeles; graduate study, Sorbonne, Paris; Laval University, Quebec; University of Lausanne, Switzerland; Visiting Professor, University of Louvain, Belgium.

Reverend Aloysius Michael
Associate Professor of Religious Studies
B.S., University of Madras; M.A., College of Jesuits (Shenabaganur, India); M.Th., Institute of Philosophy and Religion (Poonam, India); M.Ed., Loyola University, Los Angeles; S.T.D., Gregorian University, Rome.

Sister Marie Therese Moore, S.N.D.
Lecturer in Foreign Languages
B.A., California State University, Northridge; M.A., Monterey Institute of International Studies.

James Murray
Associate Professor of Art
B.F.A., M.F.A., Art Center College of Design, Los Angeles.

Lyola Murray
Instructor in Nursing
B.S.N., M.N., University of California, Los Angeles.

Winona Murray
Lecturer in Education
B.S., Temple University; M.S., Mount St. Mary's College.

Mallur R. Nagaraja
Assistant Professor of Business
B.Sc., M.Sc., University of Mysore, India; M.S., M.B.A., University of California, Los Angeles.

Marie Alexis Navarro, I.H.M.
Associate Professor in Religious Studies
B.A., Immaculate Heart College; M.A., Fordham University; Ph.D., St. Michael's College, University of Toronto.

Carolyn Norris
Librarian
B.A., Whittier College; M.L.S., University of California, Los Angeles.

Ronald J. Oard
Professor of History and Political Science
B.A., Regis College; M.A., Creighton University; M.P.A., University of California, Los Angeles; Ph.D., St. Louis University.

Reverend George O'Brien
Associate Professor of English
B.A., St. John's College; M.A., Loyola-Marymount University; Ed.D., University of Southern California.

Mary Louise Ortega-Lau
Lecturer in Education
B.S., California State University, Los Angeles; M.A., California State University, Northridge.

Sister Maura Jean Parsons, CSJ

Academic Resource Personnel II
 B.Ed., University of California, Los Angeles; M.A., Mount St. Mary's College; graduate study, University of Southern California.

Sister Carol Purzycki, CSJ

Instructor in Nursing
 B.A., Mount St. Mary's College; M.N., University of California, Los Angeles.

Donna Redman-Bentley

Associate Professor in Physical Therapy
 B.S., Pennsylvania State University; M.S., Ohio State University; Ph.D., University of Southern California.

Claudia Reed

Librarian

B.A., University of California, Los Angeles; M.A., San Francisco State University; M.S.S., University of California, Los Angeles.

Sister Mary Regina Robbins, S.N.D.

Lecturer in Religious Studies
 B.A., Mount St. Mary's College; Diploma, Regina Mundi, Rome; M.A., Gregorian University, Rome; M.A., Loyola-Marymount University.

Bennett Scott Ross

Lecturer in Education

B.A., Adelphi University; M.A., Ph.D., California School of Professional Psychology.

Sister Callista Roy, CSJ

Professor of Nursing
 B.A., Mount St. Mary's College; M.S., M.A., Ph.D., University of California, Los Angeles.

James S. Royer

Lecturer in Education

B.F.S., M.S., M.Ed., University of Southern California; Ed.D., Brigham Young University.

Jack D. Ruebensaal

Lecturer in Political Science
 B.A., Loyola University, Los Angeles; M.A., Monterey Institute of International Studies; Ph.D., London School of Economics.

Beth Rubenstein

Instructor in Physical Therapy
 B.S., Ithaca College; M.Ed., University of Southern California.

Lawrence J. Ryan

Professor of Psychology
 B.A., John Carroll University; M.A., East Carolina University; Ph.D., University of Windsor, Canada.

Reverend Sylvester Ryan

Lecturer in Religious Studies
 B.A., St. John's Seminary; M.A., Immaculate Heart College.

Marsha Sato

Assistant Professor in Nursing
 B.S., Mount St. Mary's College; M.N., University of California, Los Angeles.

Peter Schellin

Lecturer in Art

B.F.A., M.A., University of Wisconsin; Ph.D., University of Oregon.

Sister Dolores Cecile Schembri, CSJ

Assistant Professor of Music
 B.M., Mount St. Mary's College; M.M., University of Southern California.

Norman W. Schwab

Professor of Art

B.A., M.A., California State University, Los Angeles.

Ilene Schwartz

Lecturer in Physical Therapy
 B.S., Washington University; M.S., Boston University.

Mary Sedgwick

Academic Resource Personnel III
 B.A., M.A., California State University, Long Beach; M.A., in L.S., Immaculate Heart College.

Jane Servovsky

Assistant Professor in Nursing
 B.S., Old Dominion University; M.S., California State University, Los Angeles.

Sister Mary Patricia Sexton, CSJ

Associate Professor Emeritus of English
B.A., Mount St. Mary's College; M.A., University of California, Los Angeles; graduate study, Stanford; research and study of Dante's *Divine Comedy* in Florence and Rome.

Eleanor Siebert

Professor of Chemistry
B.A., Duke University; Ph.D., University of California, Los Angeles.

Mimi A. Simson

Assistant Professor of Sociology
B.A., Wilson College; M.A., University of Louisville; Master's Certificate in Gerontology, University of Southern California.

Mary Sloper

Assistant Professor of Nursing
B.A., Mount St. Mary's College; M.N., University of California, Los Angeles.

Emily Smythe

Lecturer in Nursing
B.S.N., Cornell University; M.N., University of California, Los Angeles.

George E. Snow

Assistant Professor of Biological Sciences
B.A., Rockhurst College; M.A., Ph.D., University of Colorado, Boulder.

Joyce S. Snyder

Lecturer in Psychology
B.A., M.A., Antioch College.

Delores Stevens

Lecturer in Music
B.M., University of Kansas; Concert artist.

Sister Rose Leonard Stevling, CSJ

Lecturer in English
B.A., M.A.T., Mount Saint Mary's College.

Daniel Stogryn

Assistant Professor of Chemistry
B.S., University of Pennsylvania; Ph.D., University of Wisconsin.

Robert Sully

Adjunct Professor, International Business
M.A., Ph.D., Claremont Graduate School.

Nancy S. Taylor

Assistant Professor in Nursing
B.S., Mount St. Mary's College; M.S., University of California, Los Angeles.

Mary Tedrow

Assistant Professor of Nursing
B.A., M.S., California State University, Los Angeles.

Sharon A. Vairo

Associate Professor of Nursing
B.S.N., Wayne State University; M.S., University of Colorado.

Sister Kieran Vaughan, CSJ

Assistant Professor of Education
B.A., M.S., Mount St. Mary's College; Ed.D., University of California, Los Angeles.

Rita R. Veatch

Assistant Professor of Nursing
B.S., Mount St. Mary's College; M.A., Teachers College, Columbia University.

Sister Margaret Anne Vonderahe, CSJ

Lecturer in English
B.A., Mount St. Mary's College; M.Ed., Loyola-Marymount University; M.A., (Cand.) California State University, Northridge.

Sylvia Walker

Lecturer in French
B.A., M.A., Ph.D., University of California, Los Angeles.

Mickie Welsh

Instructor in Nursing
M.S.N., Catholic University of America.

Katherine Whitman

Assistant Professor in Business
B.A., Mount St. Mary's College; M.A., University of California, Los Angeles; Graduate study, Temple University.

***Sister Mary Williams, CSJ**

Associate Professor of English
B.A., College of St. Catherine; M.A., Ph.D., Stanford University; postdoctoral study, Oxford University, Shakespeare Institute, Stratford.

F. Roman Young

Professor Emeritus of Education
 B.A., St. John's University, Toledo; B.S.
 Ed., Toledo Teachers College, M.A., Ph.D.,
 University of Michigan.

Marie Zeuthen

Assistant Professor of Biological Sciences
 B.S., Mount St. Mary's College; M.S.,
 Ph.D.(Cand.), University of California, Los
 Angeles.

Teacher Education Program — Cooperating Staff

Jack S. Furumura, *Principal, and Staff of Coliseum Street School*

Josephine Jemenez, *Principal, and Staff of Hamilton High School*

Sister Eleanor Marie Ortega, CSJ, *Principal, and Staff of St. Vincent School*

Beverly Tietjen, *Principal, and Staff of Brentwood Elementary School*

Robert F. Simpson, *Principal, and Staff of Pasteur Junior High School*

Applied Music Faculty

Piano: Howard Barr, Sister Teresita Espinosa, Sister Nancy Fierro, Ruth Goldin, Joanna Graudan, Leonid Hambro, Johana Harris, Randal Lawson, Alice Rejto, Goldie Rodgers, Sister Dolores Cecile Schembri, Bernardo Segall, Delores Stevens, Chet Swiatkowski, Robert Turner, Aube Tzerko, Earl Voorhies, Eugenee Ward.

Organ: Elfreda Baum, David Britton, Frank Brownstead, Harold Daugherty, Jr., Marcia Farmer, Sister Maura Jean Parsons.
